upholstery fabrics

TEKNION STANDARD UPHOLSTERY FABRIC PROGRAM

All fabrics are developed to enhance Teknion systems products incorporating technology in fiber development. They are designed to coordinate with the other finishes in Teknion system and seating programs. The fabrics are offered in a range of low intensity colors with some stronger hues and a variety of solids, patterns and textures. All Teknion fabrics are developed to exceed technical standards.

Teknion has a full program of standard fabrics, vinyl and leather appropriate for most seating lines. All fabrics are covered by Teknion standard warranty and meet all standards for CAL 116 and 117 and exceed industry durability requirements. All upholstery coverings may not be approved for use on all chair families. Please refer to the **Listing & Application Matrices** within this section for fabric applications.

Fabrics meet or exceed performance standards by ACT (Association for Contract Textiles).

Please note, leathers and faux-leathers may show natural blemishes, scars and wrinkles which are inherent material characteristics and as such deemed acceptable by Teknion. Variation of color, grain and texture found in wood and leather are also natural. Teknion is not responsible for reverse crocking of dyes from clothing onto our seating upholstery and finishes.

FABRIC PATTERN DIRECTIONAL GUIDELINES

Directional specifications are not required for any of Teknion Standard Upholstery to Teknion products. All Standard Upholstery Fabrics will be run off-the-bolt, as shown on the sample card. See the **Fabric Pattern Directional Guidelines** in the General Information section at the back of the book for more details.

** Rate and extent of biodegradation into elements found in nature is 91% after 1,278 days under ASTM D5511 (Anaerobic Biodegradation of Plastic Materials Under High Solids Anaerobic Digestion Conditions.) The test was done with the same component (PET) polyester and biocatalyst additive. No evidence of further degradation.
