PRICE & PRODUCT GUIDE 11

introduction

where to find the information you need

Teknion provides an array of tools and information resources to help you get things done simply and easily. From product pricing to application guidelines to online planning suggestions, you will find what you need when you need it.

guide contents

This guide contains all the information you need to order this product through your specification software. The Introduction section provides everything you need to get started, including an index for product reference. The Application Guide section contains detailed specification guidelines, application and planning information to help you plan your project correctly. The Price Guide sections provide detailed pricing and specification information by product type. Available online at www.teknion.com.

where to find the information you need

All Teknion marketing materials are available online at www.teknion.com, including:

price & product guide

application guide

planning tool

installation guides

fabrics & finishes

product photography & drawings

weights & volumes

order forms

warranty/terms & conditions of sale

xpress program guide

teknion forms

The following forms are available online at www.teknion.com, to help you specify and place your order if required:

teknipaint

If you require a custom paint color match, you must submit a TekniPaint form.

using your own material (COM)

If you wish to use your own material on fabric-covered products, you must submit a completed COM form including a sample upholstery and safety testing. A COM Order Information Sheet must also be submitted. This form captures all relevant ordering and tracking information. A COM Request for Yardage Calculation form may be sent to Teknion for preliminary yardage requirements.

placing a manual order

Complete an Order Cover Sheet with the information we need to fill your order. This is the most important step. If the Order Cover Sheet is not complete and correct, the order may be delayed.

key requirements

If you require that certain pieces share the same locks you will need to specify Set of Keys Alike (SOKL) located in the Price and Product Guide.

user feedback

How is our marketing material working for you?

Feedback from the user is very important to the quality of Teknion's marketing material. We ask that if you have suggestions on how you think we could improve content OR if you have found an error, that you contact your Teknion Technical Services department.

general information

GENERAL:

All dimensional codes (listed throughout the text and under options) are nominal figures – they are not actual dimensions.

CANA AND WESTCOAST:

Canas are characterized by their well crafted Pencil Radius or Radius edge detail in solid hardwood.

Pencil Radius Radius

Westcoast offers five different edge styles in solid hardwood:

Bevel Classic Arch Dome Reed

TIFFANY:

Tiffany Tables are designed to compliment a variety of surroundings, yet stands alone as an essential design statement. The legs celebrate the bold top as a ring setting celebrates its stone.

FINISHES:

For details on the finishes with codes available for occasional Tables, please refer to the Wood/Casegoods Introduction booklet.

Please refer to Teknion’s Fabrics & Finishes Program guide to view finish sample cards and to order individual finish samples.

Custom Wood Stain

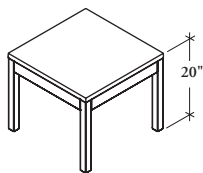

For custom wood finishes (ZCCWS) add 676 list per match. This is a one time matching charge. Please see the Wood/Casegoods Introduction booklet for details.

ZCOTE End Table

NOTES

Please see finish listing with codes in the Wood / Caseloads Introduction Booklet.

While sizing is shown in both imperial and metric, products need to be ordered using imperial dimensions.

general information

GENERAL:

All dimensional codes (listed throughout the text and under options) are nominal figures – they are not actual dimensions.

The extensive offering of conference tables are manufactured using select veneers and solids. Please note that the natural characteristics of wood veneer and wood solids may contribute to a variation of finish grain, tone and color.

Tables 96" and shorter in length have one piece tops with the veneer grain running parallel to the longest table top dimension.

Tables greater than 96" in length up to and including 192" in length have two piece tops with the veneer grain running parallel to the shortest table top dimension.

Tables greater than 192" in length have three piece tops with the veneer grain running parallel to the shortest table top dimension.

The dealer is responsible for confirming that tops will fit in an elevator or other site access.

Round, square and modified square tops that are greater than 60" are two pieces.

T6 patterned grain tops have a 12" center square. Finish of this square can be specified in veneer or Platinum painted MDF. Table top length must be a multiple of table top width.

All conference table edge details and most table bases are available on conference tables of all shapes and sizes. Combining these with corner details, veneer patterns and finishes allows the specifier to select a table design that meets the aesthetic and functional requirements of their project.

FINISHES:

For details on the finishes available for these products, please see the Wood/Casegoods Introduction booklet.

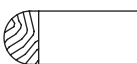

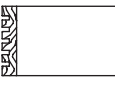

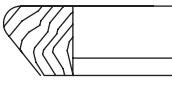

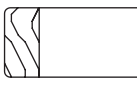

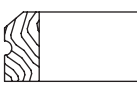

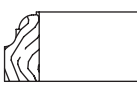

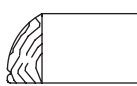

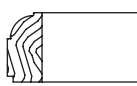

Please refer to Teknion's Fabrics & Finishes Program guide to view finish sample cards and to order individual finish samples.

Custom Wood Stain

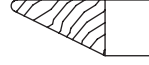

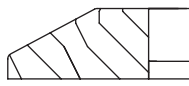

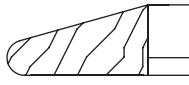

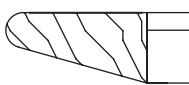

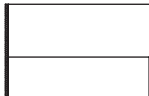

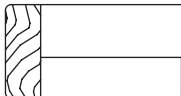

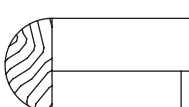

For custom wood finishes add 676 list per match. This is a one time matching charge. Please see the Wood/Casegoods Introduction booklet for details.

general information

GENERAL:

All dimensional codes (listed throughout the text and under options) are nominal figures – they are not actual dimensions.

Wall Mounted Cabinets

All wall mounted cabinets and shelves include a separate wall cleat that is sized to support the cabinet, but does not include wall cleat attachment hardware. The structural capacity of the support wall and the anchoring of the cleat to the wall are beyond the control and expertise of Teknion. It is, therefore, understood by all parties involved that it is the responsibility of the buyer, owner, and/or installer to consult with the building owner, architect, interior designer, structural engineer, and/or contractor to ensure that the supporting wall structure and cleat attachment method will support the size and weight of the specific cabinet selected from the Halcon price list.

Casegoods

Refer to the corresponding product line sections of Teknion's Wood binder for a complete offering of casegoods products.

FINISHES:

For details on the finishes available for Conferencing products, please see the Wood/Casegoods Introduction booklet.

Please refer to Teknion's Fabrics & Finishes Program guide to view finish sample cards and to order individual finish samples.

Custom Wood Stain

For custom wood finishes add 676 list per match. This is a one time matching charge. Please see the Wood/Casegoods Introduction booklet for details.

OPTIONS:

Lighting/Accessories

In addition to the lighting and accessory products offered in this guide, please see Complements: Teknion's *Ergonomics & Accessories Program* for a listing of additional Keyboard Supports & Accessories.

Complements: Teknion's *Ergonomics & Accessories Program* - is designed to organize and personalize the workspace and promote healthy working postures. Complements products integrate with all Teknion furniture and can be applied to complete and enhance individual workstations, group work areas and public spaces.

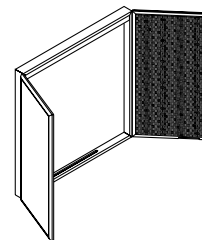

Grommets

Where applicable, grommets and wire trays are available to facilitate all your wire management needs. In the high-tech office environment, these components are a must to maintain a professional look without compromising function!

WHAT'S INCLUDED

Flip chart, marker and eraser, magnetic whiteboard on interior.
