

Teknion freestanding systems

ability

# Ability overview

Ability® is mobile furniture designed to function independently or within panel-based environments. Ability enables user manageability, whereby furniture can be moved and modified to reflect changes in workflow or focus and support individual tasks and group processes.

Ability offers several advantages:

- Planning Possibilities
  - the inherent versatility of products opens up a spectrum of planning possibilities from static workstations to open, interactive team areas
  - use components to build complete, independent workstations and clusters or to enhance systems furniture
- Low-Risk Experimentation
  - Ability supports intelligent inventory and investment management:
  - experiment with alternative office settings, and reverse gears
  - make gradual changes or transform the work environment

- Safe Investment
  - support a range of workstation types by consolidating your investment in one integrated product line

- Integration
  - support undefined future requirements and maximize mobility by integrating Ability with other Teknion furniture lines

## spaces for evolving teams

^ Ability offers an enhanced level of mobility for the workplace. Mobile tables, storage units and screens function completely free of architecture or panels, creating dynamic workspaces or conference areas that can be reconfigured as required. Mobile screens also enhance flexibility, creating boundaries or enclosures for individuals or teams.

## integration

^ Integrating Ability with systems furniture increases the range of planning possibilities. Users can build on the furniture investment already in place, managing the evolution of the workplace by upgrading gradually or initiating a complete transformation.

## versatile workspaces

^ Ability maximizes workstation efficiency. Every layer of the environment performs – above and below the worksurface as well as peripheral areas outside the immediate work area – allowing users to more productively occupy available space.

## high-capacity storage

^ The versatility of Ability and systems is further extended with Kiosk®, a line of freestanding mobile storage units designed to provide high-capacity storage within a small footprint.

## technology support

^ The Outpost™ line of products performs multiple functions as a vertical architectural element, a source of light, power and communications and as a worksurface support. Outpost supports the most intensive requirements for power/communications access and wire/cable management, adapting easily to changing or expanding needs for technology support. Please reference Teknion's Outpost brochure and website for additional product details.

1. The Double Caddie™ is a mobile, personal storage unit that accommodates binders and bins for active files. Drawers lock to secure personal items. It also provides a secondary worksurface within the workstation.

2. Quick Shift tables adjust in height to support the ergonomic requirements of intensive computer users or to meet individual needs in shared or multiple-user stations.

3. Bins are designed to facilitate work organization. They can be used in Ability active storage units, or they can be hung on the top edge of the Kiosk storage unit, on accessory rails and panel-mounted elements.

4. Mobile Amigo tables provide a secondary, user height-adjustable worksurface. They are ideal in shared workstations, conference areas or open team spaces.

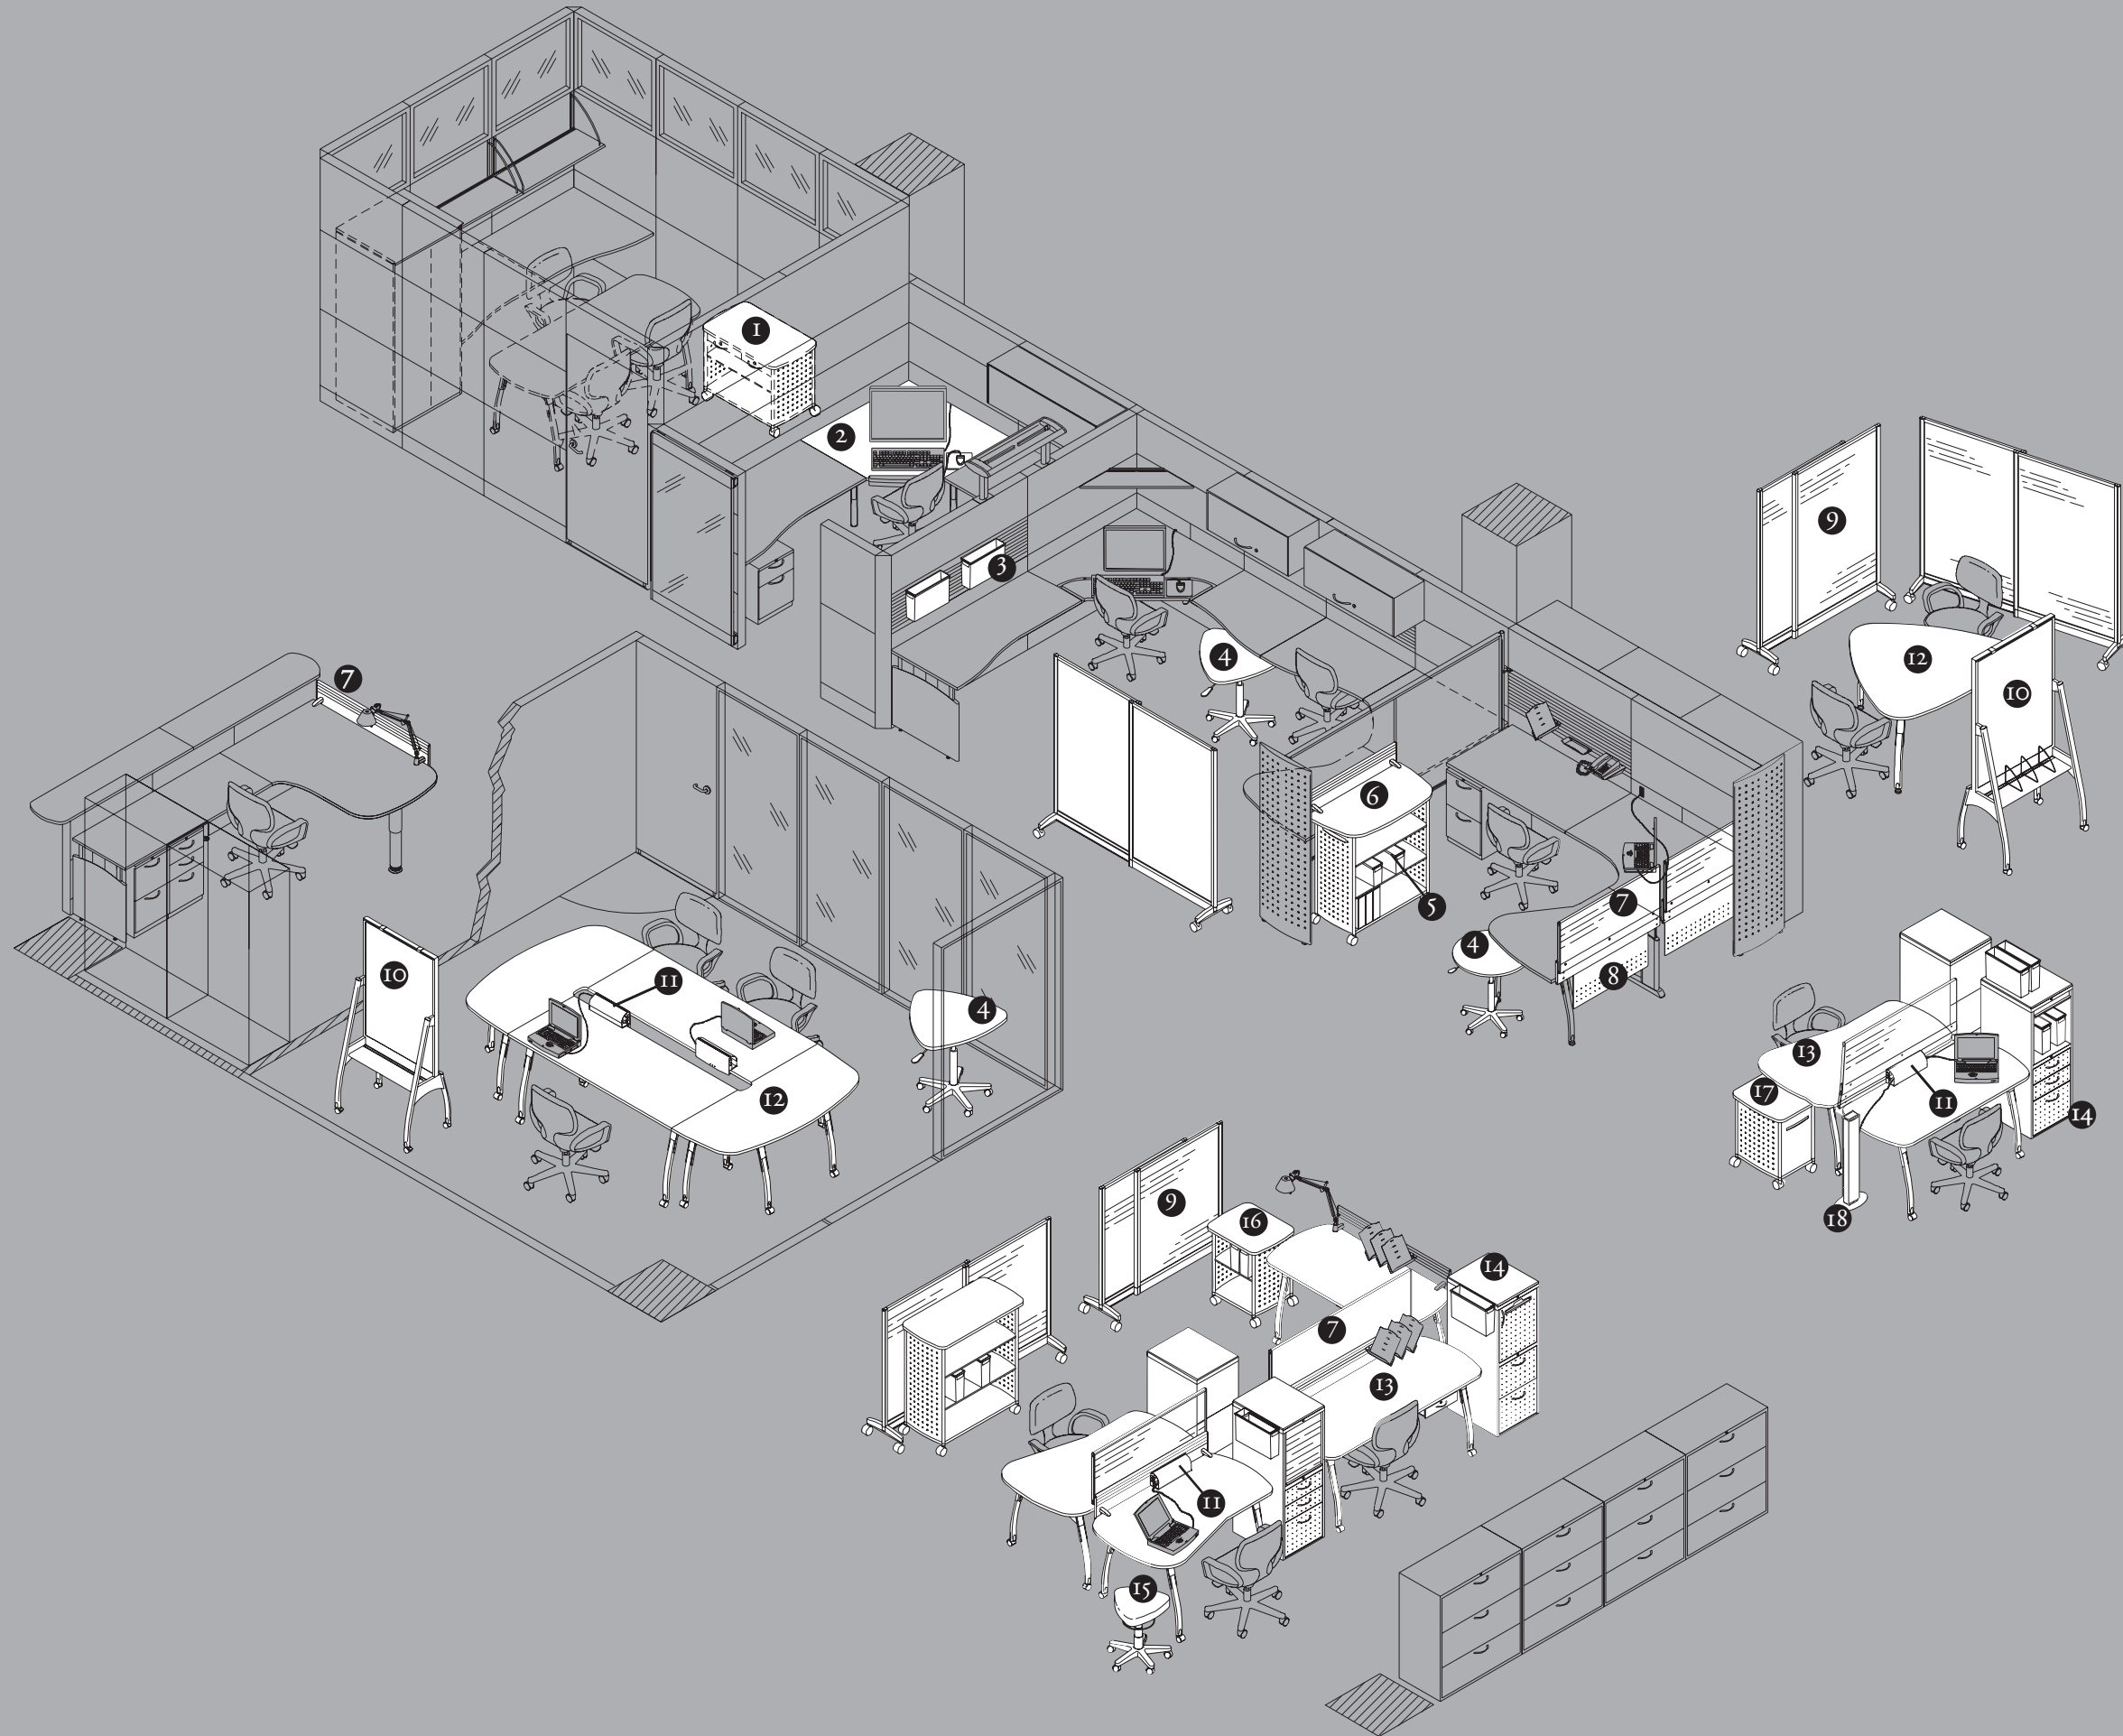

5. Bins for media facilitate media product organization, enhancing the functionality of Ability mobile storage units.

6. The large trolley is a mobile storage unit that can also be used as a standing-height work area.

7. Table rails allow users to hang accessories in freestanding applications. Combined with table screens, they ensure visual and territorial privacy and define boundaries. Screens are available with translucent or tackable/fabric surface options.

8. In addition to ensuring seated-height privacy, the modesty panel provides integrated wire management.

9. Freestanding, lightweight mobile screens telescope to allow users to manipulate the level of privacy desired in various work situations. They are available with translucent or fabric finish options.

10. The mobile task board functions as an erasable/tackable message board and also serves as a space divider.

11. Power outlet enclosure supports electrical needs in panel-mounted and freestanding environments by providing accessible plug-in and wire management at worksurface height.

12. Ability mobile Gathering tables™ are available in a variety of shapes and sizes and can be used in both open plan and systems environments.

13. Mobile Ability work tables can serve multiple purposes in primary, secondary and group worksettings.

14. The Kiosk is a mobile storage unit that combines active and conventional storage. It offers the advantage of high-volume storage within a small footprint.

15. The Spinner™ stool provides height-adjustable occasional and guest seating.

16. The small trolley provides active mobile storage and an additional work plane when used adjacent to a primary worksurface or table.

17. The caddie provides mobile storage and an additional worksurface. It can be stored under any worksurface.

18. The Outpost port delivers power and communications to any location, serving a permanent or temporary work area.

TEKNION EMBRACES CHANGE AND ITS INNATE POSSIBILITIES. OUR CULTURE IS ONE OF INNOVATION. IN THAT SPIRIT, WE HAVE STEPPED FORWARD TO INTEGRATE SUSTAINABLE PRINCIPLES AND PRACTICES INTO THE DESIGN, MANUFACTURING AND MARKETING OF OUR PRODUCTS.

TEKNION PRODUCTS PERFORM INDEPENDENTLY AND IN CONCERT, COMBINING IN VIRTUALLY UNLIMITED CONFIGURATIONS. OUR PHILOSOPHY EMBRACES DESIGN AS ONE OF THE BEST TOOLS WE HAVE FOR REALIZING THE BENEFITS OF BUSINESS, WHILE ALSO STRIVING TO REACH SUSTAINABLE GOALS.

WE HAVE LEARNED FROM DESIGN THAT CHANGING A SINGLE DETAIL ALTERS THE WHOLE. EVERY INCH MAKES A DIFFERENCE. EVERY LEAP IS THE SUM OF MANY SMALL STEPS.

TEKNION CREATES FURNITURE THAT CONNECTS PEOPLE, TECHNOLOGY AND SPACES; INTEGRATED DESIGN WITH NEW POSSIBILITIES FOR A HEALTHY, PRODUCTIVE WORLD TOMORROW AND THE DAY AFTER.
