## Magnify

# Magnify by Luum

Magnify is a lustrous, textured solid upholstery fabric made from using both thick and thin yarns in the warp, and created with a new weave structure from our studio. The texture is “magnified” from the play of the two yarn thicknesses, hence the name. The palette reflects today’s desire for deep and saturated earth tones, equally classic and fresh. Magnify is heavy duty, has recycled content, and is colored with heavy metal-free dyes. Due to its rich texture and hues, as well as high performance, Magnify will work in a wide range of upholstery applications from task seating through guest and lounge seating.
