

teknion sanna lightbar

teknion

The Sanna Lightbar provides a truly hi-performance lighting experience via its simple and elegant form, 360 degree adjustment and full-range dim control that transform it from a companion ambient light to a work-focused task light. It creates a lighting experience to complement the mood, task or time of day.

Sanna Lightbar’s linear LED light is cleverly integrated into its sophisticated swing-arm mechanism, which hovers across a horizontal plane below the user’s line of sight. Ergonomic and glare-free, it allows the user to articulate maximum light coverage across a surprisingly wide area on the desktop, then fold it away to half its size and provide a controlled ambient light.

04

sanna freestanding lamp
Finish: *Crisp Grey*
Base: *Fine Grain, White Out*

Sanna Lightbar occupies minimal footprint in a workspace. Mounting options include edge-clamp, mount-through and a freestanding base, which features soft material inlay options for placement of mobile devices and other personal items.

sanna lightbar
features

01 home position

The signature position which gave Sanna Lightbar its name, the home position features a precise gap between the light engine and reach, allowing a thin bar of light to escape.

02 companion position

The light engine positions towards or away from the user to help facilitate the task at hand. Alternating between positions and dimming levels creates many diverse moods.

03 focus position

At full articulation, the light engine hovers over a large surface area providing an accurate level of high quality, focused LED light.

04 light shade

The reach arm that articulates the light engine features a hollow design, acting as a shade element when Sanna Lightbar is in its home position.

05 mounting options

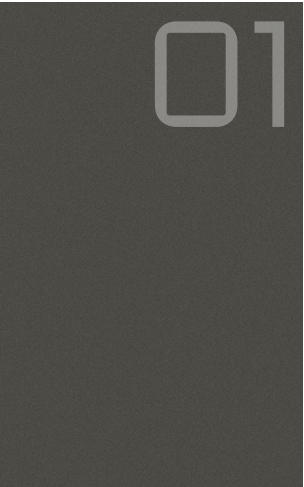

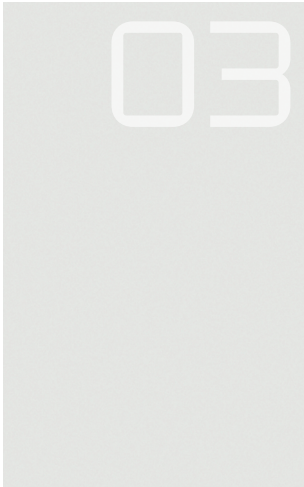

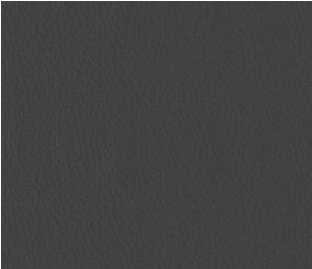

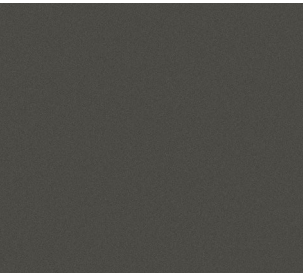

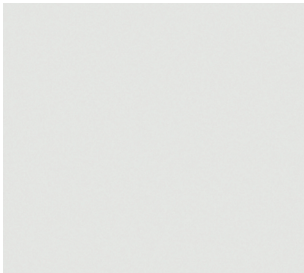

Supporting application and placement requirements, Sanna Lightbar is offered with a freestanding base, mount-through or edge clamp option.

sanna lightbar
finishes

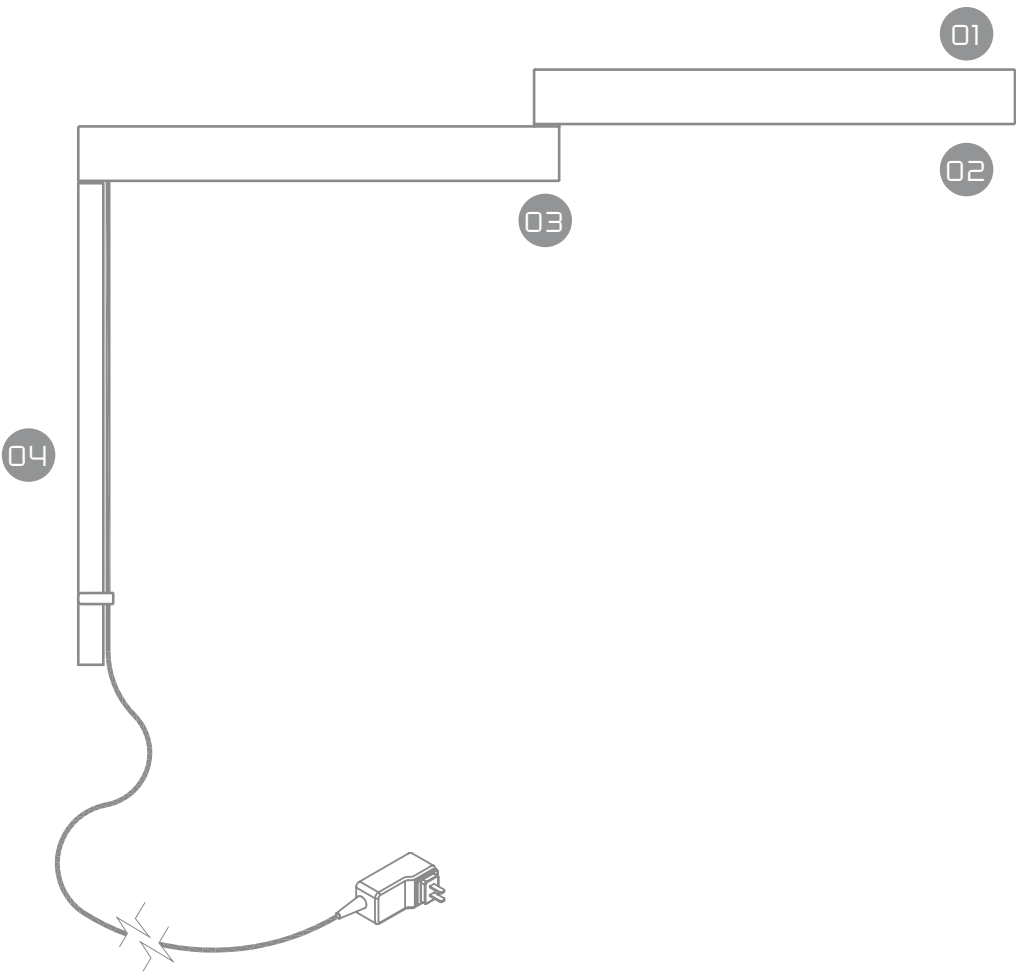

Sanna Lightbar is available in three curated color palettes, each classic yet offering distinction for aesthetic integration with other furnishings.

The freestanding base features an upholstered insert for convenient placement of personal items or work tools.

	option 01:	option 02:	option 03:
frame	 01	 02	 03
freestanding base insert	 heather felt, pinon tree	 heather felt, noil	 heather felt, noil
edge clamp	 fine grain, carbon neutral	 fine grain, volcanic ash	 fine grain, white out
	 anthracite	 platinum	 crisp grey

specifications

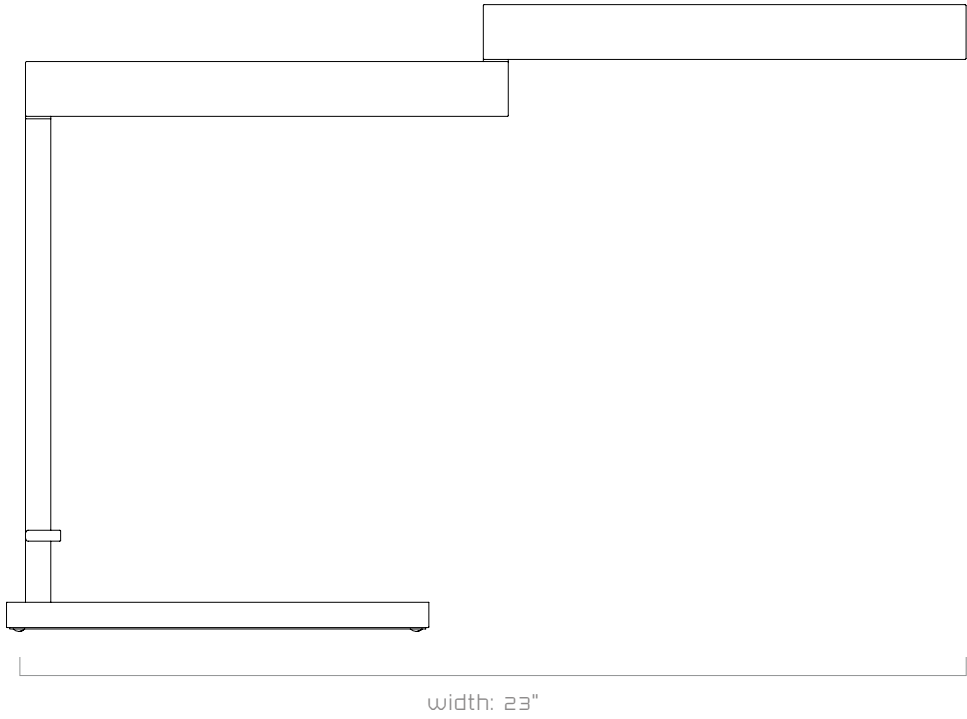

- 01 optical switch
- Full range dim control from 100 percent to 10 percent with swipe selection of 100/50/0
 - 6 hour automatic shut off timer

- 02 high output LED light engine
- 3000K color temperature
 - 50,000 hours
 - 8w power consumption
 - 120/220V 60HZ voltage
 - 2500 lux illuminance
 - 90+CRI
 - 610 lumens
 - 75 lumens/watt

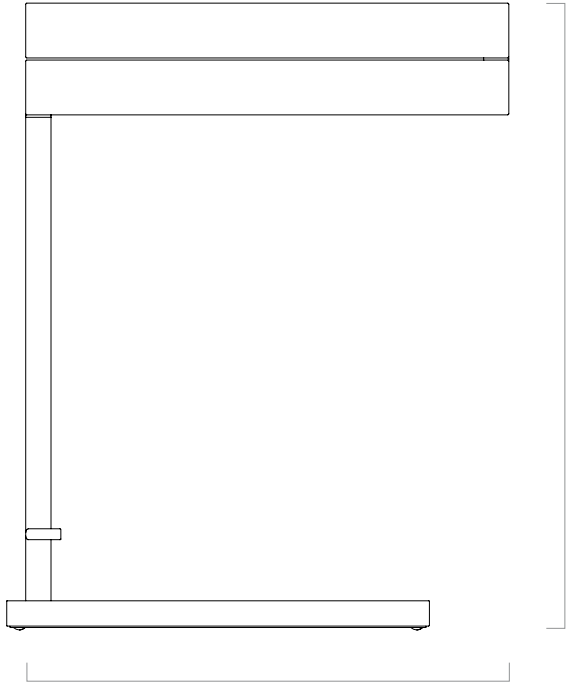

- 03 reach cut out
- Creates a unique ambient experience allowing only a portion of the light to reach the surface

- 04 woven cord
- Cord length 6 feet
 - Lock and turn into power adapter
