introduction

where to find the information you need

Teknion provides an array of tools and information resources to help you get things done simply and easily. From product pricing to application guidelines to online planning suggestions, you will find what you need when you need it.

guide contents

This guide contains all the information you need to order this product through your specification software. The Introduction section provides everything you need to get started, including an index for product reference. The Application Guide section contains detailed specification guidelines, application and planning information to help you plan your project correctly. The Price Guide sections provide detailed pricing and specification information by product type. Available online at www.teknion.com.

where to find the information you need

All Teknion marketing materials are available online at www.teknion.com, including:

price & product guide

application guide

planning tool

installation guides

fabrics & finishes

product photography & drawings

weights & volumes

order forms

warranty/terms & conditions of sale

xpress program guide

teknion forms

The following forms are available online at www.teknion.com, to help you specify and place your order if required:

teknipaint

If you require a custom paint color match, you must submit a TekniPaint form.

using your own material (COM)

If you wish to use your own material on fabric-covered products, you must submit a completed COM form including a sample upholstery and safety testing. A COM Order Information Sheet must also be submitted. This form captures all relevant ordering and tracking information. A COM Request for Yardage Calculation form may be sent to Teknion for preliminary yardage requirements.

placing a manual order

Complete an Order Cover Sheet with the information we need to fill your order. This is the most important step. If the Order Cover Sheet is not complete and correct, the order may be delayed.

key requirements

If you require that certain pieces share the same locks you will need to specify Set of Keys Alike (SOKL) located in the Price and Product Guide.

user feedback

How is our marketing material working for you?

Feedback from the user is very important to the quality of Teknion's marketing material. We ask that if you have suggestions on how you think we could improve content OR if you have found an error, that you contact your Teknion Technical Services department.

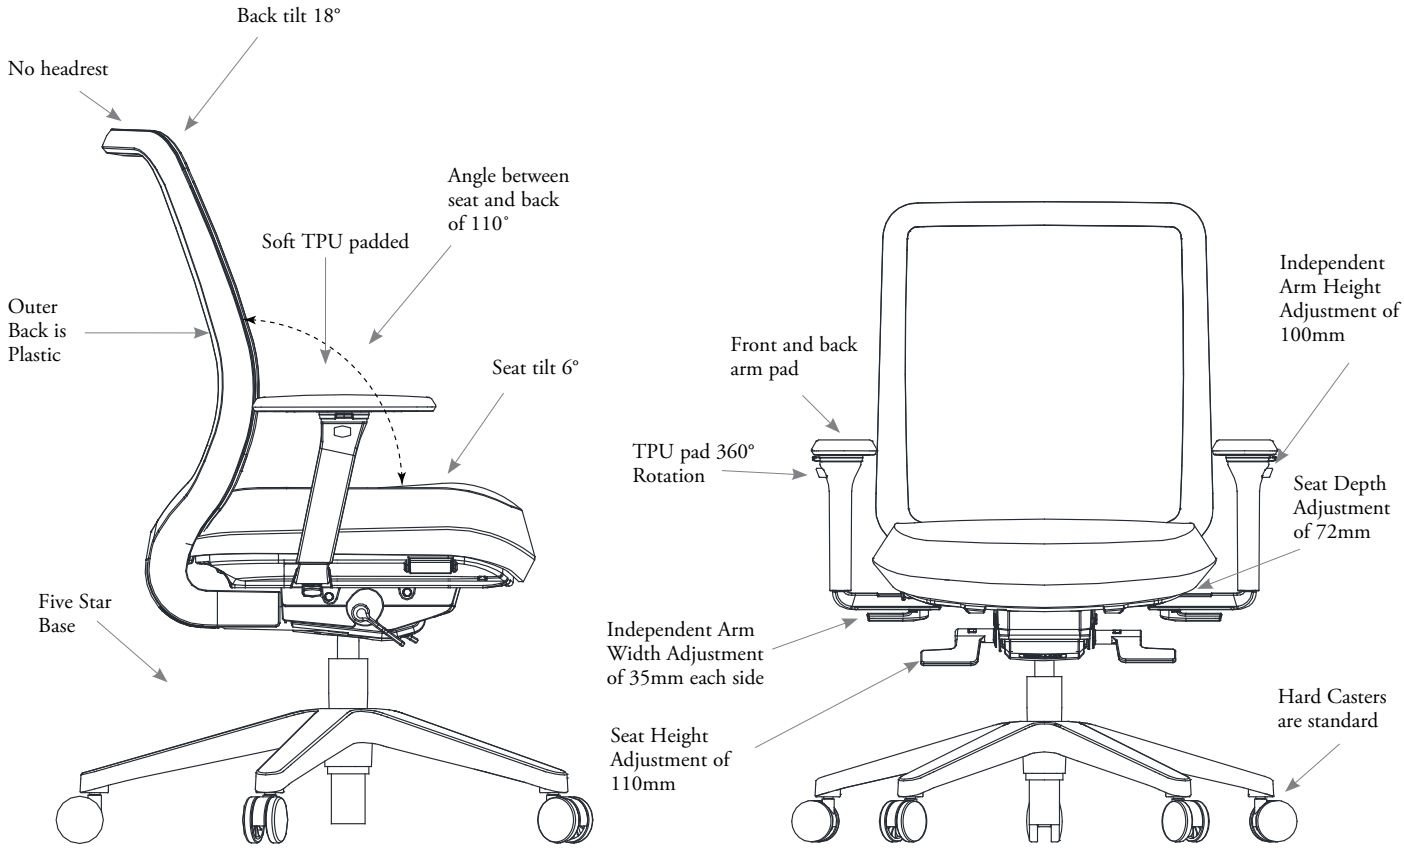
Mesh Back

mina overview

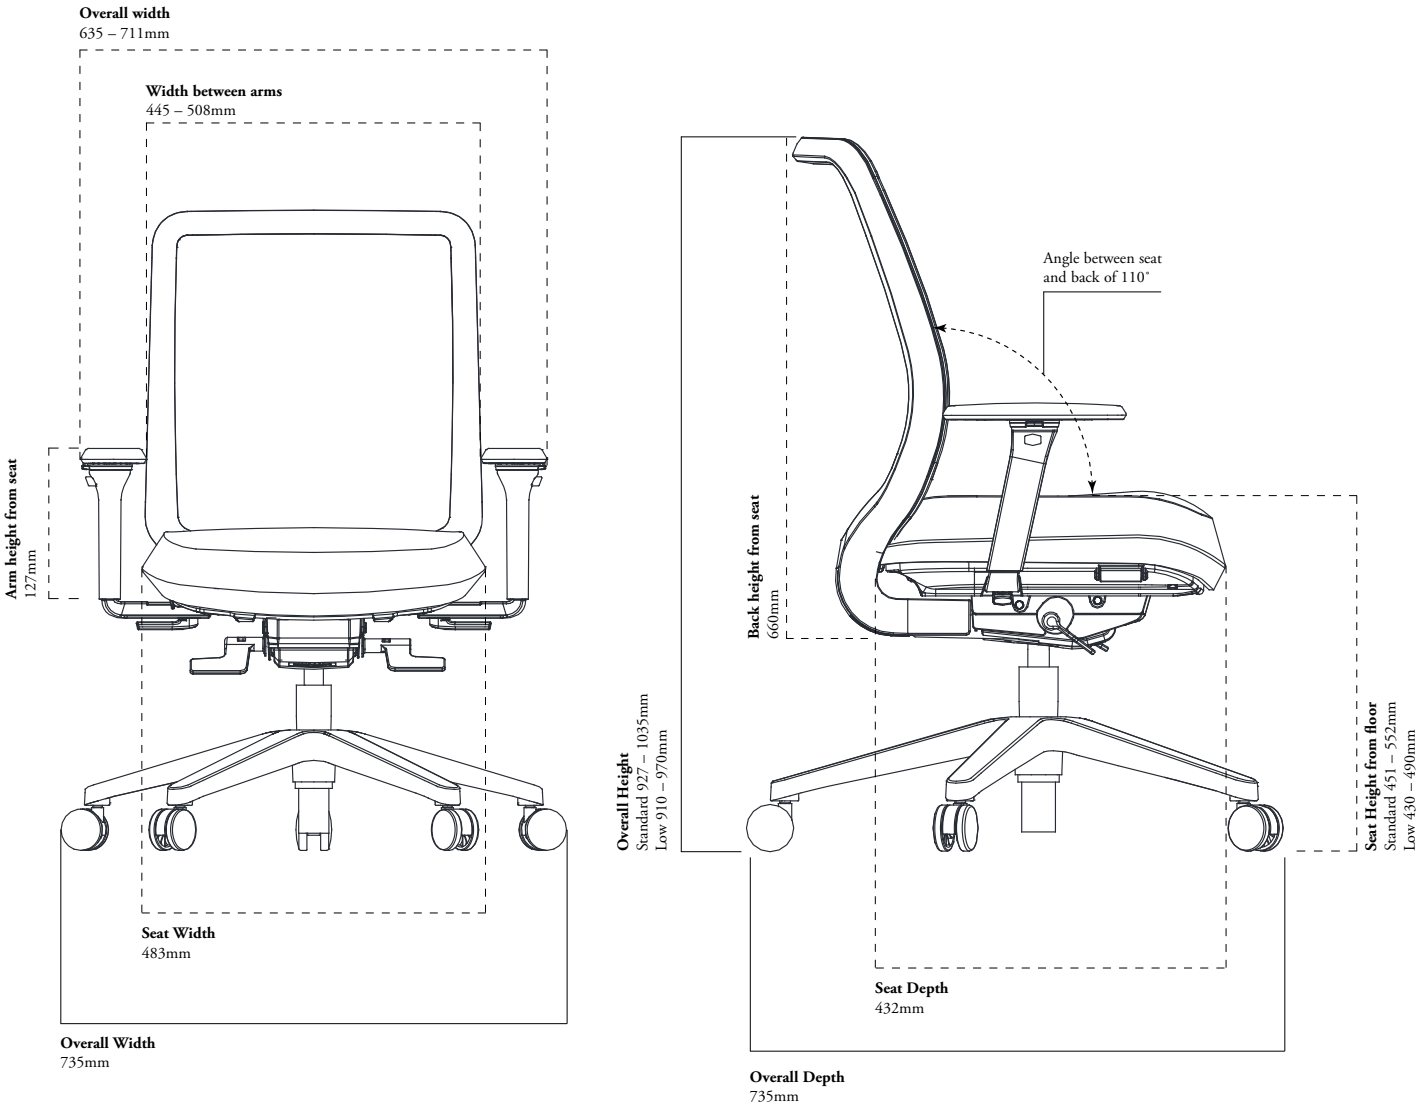
Mina is an elegantly designed seating that offers flexibility at an affordable price.

- Executive Chair with Front Multi Limited Tilt is shown
- Ebony and Polished Aluminum base available
- Mina have been designed and tested for users weighting up to 225 lbs (102kg)



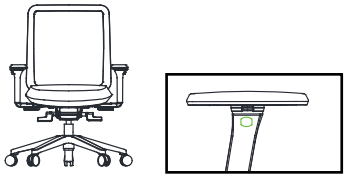
mina dimensions

Mina Mesh Task Chair



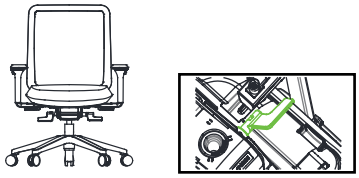
mina adjustment features & instructions

ARMREST ADJUSTMENT



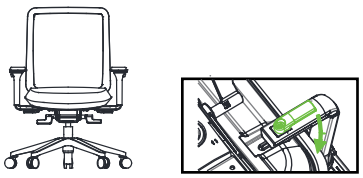
Arm padded rotation:
Press the button and rotate the arm padded to the desired angle at the same time.
Arm padded sliding forward or backward:
Sliding the arm padded forwad and backward to the desired position
Arm height adjustment:
Press the button on the side of the arm and raise or lower to the desired height

SEAT HEIGHT ADJUSTMENT



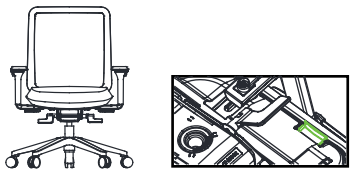
The Seat height handle is located underneath the seat on the right side. To raise the chair, lift the lever up while lifting your weight from the seat until you reach the desired level, then release to lock in place. To lower the chair, lift the lever up and allow your weight to push the seat down until you reach the desired level, then release to lock in place.

SEAT WIDTH ADJUSTMENT



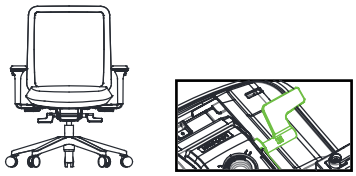
The button of seat width adjustment is located underface the arm. Rotate the lever backward 90 rotation,pull the arm outward or inward to the desired position,then rotate the arm forward 90 rotation forward to lock the seat width in place.

SEAT DEPTH ADJUSTMENT



The button of the depth adjustment is located underneath the seat on the left side,pull the button outward and simultaneously lift your weight from the seat while sliding the seat forward or backward to the desired position,release button to lock the seat in place.

BACK TILT ADJUSTMENT



Seat Tilt Adjustment Lock,Pull lever upward and allow the chair to tilt backwards. To lock to the desired position push lever downward. To release tilt adjustment, pull lever upward, apply weight onto the back cushion and then lean forward.

mina material requirements

COM/COL Material Requirement

More yardage may be required depending upon the pattern repeat and the matching required. Leather yield may be affected by the quality of the COL. However, variance in the size of the hides will not affect the yield.

		BACK		SEAT	
		COM [yards]	COL [sq. ft]	COM [yards]	COL [sq. ft]
Mid-Back	Mesh	0.5	n/a	n/a	n/a
Mid-Back	Fabric	0.6	13	0.5	13

mina weight & volumes

Important

Please note, the measurement, weight and volumes listed in this section are only approximations. Packaging requirements will vary depending on the location to which the product is being shipped, type of product and the amount of product being ordered. Dimensions are in millimeters and subject to change without notice.

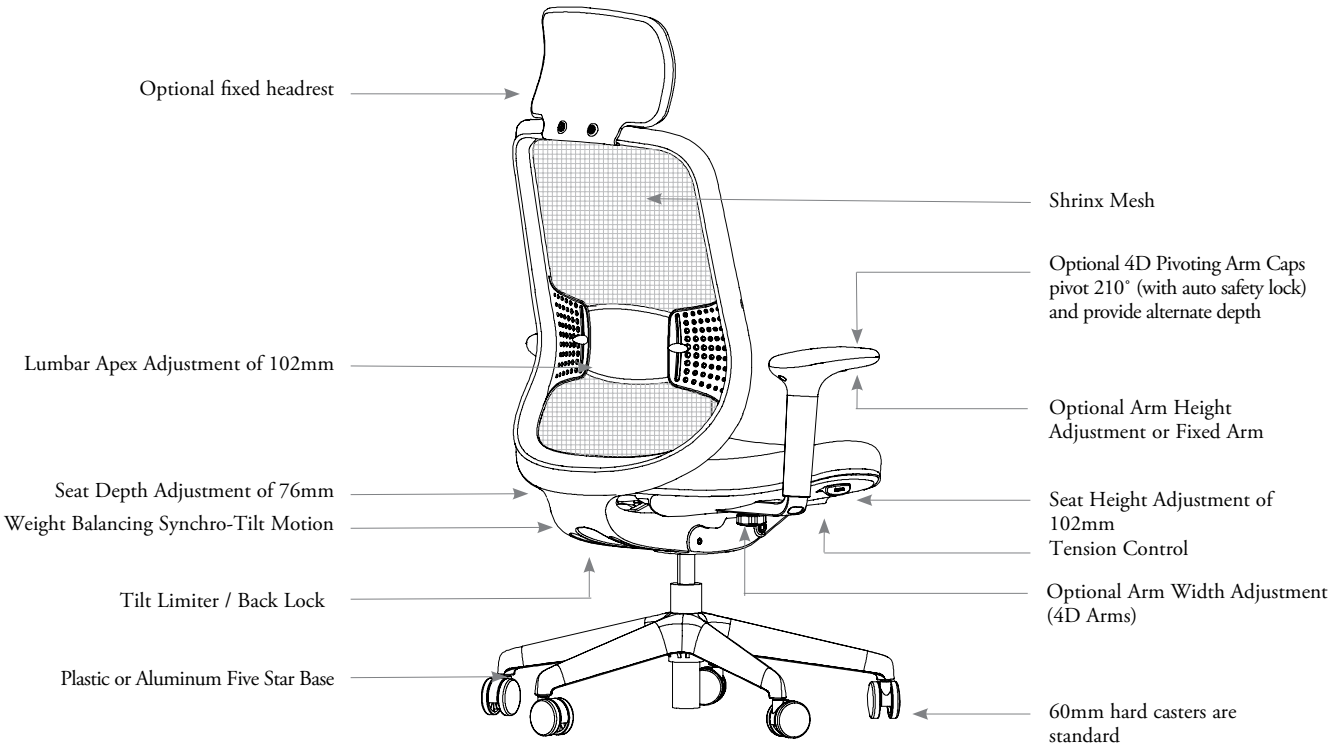
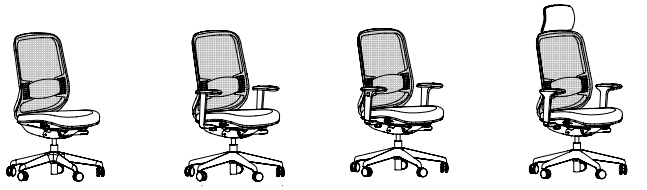
projek overview

Projek is a chair for all people and environments.

- Projek Chairs have been designed and tested for users weighing up to 300 lbs
- Projek Chairs are equipped with casters intended for use on carpeted surfaces. Use of these casters on hard surfaces could result in unexpected rolling and tipping. Casters designed for use on hard surfaces are available. If in doubt, see your dealer for appropriate selection
- Synchro-tilt weight-balancing with 3.5:1 ratio



Statement of Line



High Back – No Arms | High Back – Fixed T-Arms | High Back – 4D Arms | With Headrest

Swivel Stool – No Arms | Swivel Stool – 4D Arms | Swivel Stool – With Headrest

projek finish guide

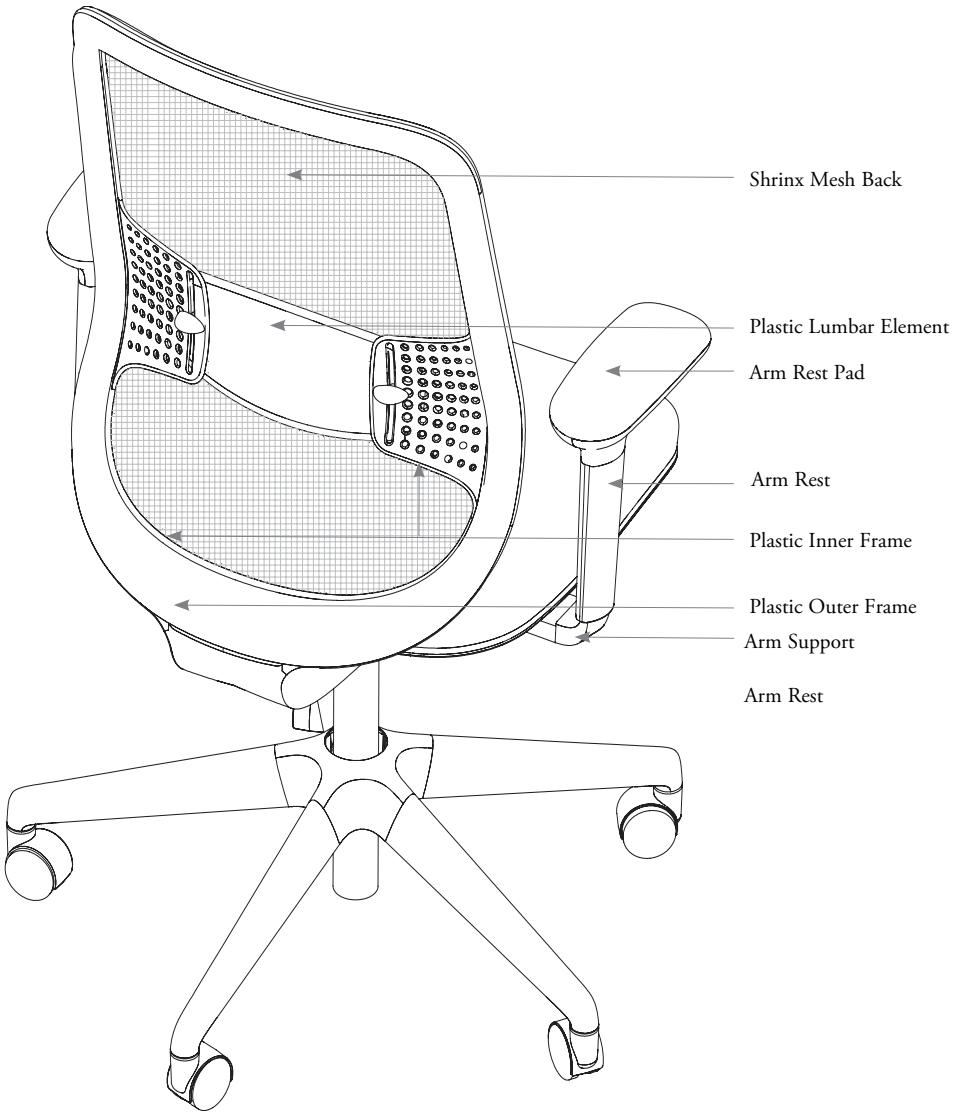
When selecting finishes for the Inner and Outer Frame, Lumbar and Mesh of the Projek family of chairs, Task Chair and Swivel Stool, it is possible to select different finishes for the components listed below or to have the same finish specified throughout.

Task Chair and Stool:

- The headrest's frame and fabric finishes default to the Outer Frame Finish and Seat Fabric Finish (Assembled Task Chair and Stool only)
- 4D Arm finish defaults to the Outer Frame Finish. For Stone or Very White the arm rest will be finished same as outer frame. Arm Rest Pad and Arm Support finished in Ebony. Fixed Arm is available in Ebony only

Guest Chair:

- Lumbar Element not included
- Arm Rest in Ebony only

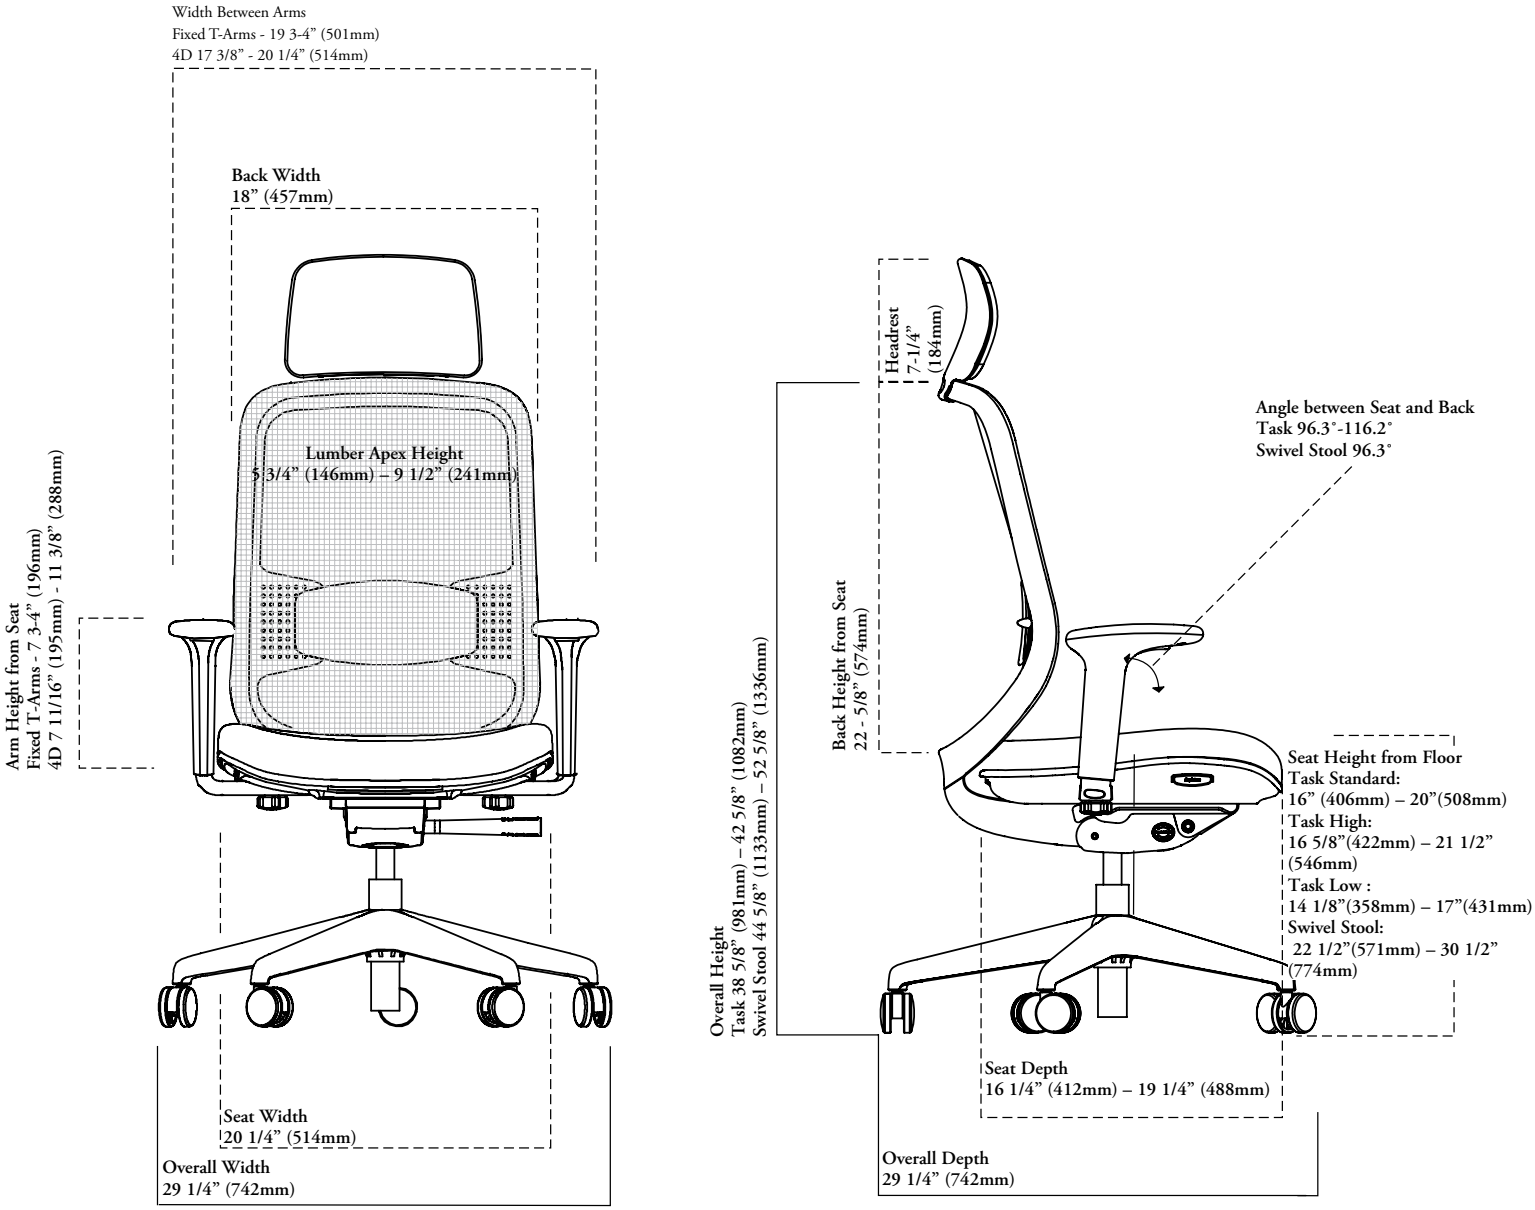


projek dimensions & material requirements

Dimensions

For Conversion to Metric, multiply dimension by 25.4.

WEIGHT	
General Use/Executive Task	35 lbs (35kg)
Swivel Stool	41.8 lbs (19kg)



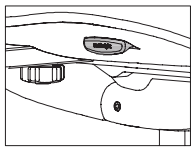
COM/COL Material Requirement

More yardage may be required depending upon the upholstery pattern, repeat, directionality and pattern matching. Leather yield varies from 60-80% and may be affected by the quality of the COL including location and quantity of blemishes, size and shape of hide. The size of the sewing pattern and the number of units ordered may also impact yield. Always round-up to the next hide.

	DUAL UPHOLSTERED	
	COM [yards]	COL [sq. ft]
Seat	7/8	8 3/4
Headrest	1/2	4 7/8

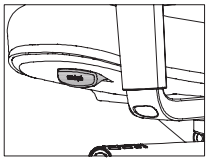
projek adjustment features & instruction

SEAT HEIGHT ADJUSTMENT



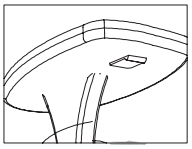
Seat height can be adjusted by pulling outward on the button below the seat on the right hand side. When this button pulled, the weight of the body will cause the seat to lower, and releasing it stops the seat at the desired height. Pulling outward on the button with no weight on the seat allows it to rise.

SEAT DEPTH ADJUSTMENT

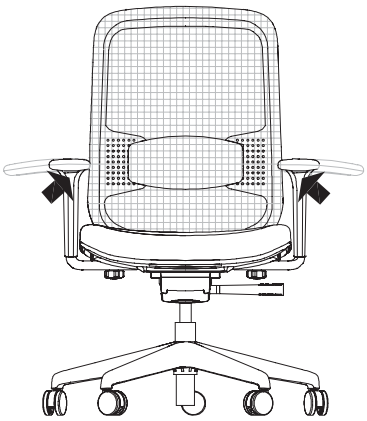


To adjust the seat depth, pull outward on the button below the seat on the left-hand side and simultaneously lift your weight from the seat while sliding the seat forward or backward. Release button to lock the seat in place.

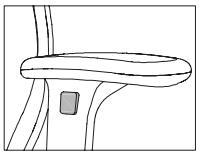
4D ARM PIVOT ADJUSTMENT



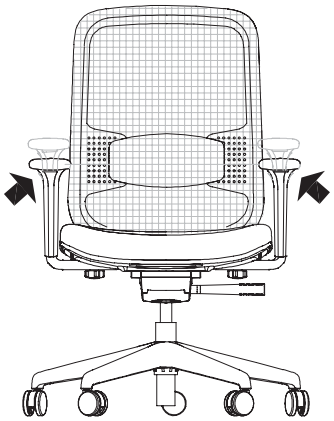
To pivot the arm cap, depress the auto safety lock button on the outside of the armrest and pivot 210˚ degrees to desired position. Release the button to lock in place. 180˚ arm rotation adjusts the arm depth.



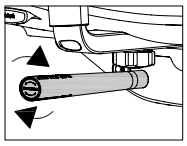
ARM HEIGHT ADJUSTMENT



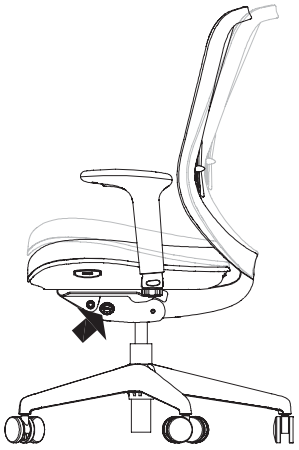
To adjust the arm height, press the button below either arm rest to raise or lower it to the desired position. Release the button to lock in place.



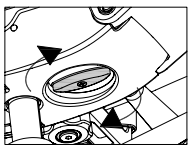
BACK TILT ADJUSTMENT



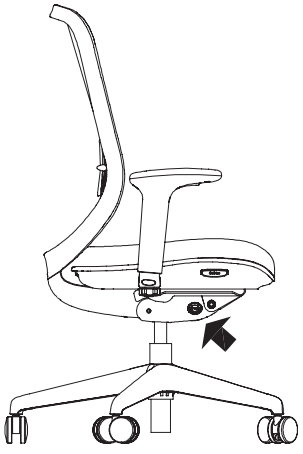
Turning the grip found under the left side of the seat limits the back tilt travel and locks the back. Travel is limited on 3 positions with back lock in the upright position.



TILT TENSION ADJUSTMENT

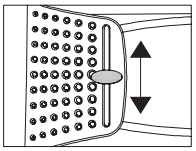


Fine tune the weight balanced tension by rotating the dial located below the seat center to suit personal preference.



projek adjustment features & instruction (continued)

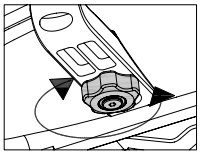
LUMBAR HEIGHT-ADJUSTMENT



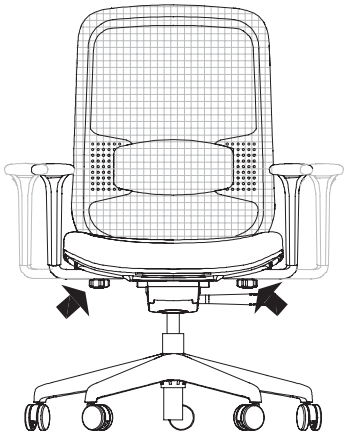
The lumbar height-adjustment knobs can be found on the back where the Inner Frame connects to the Lumbar Element.

The height of the lumbar support can be adjusted by sliding them up and down.

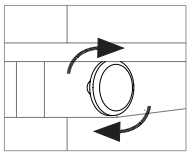
ARM WIDTH ADJUSTMENT



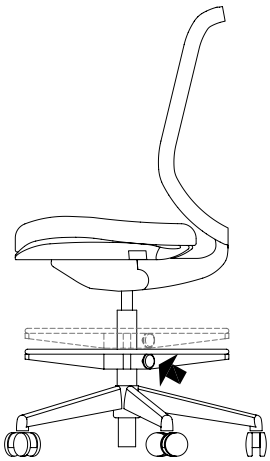
To adjust the width of each arm, turn the dial clockwise to release the arm lock. Slide the arm inward or outward to the desired position. Tighten the knob to lock the arm in place.



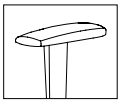
STOOL FOOT RING HEIGHT



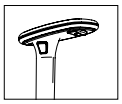
To raise or lower the stool's foot ring, turn the foot ring's knob counter clockwise to release the foot ring and adjust the ring until you reach the desired level. Turn the knob clockwise to lock in place.



K L N P R T
Projek – Synchro-Tilt Task Chair



Fixed T-Arm



4D Arm

FEATURES

- Standard pneumatic cylinder provides height adjustment of 102mm
- Seat depth adjustment of 76mm
- Lumbar height adjustment of 102mm
- Back tilt can be locked in the upright position or left to free flow to 3 defined angle ranges
- Weight-balancing with a travel limiter synchro-tilt mechanism (3.5:1 tilt ratio) with unique preference control to tilt tension. Back recline angle range is 0° - 20° and seat adjustment range angle is 0°- 6.5°
- Ebony base is available in plastic only
- Hard casters are well suited for soft flooring such as carpeting
- Soft casters are available for use on hard flooring, such as wood, concrete or tile

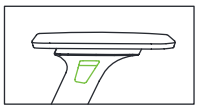
seĝo stool adjustment features & instructions

ARMREST ADJUSTMENT



Arm padded rotation: Rotate the arm padded to the left/right.

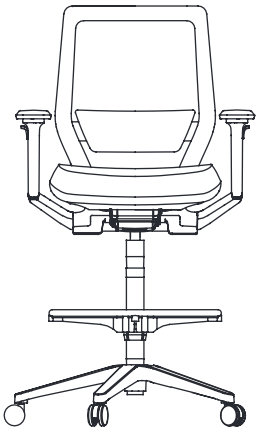
Arm padded width adjust: Move the padded to the left/right.

Arm padded sliding forward or backward:

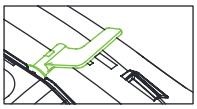
Sliding the arm padded forward and backward to the desired position.

Arm height adjustment:

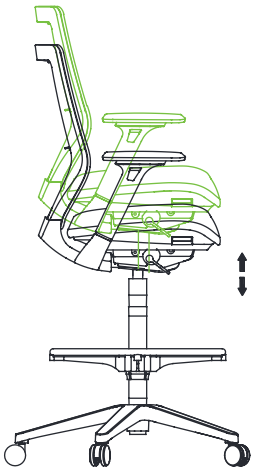
Pull the button on the side of the arm and raise or lower to the desired height.



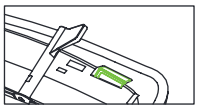
SEAT HEIGHT ADJUSTMENT



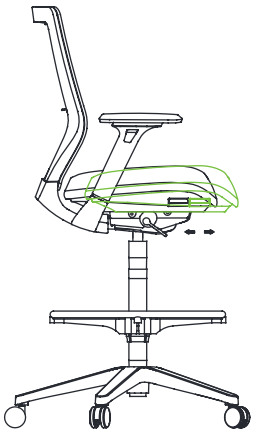
The Seat height handle is located underneath the seat on the right side. To raise the chair, lift the lever up while lifting your weight from the seat until you reach the desired level, then release to lock in place. To lower the chair, lift the lever up and allow your weight to push the seat down until you reach the desired level, then release to lock in place.



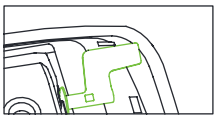
SEAT DEPTH ADJUSTMENT



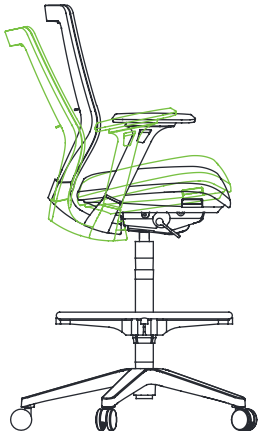
The button of the depth adjustment is located underneath the seat on the left side,pull the button outward and simultaneously lift your weight from the seat while sliding the seat forward or backward to the desired position,release button to lock the seat in place.



BACK TILT ADJUSTMENT

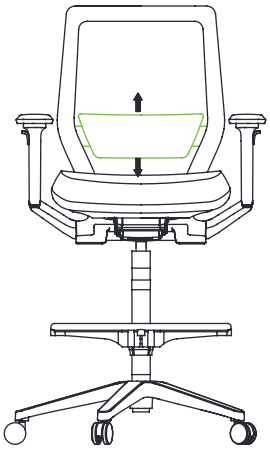


Seat Tilt Adjustment Lock,Pull lever upward and allow the chair to tilt backwards. To lock to the desired position push lever downward. To release tilt adjustment, pull lever upward, apply weight onto the back cushion and then lean forward.

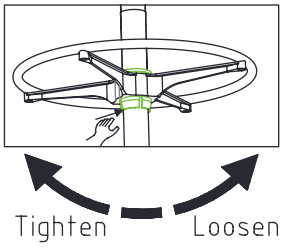


LUMBAR HEIGHT ADJUSTMENT

Lift the lumbar and raise or lower to the desired height.



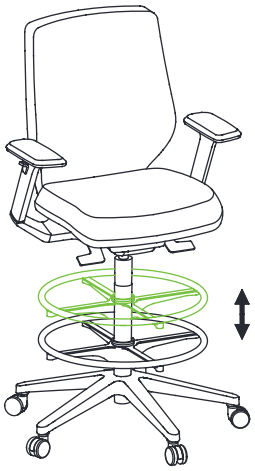
STOOL HEIGHT ADJUSTMENT



Hold the base with one hand and turn the foot-ring anti-clockwise approx. A 1/4 rotation just to loosen.

Hold the bottom of the plastic hub with one hand and the outer ring with the other and continue to turn anti-clockwise until the foot-ring is released and can move freely up and down the gas cylinder.

Adjust the height as required and then tighten again.



seĝo stool standard material requirements

COM/COL Material Requirement

More yardage may be required depending upon the upholstery pattern, repeat, directionality and pattern matching. Leather yield varies from 60-80% and may be affected by the quality of the COL including location and quantity of blemishes, size and shape of hide. The size of the sewing pattern and the number of units ordered may also impact yield. Always round-up to the next hide.

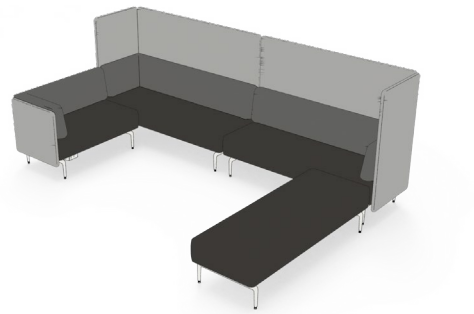
what is banqs?

Banqs is a collection of sofas, screens, tables and accessories that create banquettes and linear booths for public and corporate customers. Banqs satisfies the need for hospitality and casual work solutions in freestanding spaces or along perimeter walls.

features

- A broad assortment of seating for multiple planning and application capabilities
- Three seat back heights for varied levels of privacy
- Freestanding and reconfigurable
- Minimal offering but with maximum planning capability including back to back, perimeter wall and open plan solutions.
- Optional power and A/V capability



upholstered sofas and screens

A collection of straight rectilinear seating designed to go beyond the traditional requirements of lounge seating.

- Each unit can accommodate up to three people
- Based on a 24" (609mm) wide planning module for efficient planning in architectural spaces
- Available with no screen, low screen or high screen
- The 33" (838mm) and 55" (1397mm) heights provides back support and various levels of visual, acoustic and spatial privacy

tables

Tables are designed to work with upholstered benches, sofas and screens.

- Available in two styles
  - Flat Base
  - 4-Prong Base
- Optional electrical components

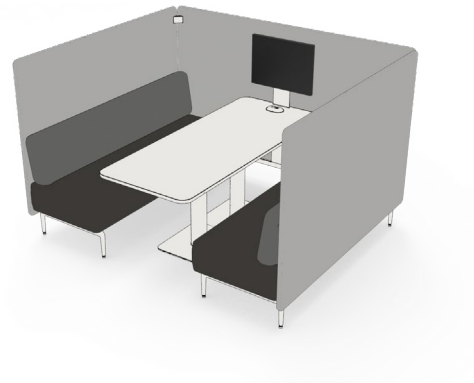


table accessories

Table accessories finish the details of a layout to create settings that cater to users functional needs and designers aesthetic visions.

- Options include:
  - Table light
  - Electrics
  - A/V integration

understanding banqs seating

Unlimited configurations can be created with Banqs Seating that address the needs of today's work behaviors and planning scenarios. Banqs creates spaces for social to working to meeting.

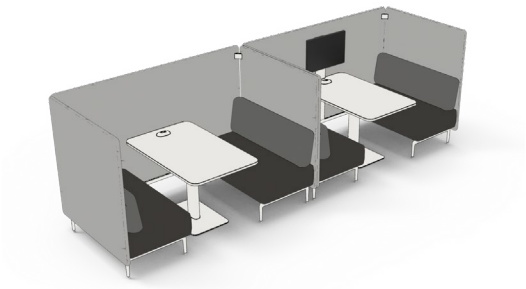
- One layout can serve different purposes for different users
- The need and the context within the space will help to define the appropriate solution

1 social
400 sq. ft. (37 sq. m.) or more

- Medium to large sized cafeterias with open socializing spaces
- Traditional eat/drink destinations
- High and low screen applications for various levels of privacy
- Mixed table and chair settings to create different destinations for different sized groups
- Power where needed

2 social to working
200 – 300 sq. ft. (18 – 29 sq. m.)

- Medium sized areas that blend lounge and work postures
- A combination of high, low and no screen applications
- Power and A/V where required
- Often planned with millwork integration



3 working to meeting
100 – 150 sq. ft. (9 – 14 sq. m.)

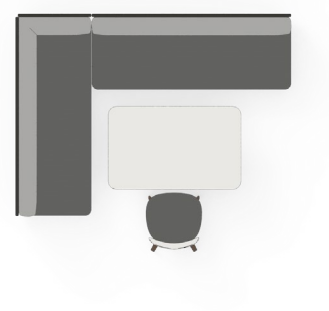
- Small to medium touchdown work and meeting spaces
- High screens to provide privacy and noise reduction
- Used in the open plan or on perimeter walls
- Power and A/V where required

understanding banqs seating (continued)

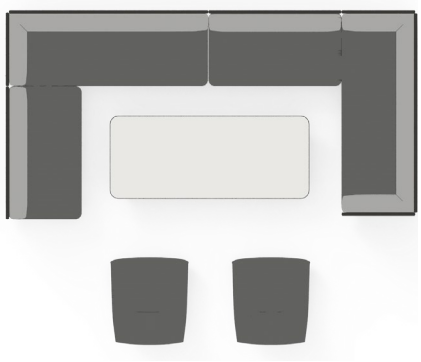
Banqs can be planned in three styles:
- linear
- l-shaped
- u-shaped

Linear Planning

L-Shaped Planning



U-Shaped Planning



Various levels of privacy can be achieved by mixing sofas and benches:

No-back for an open look and dual sided access

Low screen when directionality is required but low site lines are important

High screen when additional privacy and separation are required

For more contemporary applications, combine both low and high screen sofas in the same layout:

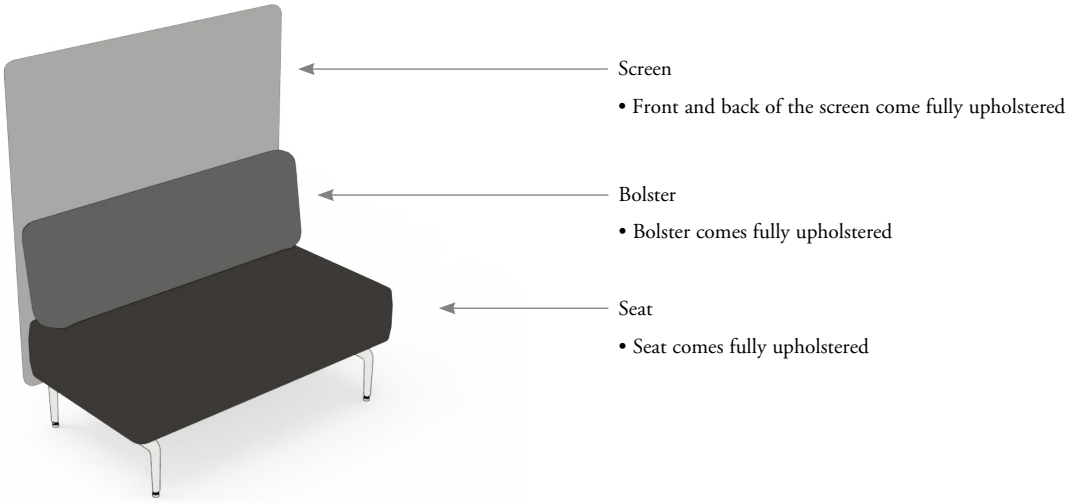
specifying banqs benches and sofas

Banqs benches and sofas are available as two and three seaters, with no back, low screen or high screen options. The following outlines the features of each.

Banqs sofas are specified by selecting:
1- Seat fabric
2 - Bolster fabric
3 - Screen fabric

The sofas can be specified:
• Single upholstery (the entire sofa is one fabric or colorway)
• Triple upholstery (each part is specified in a different fabric colorway)

All Teknion upholstery grade fabrics including all Luum fabrics and leather can be used on Banqs seating.



banqs rectangular bench, no back overview

The Banqs Rectangular Bench, No Back is available as a Two Seater or Three Seater. The 18" (457mm) height is ideal for providing multi-directional seating with open sight lines.

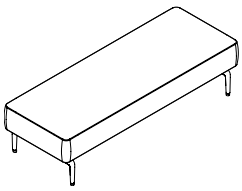
(KLNBAR2)



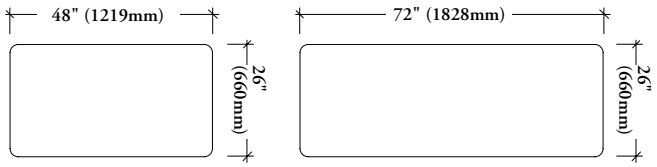
Banqs - Rectangular Bench
No Back, Three-Seater
(KLNBAR3)

banqs rectangular bench, no back dimensions & material requirements

- For conversion to Metric, multiply dimension by 25.4
- Banqs rectangular benches with no back have been designed and tested for users weighing up to 300 lbs (136kg).
- Dimensions are per BIFMA CMD standards
- Banqs Seating is proportioned to accommodate the growing needs of the North American market and tested to ANSI/BIFMA standards

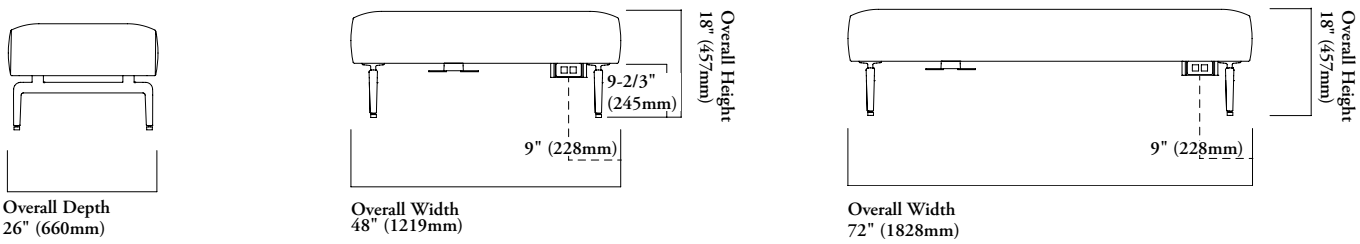
WEIGHT	
Bench, No Back, Two Seater	61 lbs (27kg)
Bench, No Back, Three Seater	84 lbs (38kg)

Banqs Rectangular Bench - No back



2-Seater 3-Seater

rectangular bench, no back, two and three seater



Overall Depth 26" (660mm)

Overall Width 48" (1219mm)

Overall Width 72" (1828mm)

Banqs is available with electrical modules mounted below the seat. The centerline of the module is always 9" (228mm) from the outside edge of the bench and can be specified left or right.

COM/COL Material Requirement

More yardage may be required depending upon the upholstery pattern, repeat, directionality and pattern matching. Leather yield varies from 60-80% and may be affected by the quality of the COL including location and quantity of blemishes, size and shape of hide. The size of the sewing pattern and the number of units ordered may also impact yield. Always round-up to the next hide.

Bench, No Back, Three Seater	3-1/2	60

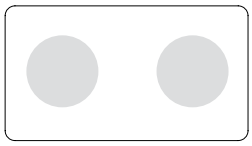
banqs rectangular bench, no back seating capacity & electrical

seating capacity

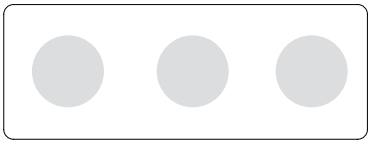
The following is the recommended maximum seating capacity for each Banqs Bench. Banqs allows 24" (609mm) for each person.

The weight capacity of each bench is based on a maximum of 300 lbs (136kg) per person (for example a three-seater is rated for three individuals each weighing no more than 300 lbs (136kg))

Banqs Rectangular Bench - No Back



Two Seater

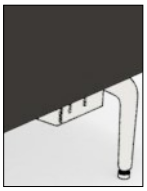


Three Seater

electrical capabilities

Banqs seating can be specified with or without an electrical option mounted below the seat. Each single module includes one simplex and two USB ports and a 10' (3048mm) cord.

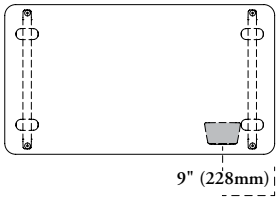
Electrical options are also available for the Banqs Table with Flat Base (KLNBAT).



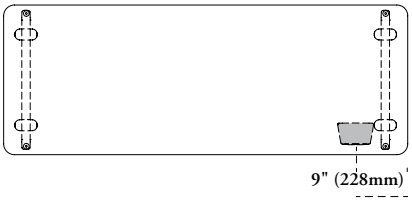
The following locations are available on Banqs benches:

- Justified beside the leg on left or right (from seated position) for all modules
- One side (from seated position) for back-to-back only
- One power module for single-sided configurations
- Two power modules for double-side configurations

When electrical modules are specified, the sofa comes with one cable manager and mounted beneath the sofa



48" (1219mm) wide bench with no back and electric module (left from seated position shown)



72" (1828mm) wide bench with no back and electric module (left from seated position shown)

KLNBAR
Banqs Rectangular Bench, No Back

FEATURES
Option of 2-Seater (48" (1219mm)W) or 3-Seater (72" (1828mm)W).
18" (457mm)H seat and no backrest.
Multi-use, non-marking Glides (no casters). Painted finish on cast metal leg.
Ships assembled.

NOTES
Single Upholstery is available. Upholstery is applied Off-the-Bolt.
Ganging Plates must be ordered separately for linear applications.
Legs are mounted on center line of depth so that the Bench can be used unhanded in open plan.
Electrical module to be ordered separately.

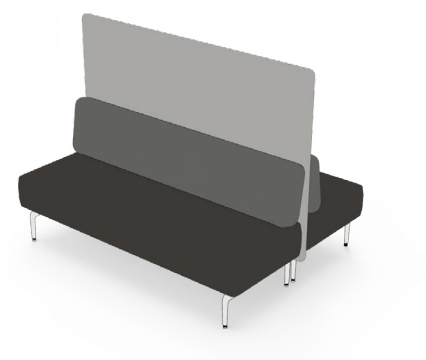
planning with banqs back-to-back sofas

Banqs back-to-back planning can be achieved in a number of ways, depending on the following:

- footprint size
- cost
- reconfigurability

The following demonstrates the ways in which this can be achieved.

Option 1



Banqs Back-to-Back Sofa, High Screen, 2-Seat (KLNBAB)

- Grade 1 Single Upholstery - Base Price

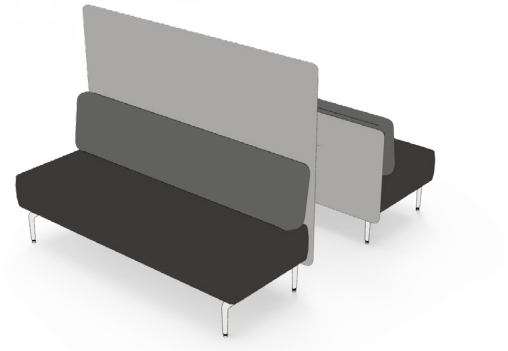
Advantages:

- one complete unit
- lowest cost
- smallest footprint
- proper alignment

Disadvantage:

- **cannot** be reconfigured into single sided sofas

Option 2



Banqs Single-Sided Sofa, High Screen, 2-Seat with
Banqs Single-Sided Sofa, Low Screen, 2-Seat (KLNBAS)

- Grade 1 Single Upholstery - Base Price is 10% more than option 1

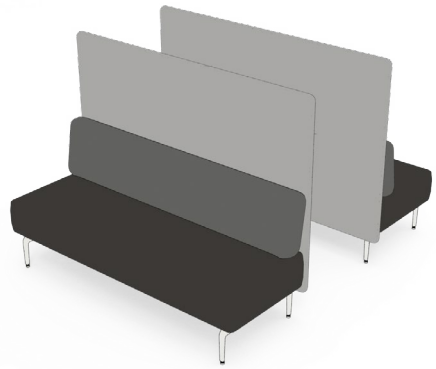
Advantages:

- can be reconfigured

Disadvantage:

- higher cost to use two units
- alignment will not be as tight as a single unit

Option 3



2 x Banqs Single-Sided Sofa, High Screen, 2-Seat (KLNBAS)

- Grade 1 Single Upholstery - Base Price is 13% higher than option 2

Advantages:

- complete flexibility to reconfigure Disadvantage:
- proper alignment

Disadvantage:

- highest cost
- largest footprint
- possible misalignment with two separate units

specifying banqs corner and full alcove sofas

Banqs Alcove Sofas are available as two and three seaters, with low screen or high screen options. They can be used alone or combine the Corner Alcove with the straight Single-Sided Sofas to end a linear run or create a perpendicular corner layout.

Banqs Alcove Sofas are specified by selecting:

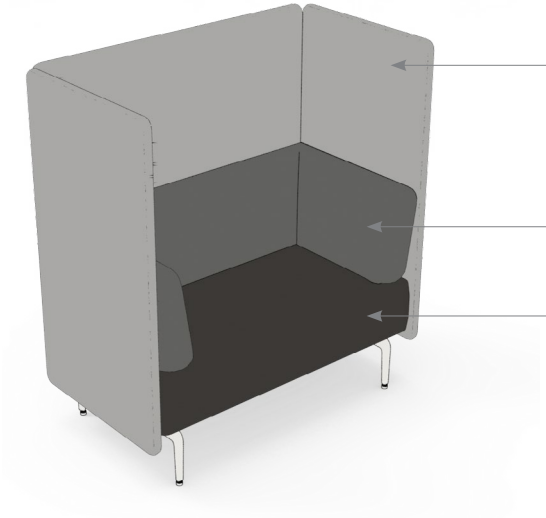
1 - Seat fabric
2 - Bolster fabric
3 - Screen fabric

The sofas can be specified:

• Single upholstery (the entire sofa is one fabric and one colorway)

• Triple upholstery (each part is specified in a different fabric or colorway)

All Teknion upholstery grade fabrics including all Luum fabrics and leather can be used on Banqs seating.



banqs corner alcove sofa overview

Banqs Corner Alcove Sofas are available with a low screen and a high screen. They can be used alone or combined with straight Single-Sided Sofas to end linear runs or create a perpendicular corner layout.

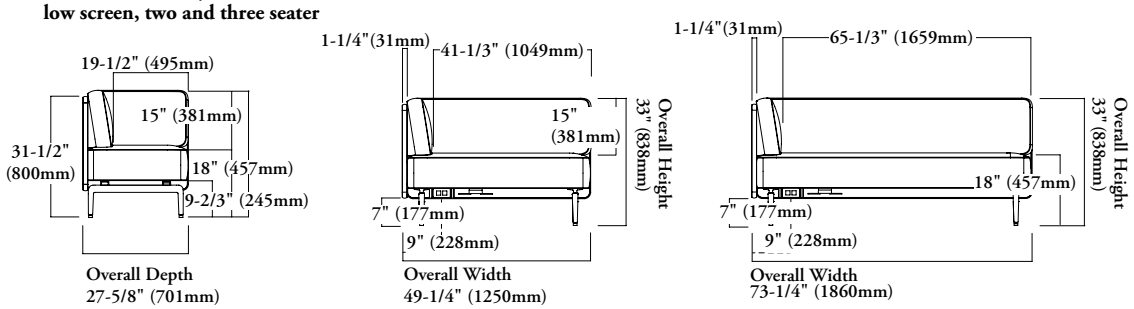
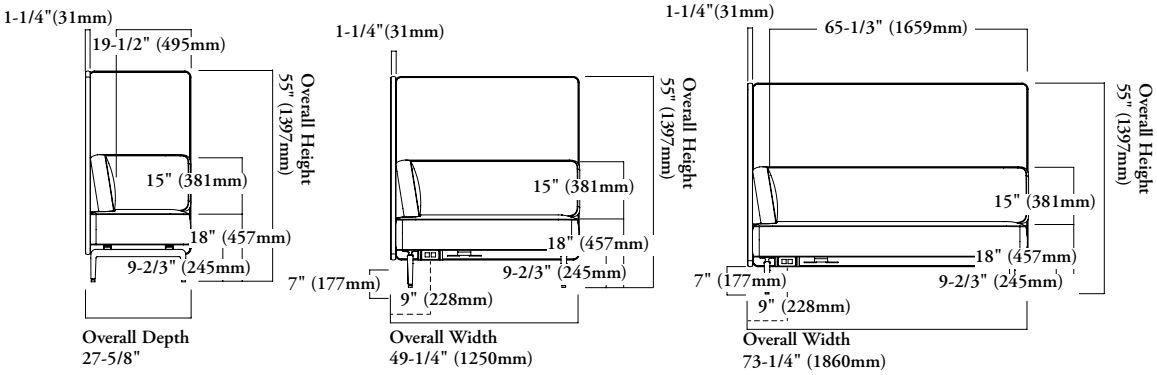
2-Seater 3-Seater

corner alcove sofa, low screen, two and three seater



corner alcove sofa, high screen, two and three seater



Banqs is available with electrical modules mounted below the seat. The centerline of the module is always 9" (228mm) from the outside edge of the bench and can be specified left or right.

COM/COL Material Requirement

More yardage may be required depending upon the upholstery pattern, repeat, directionality and pattern matching. Leather yield varies from 60-80% and may be affected by the quality of the COL including location and quantity of blemishes, size and shape of hide. The size of the sewing pattern and the number of units ordered may also impact yield. Always round-up to the next hide.

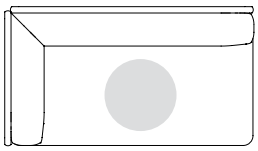
banqs corner alcove sofa seating capacity & electrical

seating capacity

The following is the recommended maximum seating capacity for each Banqs Corner Alcove Sofas. Banqs allows 24" (609mm) for each person.

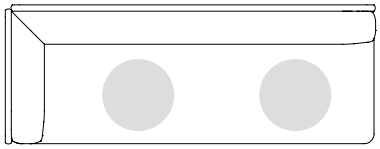
The weight capacity of each bench is based on a maximum of 300 lbs (136kg) per person (for example a three-seater is rated for three individuals each weighing no more than 300 lbs (136kg))

Banqs Corner Alcove Sofa - Two Seater



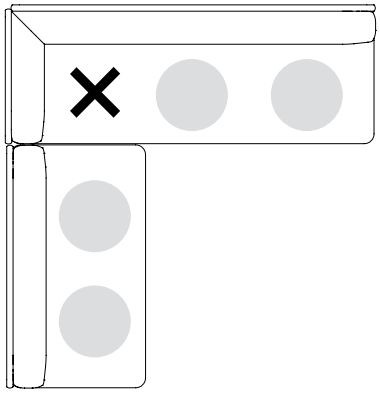
Recommended 1 person

Banqs Corner Alcove Sofa - Three Seater



Recommended 2 person

Combining Corner Alcoves with other Sofas

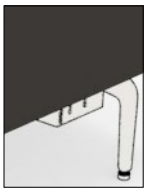


The Banqs Corner Alcoves have overall dimensions that correspond to the Two Seater and Three Seater-Single-Sofas but the corner position and side bolster may restrict full seating capacity.

electrical capabilities

Banqs seating can be specified with or without an electrical option mounted below the seat. Each single module includes one simplex and two USB ports and a 10' (3048mm) cord.

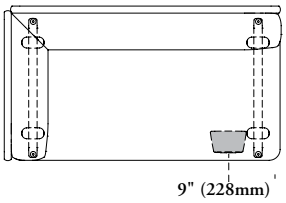
Electrical options are also available for the Banqs Table with Flat Base (KLNBAT)



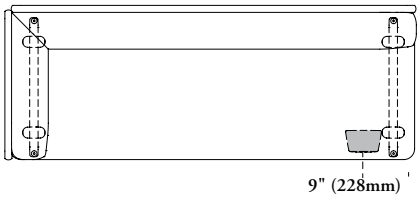
The following locations are available on Banqs Corner Alcove Sofas:

- Justified beside the leg on left or right (from seated position) for all modules
- One side (from seated position) for back-to-back only
- One power module for single-sided configurations
- Two power modules for double-side configurations

When electrical modules are specified, the sofa comes with one cable manager and mounted beneath the sofa.

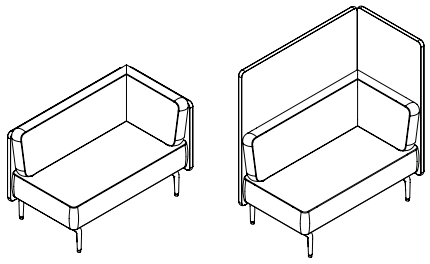


48" (1219mm) wide Corner Alcove Sofa with Right Corner Orientation and electric module



72" (1828mm) wide Corner Alcove Sofa with Right Corner Orientation and electric module

K L N B A C
Banqs Corner Alcove Sofa



FEATURES

Option of 2-Seater (48" (1219mm)W) or 3-Seater (72" (1828mm)W). 18" (457mm)H seat and bolster backrest is 33" (838mm)H from floor. 55" (1397mm)H screen provides more visual, acoustic and spatial privacy than the 31-½" H screen. Corner Orientation is from the seated user position. Screen and bolster wraps left-hand back corner or right-hand back corner.

Multi-use, non-marking Glides (no casters). Painted finish on cast metal leg.

Ships assembled. Includes threaded inserts to connect with perpendicular Spanning Screen Kit.

NOTES

Single or Triple Upholstery is available allowing individual specification of the Seat, Bolster (backrest) and the Screen. The same upholstery finish is applied on both sides of the Screens as a standard. Upholstery is applied Off-the-Bolt.

Ganging Plates must be ordered separately for linear applications.

Electrical module to be ordered separately.

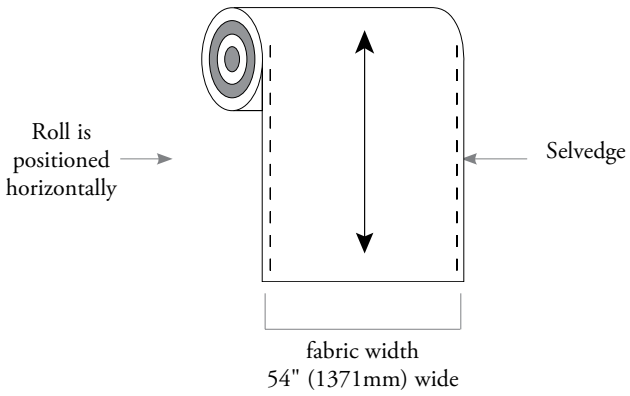
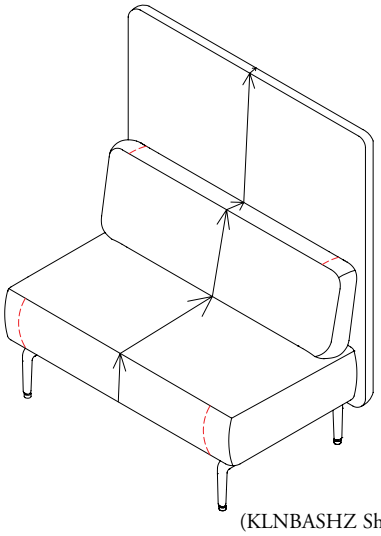
fabric pattern and seam guidelines

The following should be considered when selecting fabrics on Banqs seating.

Fabric is applied Off-the-Bolt on Banqs seating. Off-the-Bolt is a term that describes the orientation that fabric is applied to seating.

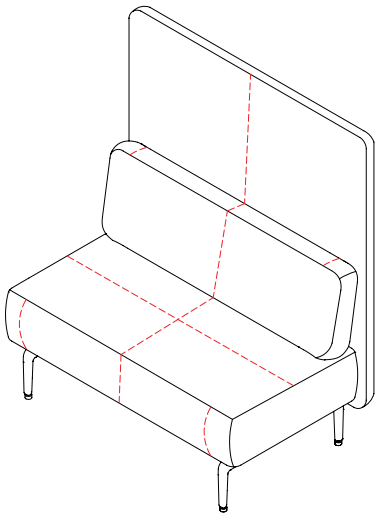




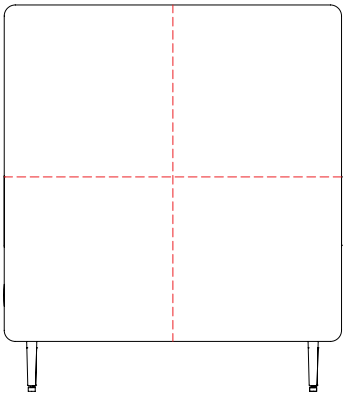
(KLNBASHZ Shown)

Leather Considerations

- leather hides have variations in shaped and limited dimensions
- the leather will divided into smaller pattern sizes and will need additional seams



(KLNBASHZ Shown)



fabric pattern and seam guidelines (continued)

The following outlines where seams will be required on Banqs seating.

Fabric

All fabrics for Banqs benches and sofas are applied Off-the-bolt (front to back).

Patterned upholstery can be used.

COMs will follow the same fabric orientation and pattern seams.

Seams are required in the center-line of 3-seater straight upholstered benches and sofas as indicated below. Seams are applied to the back side and front face of the bench backs.

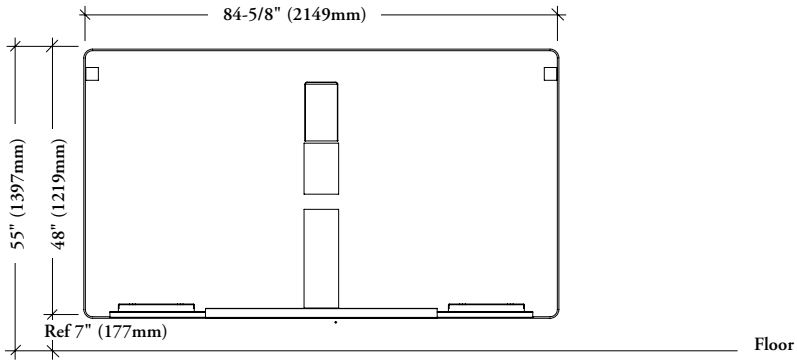
High Spanning Screen, 84" (2133mm), No Electrical Module	70 lbs (31kg)

High Spanning Screen, 84" (2133mm), Digital Share and Worksurface Electrics



When assembled the top of the High Spanning Screen is 55"(1397mm) from the floor to coordinate with High Sofas.

When High Spanning Screen is desired to be positioned against a wall consider the height of baseboards and other building elements that may prevent it from being flush with the surface.

COM/COL Material Requirement

More yardage may be required depending upon the upholstery pattern, repeat, directionality and pattern matching. Leather yield varies from 60-80% and may be affected by the quality of the COL including location and quantity of blemishes, size and shape of hide. The size of the sewing pattern and the number of units ordered may also impact yield. Always round-up to the next hide.

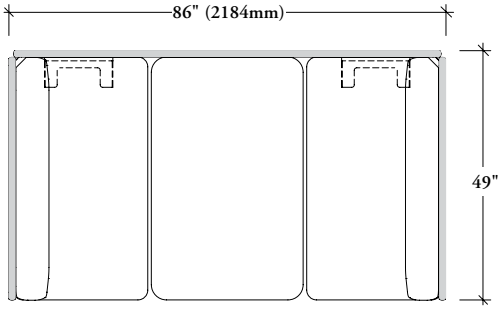
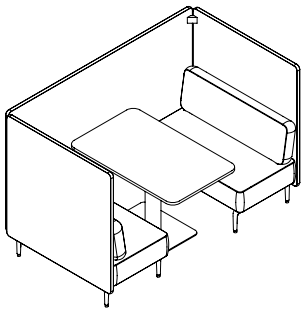
planning with banqs high spanning screen

The following should be considered when planning with Banqs high spanning screen.

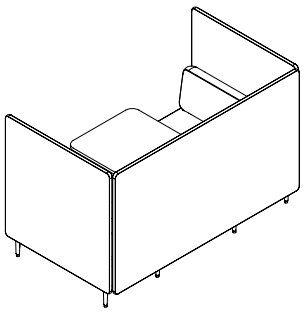
Banqs High Spanning Screens can only be used perpendicular to high screen sofas and must always be planned as a booth. High spanning screens are not freestanding.



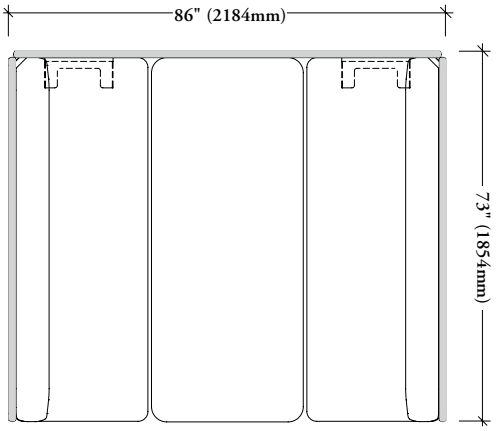
Single-Sided Sofa, High Screen, 2-Seat with 30" (762mm) deep x 48" (1219mm) wide Table



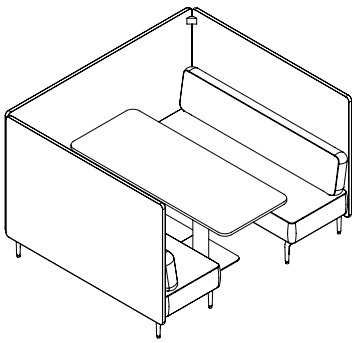
Front view



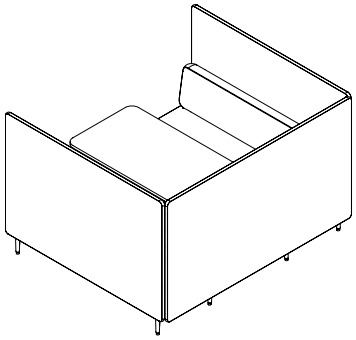
Back view



Single-Sided Sofa, High Screen, 3-Seat with 30" (762mm) deep x 72" (1828mm) wide Table

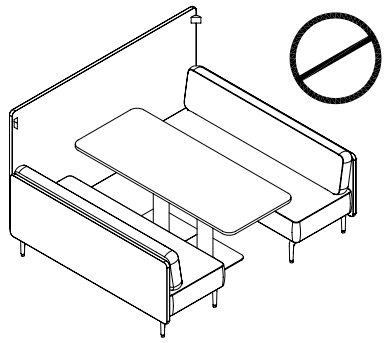


Front view



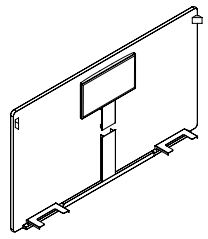
Back view

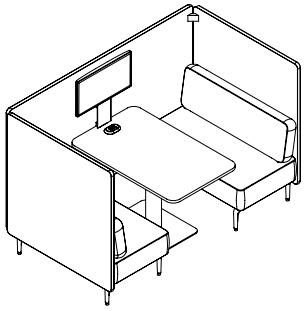
Banqs High Spanning Screens cannot be planned with Single-Sided Sofas with Low Screens.



Single-Sided Sofa, Low Screen, 3-Seat with 30" (762mm) deep x 72" (1828mm) wide Table

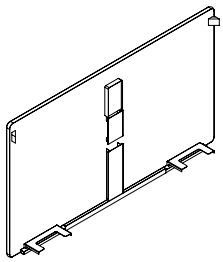
The following are the recommended TV/Monitor size and weight that should be taken into consideration when specifying a High Spanning Screen with Digital Share & Worksurface Electrics.





- Maximum TV/Monitor size is 28" (711.2mm) (measured on the diagonal)
- Maximum recommended width is 30" (762mm)
- Maximum TV/Monitor weight 20 lbs (9kg)
- TV/Monitor **cannot** be mounted on both sides of a High Spanning Screen
- Note: no tilt, pan or rotation is provided in the monitor mount
- VESA 75mm x 75mm or 100mm x 100mm hold pattern is accommodated

KLNBAZ
Banqs High Spanning Screen



FEATURES
Spanning Screen is used perpendicular to a Banqs Table and spans between (2x) Banqs Sofas with High Screens to close one end, resulting in a banquette/booth space that's screened on three sides. Spanning Screen is 84" (2133mm) W nominal x 55"(1397mm) H to optimize visual, acoustic and spatial privacy. It is sized specifically to provide ergonomic access to a 30" (762mm) D Banqs Table with Flat Base and is structural to support TVs and Monitors up to 28" (711mm) diagonal measure. Coordinating painted finish on metal channels and brackets.

Ships assembled.

NOTES
Includes corner brackets and hardware used to connect and level screen with perpendicular Banqs Sofas specified with High Screens.

Single Upholstery is available on Screen. Upholstery is applied Off-the-Bolt.

Electrical Mounting Options can be specified to provide a horizontal wire management channel below the worksurface (for Worksurface Electrics). The Digital Share and Worksurface Electrics option also includes a vertical channel and mounting bracket with 75 x 75 or 100 x 100 mm hole patterns positioned above the worksurface level, used as wire management for television and monitor mounts (TVs and monitors not supplied). TVs and monitors up to 28" (711mm) diagonal measurement can be accommodated & are ideal for the close visual proximity within the booth.

See Banqs Digital Share Wall Mount Integration Kit (KLNBAY) for Digital Share options that are mounted directly to a wall.

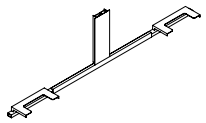
KLNBAX
Banqs Wire Management Kit for Table with Power Pill at Architectural Wall



FEATURES

This Wire Management Kit is used in a booth setting that is against a building wall that requires only a Power Pill in a Banqs Table with Flat Base. It is also compatible with a scenario when a TV or monitor mount is required but hard wired into the wall, concealing wires.

Includes Hat Channel to manage wires below the worksurface, from the Power Pill, to a horizontal wire management channel and connection brackets used to connect and level with adjacent Sofas. Does not include TV/Screen mounting bracket. Hardware to mount to wall is not provided and must be ordered by customer to suit site conditions.

Painted finish on metal

NOTES

The Kit manages the wires below the worksurface and relays them horizontally to the location of the Banqs Single Sided or Back to Back Sofas so that the power monument may be located in the floor, below the seat.

Order KLNBAY when a TV/Monitor is required to be surface mounted and a full wire management solution from the TV/Screen and the Power Pill to a floor monument is required.

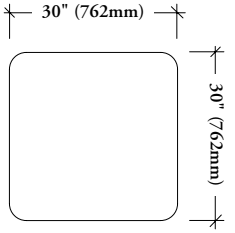
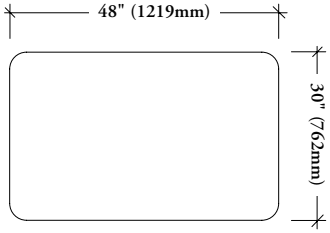
planning with banqs tables

The following should be considered when planning with Banqs tables.



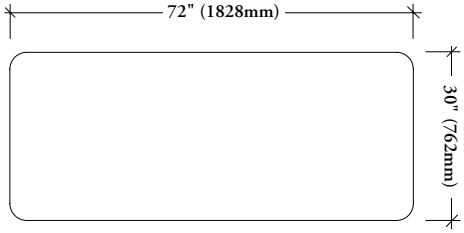
30" (762mm) wide x 30" (762mm) deep

Flat Base (KLNBAT) and 4-Prong Base (KLNBAU)



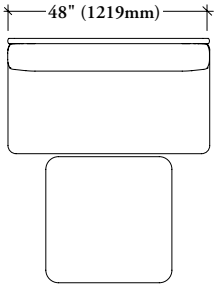
48" (1219mm) wide x 30" (762mm) deep

Flat Base (KLNBAT) only

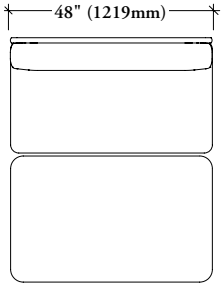


72" (1828mm) wide x 30" (762mm) deep

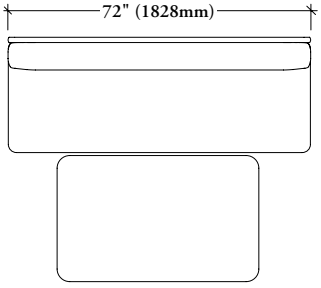
Flat Base (KLNBAT) only



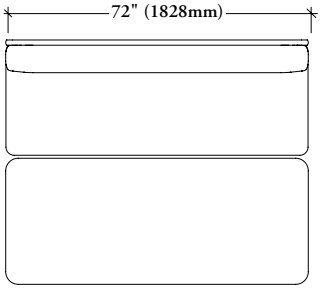
Single-Sided Sofa, 2-seater with 30" (762mm) wide x 30" (762mm) deep table



Single-Sided Sofa, 2-seater with 48" (1219mm) wide x 30" (762mm) deep table

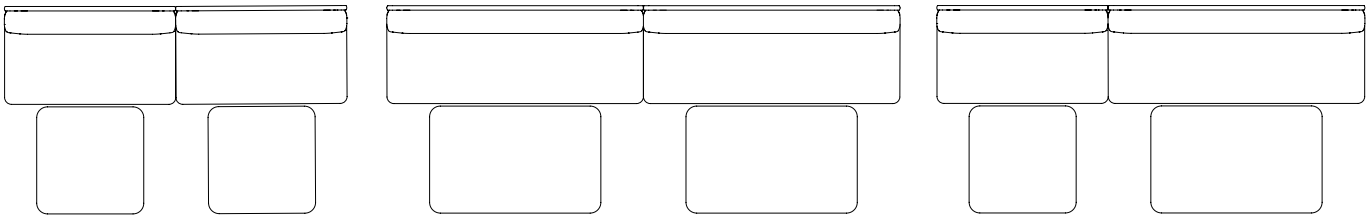


Single-Sided Sofa, 3-seater with 48" (1219mm) wide x 30" (762mm) deep table

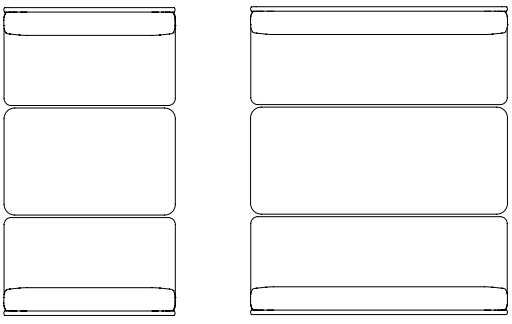


Single-Sided Sofa, 3-seater with 72" (1828mm) wide x 30" (762mm) deep table

For linear planning, Banqs are sized to allow a user to pass between two tables to allow access to sofas. In this scenario, the tables are freestanding and either the Banqs tables with a Flat Base or 4-Prong Base can be specified. A minimum 18" (457mm) distance between tables is suggested for clearance.



For Back-to-Back planning and to create booths, Banqs tables with Flat Bases are sized to be used with or without a High Spanning Screen. Their flat bases improve access and egress to the booth. Tables with Flat Bases also provide cut-out options to accommodate the High Spanning Screen's power and AV options as well as lighting.

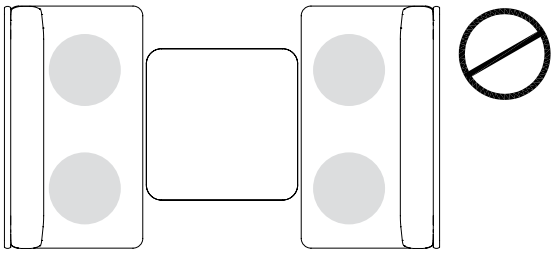


planning with banqs tables (continued)

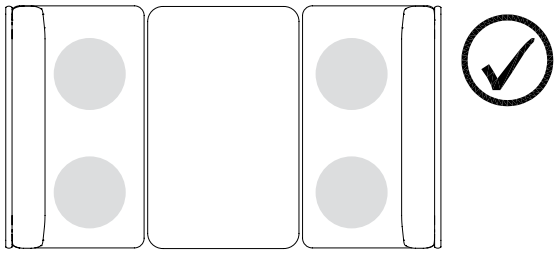
Recommended Occupancy

The following outlines the recommended occupancy for tables when planned in a booth.

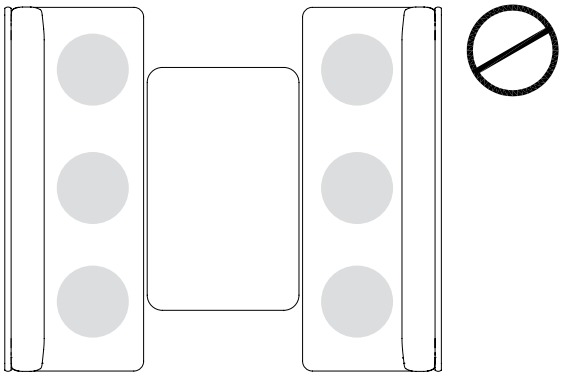
-Tables should be planned the same width as the sofas



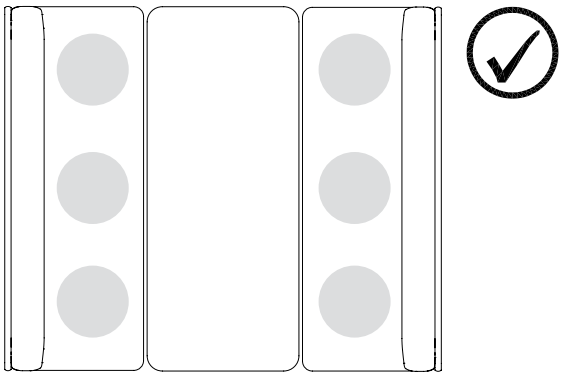
- 2-Seater Sofa
- 30" (762mm)w x 30" (762mm)d Table



- 2-Seater Sofa
- 48" (1219mm)w x 30" (762mm)d Table

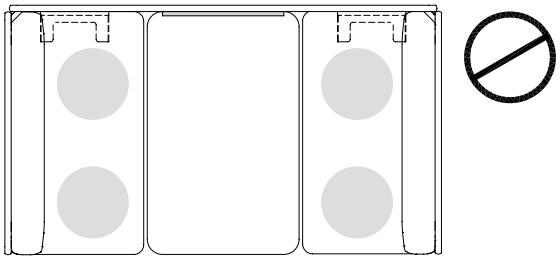


- 3-Seater Sofa
- 48" (1219mm)w 30" (762mm)d Table

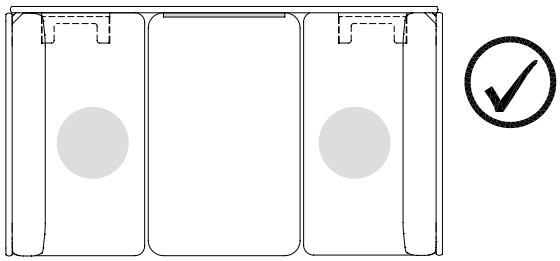


- 3-Seater Sofa
- 72" (1828mm)w x 30" (762mm)d Table

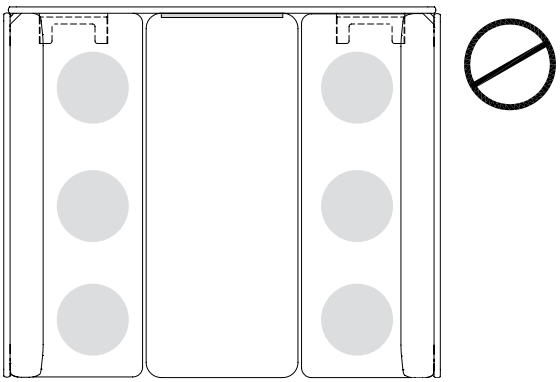
The following outlines the recommended occupancy for tables when planned in a booth with Banqs High Spanning Screens when an A/V monitor or screen is mounted since all attendees should be able to clearly view the screen.



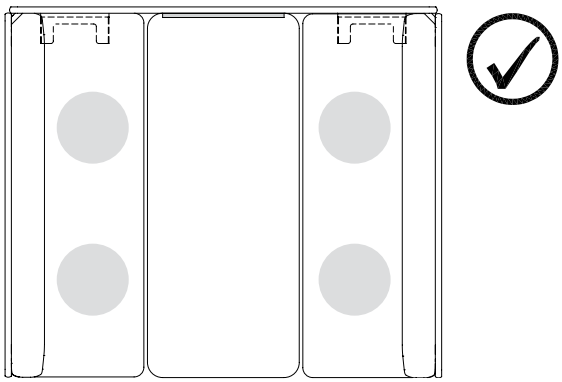
- 2-Seater Sofa
- 48" (1219mm)w x 30" (762mm)d Table
- High Spanning Screen



- 2-Seater Sofa
- 48" (1219mm)w x 30" (762mm)d Table
- High Spanning Screen



- 3-Seater Sofa
- 48" (1219mm)w x 30" (762mm)d Table
- High Spanning Screen

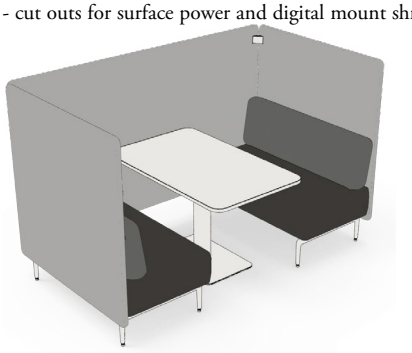


- 3-Seater Sofa
- 48" (1219mm)w x 30" (762mm)d Table
- High Spanning Screen

planning with banqs tables (continued)

power and lighting

Banqs tables have the following power and lighting capabilities. Power and lighting accessories must be purchased separately.
- no power
- cut outs for mounting a Zones Table lamp
- cut outs for worksurface electrics
- cut outs for surface power and digital mount shrouds



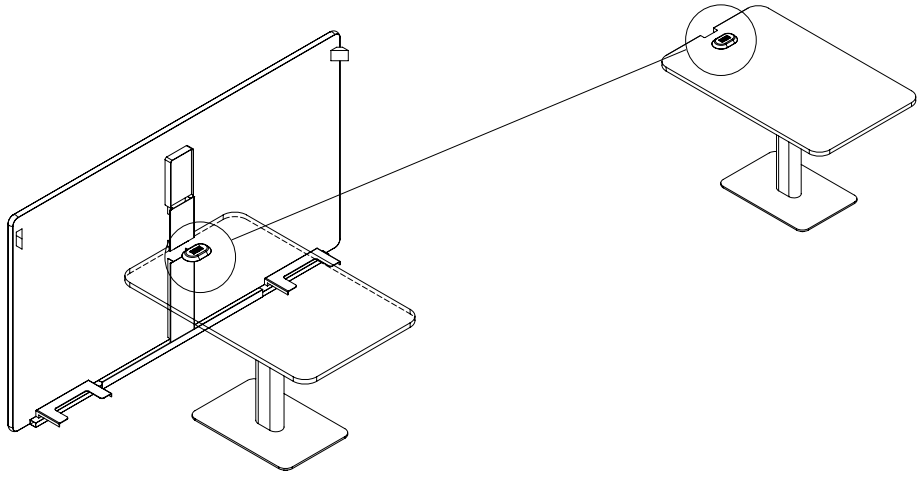
No electrics (High Spanning Screen not required)

Zones Table Lamp (ZNET)

Zones Power Box (MZNBL4)

Zones Power Box (MZNBL4) with Digital Share & Worksurface Electrics (KLNBAZ)

When a High Spanning Screen with Digital Share & Worksurface Electrics (KLNBAZ84D) is required, a Zones Power Box must be specified as well as the table with the corresponding cut-outs.



Banqs Table with Flat Base with Zones Power Box (MZNBL4), & Digital Mount Shroud

The following TV/Monitor sizes are recommended when specifying the option of Digital Mount Shroud

- 24" (609mm) to 28" (711mm) monitor size (measured on the diagonal)
- Will accommodate monitors up to 20 lbs (9kg) maximum one monitor
- VESA 75 x 75 or 100 x 100 mm

collaborative ottoman overview

The Collaborative Ottoman provides casual seating for guests in a workstation or lounge environment. In a lounge, the Ottoman can be used in their own grouping or intermingled with other lounge seating, such as Teknion dna.

- Collaborative Ottomans have been designed and tested for users weighing up to 300 lbs (136kg)/seat.
- Collaborative Ottomans are equipped with casters intended for use on carpeted surfaces. Use of these casters on hard surfaces could result in unexpected rolling and tipping. Casters designed for use on hard surfaces are available. If in doubt, see your dealer for appropriate selection.

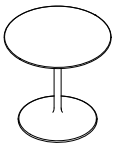
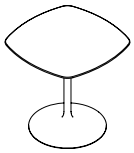
Sprout Stool



Sprout Round Table



Sprout Soft-Square Table

understanding sprout stools & tables

The Sprout collection of stools and tables is inspired by nature – budding flowers, foliage and branches at varying stages of size and growth. Each can be displayed solo, like a small flower in a bud vase, or be part of a larger arrangement of similar or varying colors and textures.

sprout stools

Sprout Stools are portable and casual and ideal for use in workplaces, phone booths, cafeterias, retail and educational settings.
They are available in three heights:
- Task Height
- Bar Height

sprout round tables

Sprout Round Tables also with trumpet bases, are ideal for use in any setting and complement Sprout Stools.
They are available in four heights:
- Lounge Height
- Task Height
- Bar Height

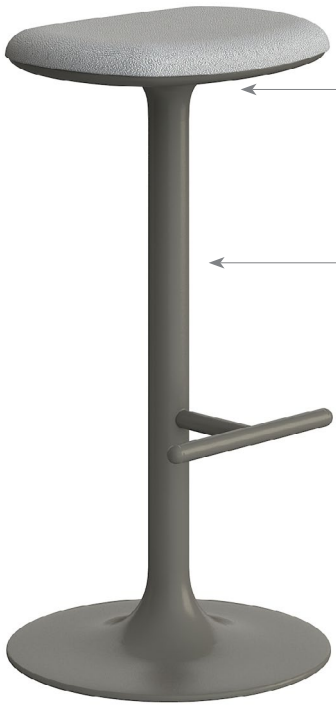
sprout soft square tables

Sprout Soft Square Tables with trumpet bases are ideal for use in any setting and complement sprout stools.
They are available in four heights:
- Lounge Height
- Task Height
- Bar Height

sprout stool overview

The Sprout Stool is a portable, casual stool ideal for use in workplaces, phone booths, cafeterias, cafes, retail and educational settings. Optional Seat Heights are fixed in task, counter or bar height which is more safe and ideal for commercial applications.

Sprout Stool (KLNSPS)



Generous sized upholstered seat is available in any Teknion graded-in Luum upholstery.

Seat swivels 360° for multi-directional use and accessing small spaces

Seat heights are fixed for safer use and consistent look in public spaces

Sturdy metal frame and trumpet base is available in any Teknion paint (Foundation, Mica, Accent and Zones)

White and other light colored paint finishes are not recommended for high traffic use or minimized maintenance

A metal Footrest is included on Counter and Bar Stool Models

Footrest swivels with seat

Multi-surface, non-marking felt glides

KLNSPR
Sprout Round Table

FEATURES

- Casual Tables with trumpet bases that are ideal for use in workplaces, enclaves, cafeterias, cafes, retail & educational settings
- Table tops offered in any of Teknion's Laminate, Flintwood, or Veneer finishes. Boutique surfaces available as a Special
- Multi-surface, non-marking felt glides

NOTES

Table tops are cozy in size- offered as 24" (610mm) and 30" (762mm) Round Table (KLNSPR) shapes. The 24" (610mm) tops are ideal as a cocktail table to rest your beverage while the larger diameter table provides more space for a couple of people to eat, socialize or work- all in the same space.

Coordinates with Sprout Stools (KLNSPS) & Sprout Soft Square Tables (KLNSPT). Task Height for 29" high table or worksurface, & Bar Height for 42" high bar surface. Additional 16" (406mm) High Lounge model is offered to be used with lounge seating.

Robustly constructed metal frame & base sub-assembly can be painted any Teknion paint finish allowing coordination with Sprout Stools.
