All products manufactured in Standard Flintwood finishes and applications will be provided in the following wood fill types:

- Vertical, Storage and Door applications in Open Pore
- Work/Table Surface top applications in Closed Pore
- Open Pore and Closed Pore do not match in a side by side application

Exception:

- Dossier Casework & Conferencing in Flintwood are produced with Open Pore worksurfaces and Open Pore vertical surfaces
- Journal in Flintwood is produced with open pore worksurfaces and open pore case constructions
- Audience in Veneer 2 and Veneer 3 finishes is produced in Open Pore
- Avoid mixing wood product lines within the same office configuration. Dossier, Journal & Expansion Caseworks are not designed or fabricated to be specified and used side by side within the same office. Each product line has unique design features and finish attributes that dictates that they should not be combined together for an order without prior approval and special coordination by Teknion manufacturing. Under no circumstance should standard catalogue items within these product lines be mixed to create a single office

* Indicates a coordinated color and not a direct match to corresponding Natural Veneer 4 colors (not recommended for side by side application to V4 product).

V Recommended for Vertical Veneer Orientation application only

Custom Wood contains the following product lines: Community Table, C+D & Teknion Reception.

Lite Wood Office contains the following product lines: Byward & Carrier Desk.

▲ Applicable to the Byward only

Environmental Friendly Finish.

- Flintwood is a high yield product that uses more than 90% of the tree versus conventional veneers which use 40% of the tree.
- Flintwood and Natural Veneers are considered to be controlled wood as defined by Forest Stewardship Council (FSC).
- As a special, a greater level of sustainable forestry (as defined by FSC), can be achieved by purchasing a 100% mixed source credits for Flintwood or Natural Veneers.

- Dossier Caseworks & Conference in Natural Woods (Veneer 2, Veneer 3 and Veneer 4) are produced with Open Pore worksurfaces and Open Pore vertical surfaces
- Journal in Natural Woods (Veneer 2, Veneer 3) are produced with open pore worksurfaces and open pore constructions
- Audience Credenzas and Audience Table Tops in Natural Wood (Veneer 2 and Veneer 3) are produced with Open Pore worksurfaces and vertical surfaces
- Custom Solutions Boardroom Tables and Project Solutions in Natural woods are provided solely with Open Grain finishes unless explicitly specified otherwise
- Veneer 4 finishes are uniquely formulated and applied for use for the C+D Conference Table, Community Table, Teknion Reception, Dossier & Emote product lines. Any color matching to these finishes across other Teknion product lines should be considered a coordinate color. Veneer 4 coordinate colors are not recommended for side to side application to aforementioned products finished in Veneer 4. Follow the TekniStain process to obtain optimal results.
- Avoid mixing wood product lines within the same office configuration. Dossier, Journal & Expansion Caseworks are not designed or fabricated to be specified and used side by side within the same office. Each product line has unique design features and finish attributes that dictates that they should not be combined together for an order without prior approval and specials coordination by Teknion manufacturing. Under no circumstance should standard catalogue items within these product lines be mixed to create a single office

Environmental Friendly Finish.

- Flintwood and Natural Veneers are considered to be controlled wood as defined by Forest Stewardship Council (FSC).
- As a special, a greater level of sustainable forestry (as defined by FSC), can be achieved by purchasing a 100% mixed source credits for Flintwood or veneers.

* Limited offering

 Environmental Friendly Finish.

- Powder paint, emits no VOC's (Volatile Organic Compounds) during manufacturing and at the end user.
- Teknion's Powder Coating is highly efficient by using the following processes, a closed loop system, a reclaim process to coat hidden components and a reformulation of waste powder to coat drawer bodies.

* Not available on Mullions.
