lateral file basics

Ledger provides a comprehensive storage solution for managing information and resources and integrates competently into workstations or stand-alone scenarios. Ledger Lateral Files are offered in pre-configured arrangements.

- Five Lateral File drawer configurations are available: Two-High, Three-High, Four-High, Five-High and Six-High, all available in three height options:
 - 1) Letter-Height: used primarily for hanging files
- 2) Combination-Height: used primarily for hanging files with some openings dedicated to binder storage
- 3) Binder-Height: supports binders in all drawing openings, as well as hanging files (with the exception of the Six-High cabinet which is available in Letter-Height only)
- All drawer heights are based on a 1.6" module (the size of the posting shelf), then 3.2", 4.8", 6.4" to up to 16"
- · Adjacent drawers align for a continual datum line
- The interior construction of the case permits drawer reconfiguration or retrofit at any time

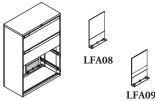

full pull fronts to clearly identify the

contents of each drawer

An optional, fully-retractable **posting shelf** is available for the Five- and Six-High Lateral File cabinets to provide a convenient ledge

- Counterweights are required for all cabinets with pull-out drawers and cabinets not located directly under a worksurface
- The following type and number of counterweights will be included, if specified:

18" deep cabinets

	Two-High	Three-High	Four/Five/Six-High
	(up to 35.2")	(36.8" – 51.2")	(52.8" – 75.2")
30" w 36" w	2 LFA08	2 LFA08	2 LFA08

lateral file basics (continued)

Lateral File Accessories (LFA) enhance the organizational ability of the lateral drawers.

All Lateral File Accessories are Grey, except for the Divider Plates and EDP Adapters are Black.

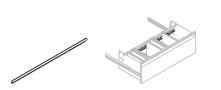

Hanging File Bars (LFA01, 02, 03) Permits hanging letter-, legal- or metric-size files in side-to-side arrangements

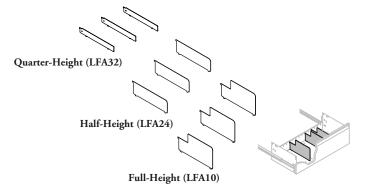

Cross File Bars (LFA07)

- Permits hanging letter-, legal- or metric-size files in a front-to-back arrangements. They are shipped in packages of two
- Available for 18" and 20" depth drawers

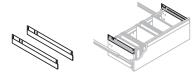

Legal-to-Letter Adapter (LFA11, 12, 13) Prevents the contents of letter-size folders from falling from the side of the folder

Divider Plates (LFA10, 24, 32)

- Section the lateral drawer into separate compartments
- Available for 18" and 20" depth drawers
- Quarter-Height Divider Plates (LFA32) are designed to fit in 3.2" high lateral drawers 18" deep drawers will have a 1/2" gap and 20" deep drawers will have a 1" gap
- Half-Height Divider Plates (LFA24) are designed to fit in 4.8", 6.4", 8.0" and 9.6" high lateral drawers 18" or 20" deep drawers will have a 2 3/4" gap
- Full-Height Divider Plates (LFA10) are designed to fit in 11.2", 12.8", 14.4" and 16.0" high lateral drawers 18" or 20" deep drawers will have a 2 3/4" gap
- Can also be applied to the Slotted Shelf (SA2)

EDP Adapters (LFA20) • Provide clearance space for EDP files

• Available for 18" and 20" depth drawers

application guides

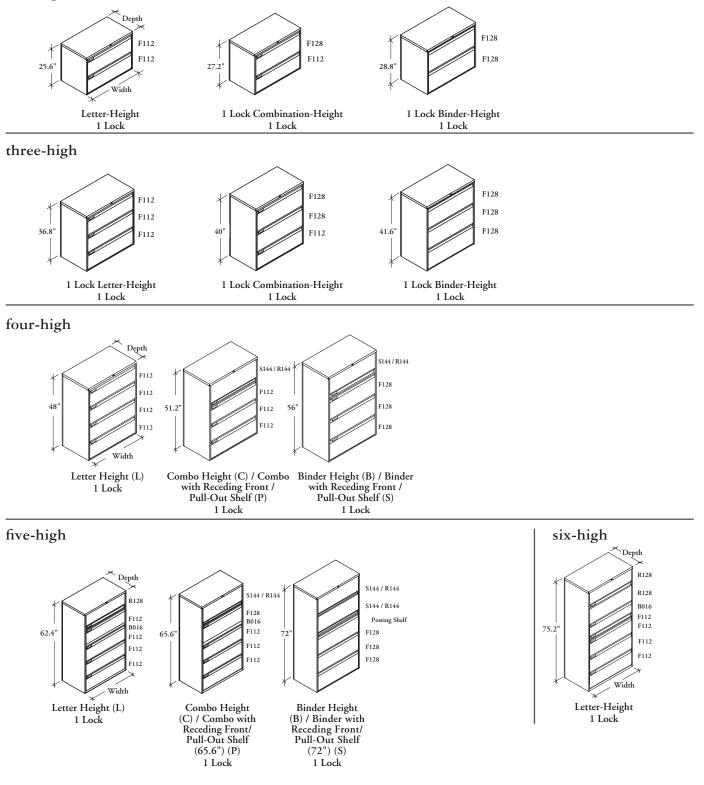

lateral file drawer configurations & lock charts

The family of Ledger Lateral Files cater to diverse filing requirements.

- All Five- and Six-high Laterals include a 1.6" high Structural Module (B016) above the third drawer for extra stability
- Details on drawer heights (i.e. F112, F128) can be found on the following pages
- When Individual locks are specified each drawer comes with a lock (except the 6-high which comes with 5 locks)

two-high

filing & storage price & application guide - September 28, 2020

lateral file drawer heights

The chart below aids in selecting the appropriate drawer for specific applications.

modu	ile code				
drawer type	exterior height	interior height	drawer type	product illustration	applications
F	112 11.2"	10.6"	Fixed Front – Letter		 Drawer extends for easy access from any position Fits hanging files in letter and A4 sizes Accommodates front-to-back and side-to-side filing
F	128 12.8"	12.2"	Fixed Front – Binder		 Drawer extends for easy access from any position Fits binders and hanging files in letter and A4 sizes Does not accommodate metric-size binders
S	128 12.8"	11.2"	Receding Drawer with Fixed Shelf – Letter		• Appropriate for end tab filing
S	144 14.4"	12.8"	Receding Drawer with Fixed Shelf – Binder		• Appropriate for binders and tab filing
R	128 12.8"	11.2"	Receding Drawer with Pull-out Shelf – Letter		 Easy access to storage is provided by pull-out shelf Fits hanging files in letter and A4 sizes
R	144 (14.4")	12.8"	Receding Drawer with Pull-out Shelf – Binder		• Easy access to storage is provided by pull-out shelf • Fits binders and hanging files in letter and A4 sizes

storage cabinet basics

Ledger Storage Cabinets cater to diverse storage requirements including reference materials, equipment and files for person or group use.

- Five Storage Cabinet configurations are available: Two-High, Three-High, Four-High, Five-High and Six-High, available in three height options:
 - 1) Letter-Height
 - 2) Combination-Height
 - 3) Binder-Height
- Accessories are available to match 18" and 20" deep cabinets

• Additional Shelves (SA1) and Slotted Shelves (SA2) can be specified. The Slotted Shelf is pierced with openings that accept Divider Plates (LFA10, 24, 32)

Three **handle styles** are available: District handle pull, rectangular handle pull and a distinctive full pull which makes opening and closing effortless from any position

District Handle Pull • Not available on metal fronts

- Platinum finish
- **Rectangular Handle Pull** Platinum finish
 - Full Pull • Available on metal fronts only
 - Finished to match drawer front

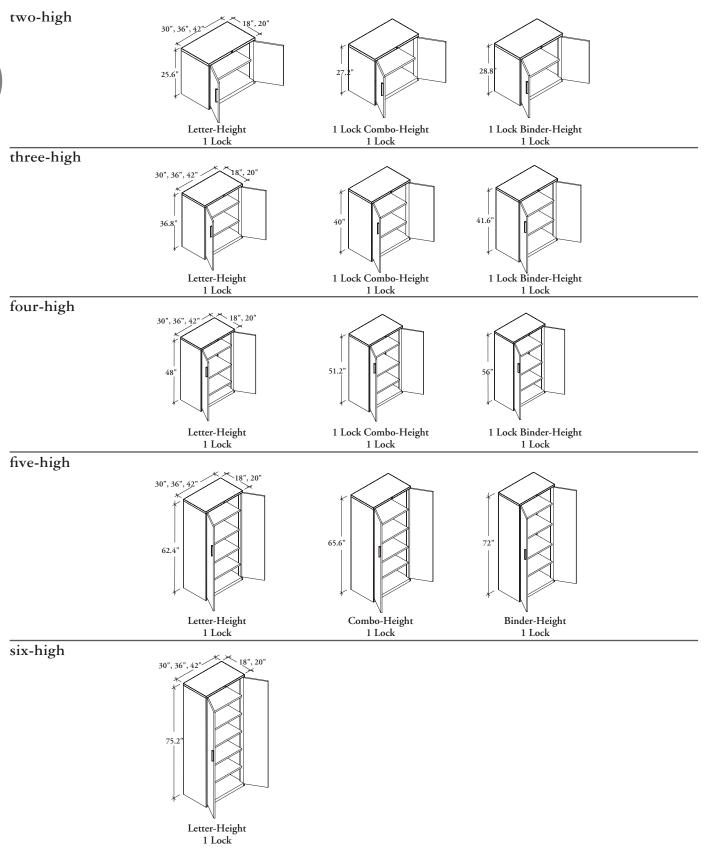

Max Store Trays (SA6) create additional cubbyholes to a maximum of 24 trays per unit, creating 27 cubbyholes

suspended personal cubby basics

The Ledger Suspended Personal Cubby mounts to height-adjustable tables.

Suspended Personal Cubby (LSPC)

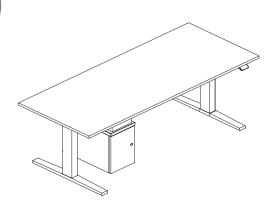

- A Suspended Cubby which mounts to height-adjustable tables and cater to personal storage requirements
- Depth: 20"
- Width: 10"
- Left and right handed

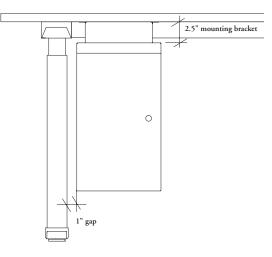

planning with the suspended personal cubby and navigate

The following describes the planning capacities for the Personal Suspended Cubby used with height adjustable tables.

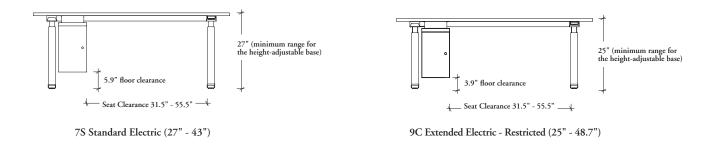

freestanding tables

- The Suspended Personal Cubby (LSPC) is installed on the inside of a height adjustable leg
- There is a 1" gap between the leg and cubby
- The mounting bracket is 2.5"h

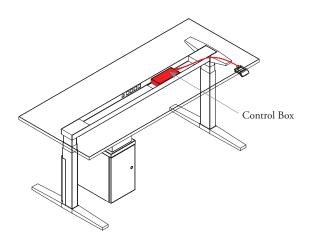

- The suspended personal cubby can be used with the following mechanisms - 7S Standard Electric (27" to 43" range)
 - 9C Extended Electric - Restricted (25" - 48".7")
- Worksurface widths must be 58" to 82"w. to allow a 31.5" 55.5" seat clearance

planning with the suspended personal cubby and navigate (continued)

- The cubby can be installed in two locations
- Opposite the switch
- On the same side of the switch if the cable is tucked in along the lg and the channel and support bracket are installed after the switch
- For worksurfaces 48" to 64" wide, the cubby must be installed on the opposite side of the control cover box

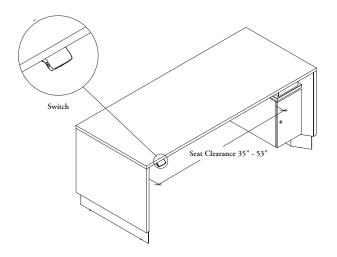

• For base frames with 23" depth, the rectangular cut out cannot be on the same side as the Suspended Personal Cubby (LSPC)

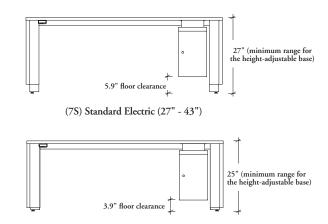

gable leg tables

- The suspended personal cubby can be used with the following mechanisms
- 7S Standard Electric (27" to 43" range)
- 9C Extended Electric Restricted (25" 48".7")
- \bullet Can be used on worksurfaces 58" 76"w with a seat clearance of 35" 53"w
- The cubby must be mounted opposite to the switch

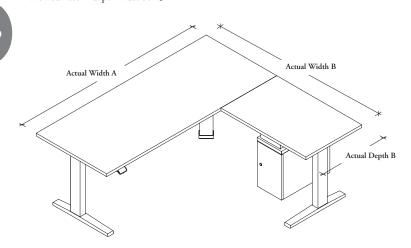

(9C) Extended Electric - Restricted (25" - 48.7")

39

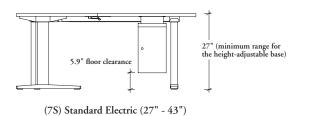

planning with the suspended personal cubby and navigate (continued)

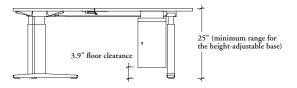

extended corner tables

- The suspended personal cubby can be used with the following mechanisms (7S) Standard Electric (27" to 43" range)
- (9C) Extended Electric (27 to 45 range) - (9C) Extended Electric - Restricted (25" - 48".7")
- Worksurface widths A and B must be 58" to 70"w
- Worksurface B depth must be 23"

• The suspended cubby (LSPC) must be installed opposite to the switch, on the return surface

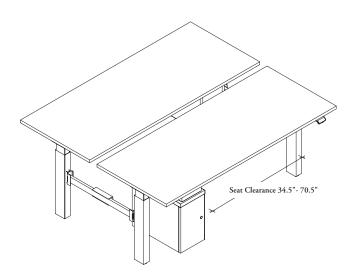

(9C) Extended Electric - Restricted (25" - 48.7")

planning with the suspended personal cubby and navigate (continued)

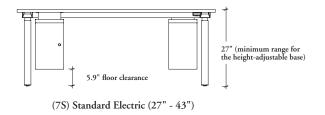

frames

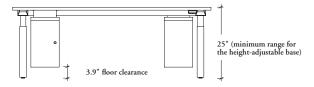

- The suspended personal cubby can be used with the following mechanisms
- (7S) Standard Electric (27" to 43" range) (9C) Extended Electric Restricted (25" 48".7")
- Worksurface widths must be 58" to 94"w to allow a 34.5" 70.5" seat clearance

• The cubby must be installed opposite the switch and E-Chain (HNBEEC)

• For worksurfaces 58"w the cubby must be installed on the opposite side of the control cover box

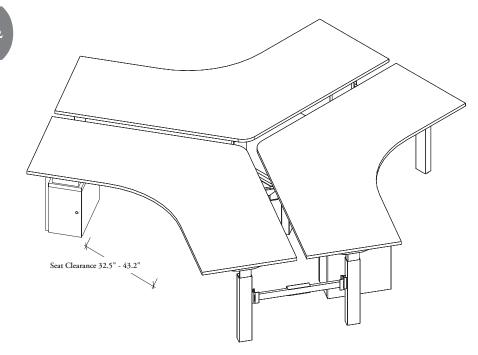

(9C) Extended Electric - Restricted (25" - 48.7")

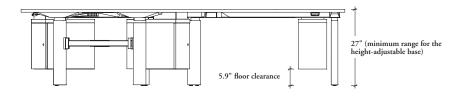

planning with the suspended personal cubby and navigate (continued)

120 frames

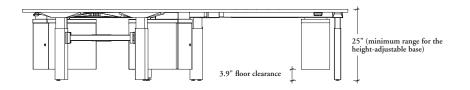

- The suspended personal cubby can be used with the following mechanisms (75) of 1 + 1 [27] (27) (27]
- (7S) Standard Electric (27" to 43" range) - (9C) Extended Electric - Restricted (25" - 48".7")
- Worksurface widths must be 52" to 58"w to allow a 32.5" 43.2" seat clearance

- The cubby must be installed opposite the switch and E-Chain (HNBEEC)
- For worksurfaces 58"w the cubby must be installed on the opposite side of the control cover box

(7S) Standard Electric (27" - 43")

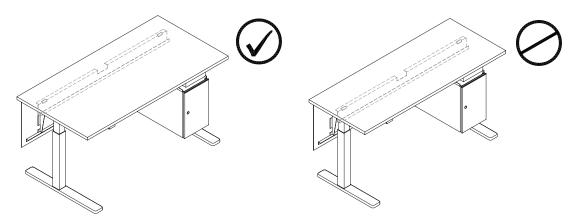

(9C) Extended Electric - Restricted (25" - 48.7")

planning with the suspended personal cubby and hiSpace

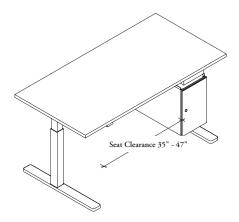

The following describes the planning capacities for the Personal Suspended Cubby used with height adjustable tables.

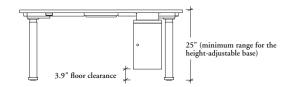

• When specifying a suspended personal cubby and modesty panel or wire tray, the worksurface must be 30"d

height-adjustable tables

- The suspended personal cubby can be used with (9C) Extended Electric Restricted (25" 48".7") base mechanism
- Worksurface widths must be 60" to 72"w to allow a 35" 47" seat clearance

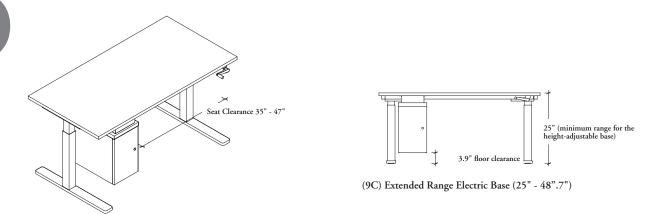

(9C) Extended Range Electric Base (25" - 48".7")

planning with the suspended personal cubby and hiSpace (continued)

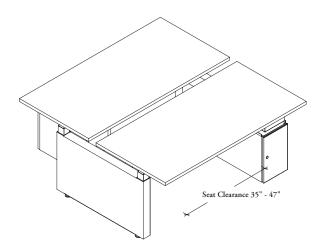

height-adjustable tables with upStage

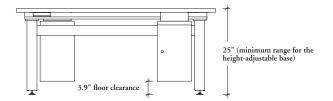

- The suspended personal cubby can be used with (9C) Extended Electric Restricted (25" 48".7") base mechanism
- Worksurface widths must be 60" to 72"w to allow a 35" 47" seat clearance
- The rectangular cut out **cannot** be specified on the same side with suspended cubby.

frames

- The suspended personal cubby can be used with (9C) Extended Electric Restricted (25" 48".7") base mechanism
- Worksurface widths must be 60" to 72"w to allow a 35" 47" seat clearance
- The cubby must be installed opposite the switch

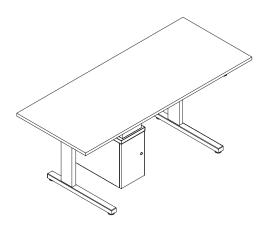

(9C) Extended Range Electric Base (25" - 48".7")

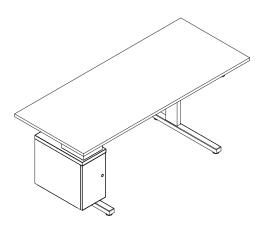

planning with the suspended personal cubby and complements tables

The following describes the planning capacities for the Personal Suspended Cubby used with height adjustable tables.

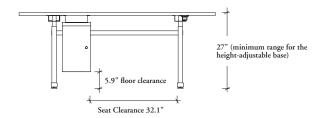

- The suspended personal cubby can be used with (7S) Standard Range Electric (27" 43")base mechanism
- Worksurface widths must be 60" to 72"
- Depth must be 30"
- The cubby must be installed opposite the switch
- The cubby can be installed in two locations
- Inside of the leg
- Outside of the leg if the worksurface width is 72"

The Suspended Personal Cubby (LSPC) installed inside the legs.

The Suspended Personal Cubby (LSPC) installed outside the legs.

(7S) Standard Electric (27" - 43")

45

pedestal basics

Ledger offers a wide range of pedestal options which integrate aesthetically with all systems furniture.

- · Pedestals are available in multiple drawer combinations and heights to allow for maximum flexibility
- Different Teknion systems products accommodate different heights of storage below the worksurface. See height restrictions in this section
- Pedestal file drawers accommodate both imperial and A4 filing sizes
- Locks can be keyed alike to match other lockable storage components or keyed randomly to provide a dedicated lock.
- Counterweights are required for all Pedestals not located directly under a worksurface. If Pedestals are supporting a worksurface in a freestanding application, counterweights are required
- All configurations of Pedestal (LPFN) on Casters fit under the regular 29" high worksurface

- Accommodate storage of work tools, files and personal items
- By adjusting the A4/letter conversion rails, the file drawer can accommodate imperial-size or A4 hanging files
- Drawer interiors extend the full interior depth of the pedestal except for 28" deep Box (B), Small Box (S) and Pencil Box (P). For these drawer sizes the interior drawer depth is actually 22"

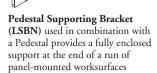

Pedestal (LPFN) and Stretch Pedestal (LPS)

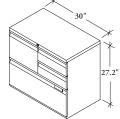

Has similar configuration as Pedestal (LPFN) for height consistency. The product is designed to have datum lines match

Also available but not shown above:

Combo Pedestal (LPC)

Available with a full file drawer on bottom and two file drawers on top or full file drawer on bottom and one file and two box drawers on top

pedestal storage options

The following describes options for handles, drawers and drawer capacities.

handle options

Three **handle styles** are available: District handle pull, Rectangular handle pull and a distinctive full pull which makes opening and closing effortless from any position

District Handle Pull
Both Handles are available in Foundation and Mica.

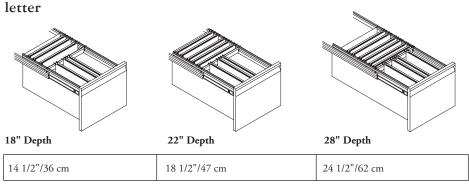

- Available on metal fronts
 only
- Finished to match drawer front

drawer options

- Pedestal Accessories (LPA)
- Hanging File Bar (LPAS) permits hanging letter- or legalsize files in the file drawer
- Drawer Divider (LPAD) sections the box file into separate compartments
- Pencil Tray (LPAT) organizes small work tools in any size drawer
- •Stationary Inserts (LPAK) divisional inserts for sorting paper. Come in packs of 8 (Depth 18"), 9 (Depth 22") or 12 (Depth 28")
- Stretch Pedestals accommodate Lateral File Accessories (LFA). See Lateral File Basics.

If Hanging File bar, Drawer Divider or Pencil tray is specified, drawer depth **cannot** be changed.

front-to-back arrangement

All measurements are in lineal inches and centimeters.

worksurface support options

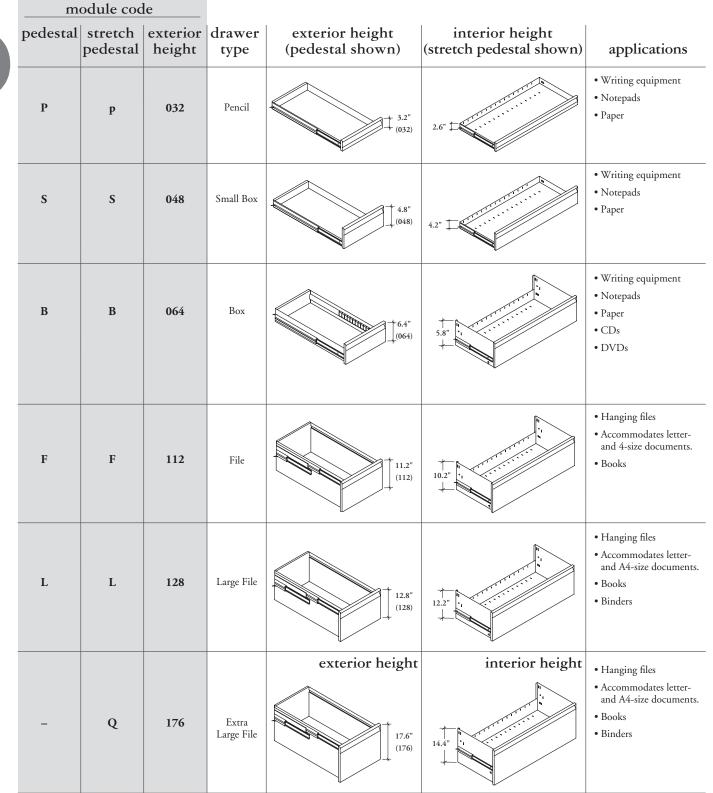

Ledger Pedestal (LPFN) can be used to work as worksurface support. If planned to support the worksurface, Pedestal storage (LPFN) can be specified with or without a counterweights. The 18" and 22" deep pedestal storages (LPFN) can be specified to have casters and counterweight.

planning with stretch pedestals & the fixed storage top cushions

Stretch Pedestals can be used under a worksurface, or can be placed outside of or between workstations for additional storage or seating. The Extra Large File Stretch Pedestal used with the Fixed Storage Top Cushion is ideal for this application.

Outside of District Storage

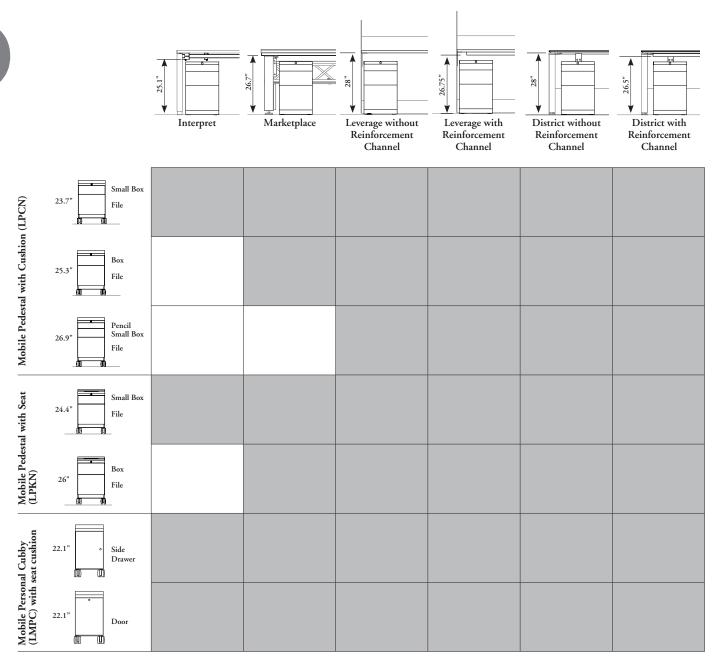

Outside of Leverage Storage

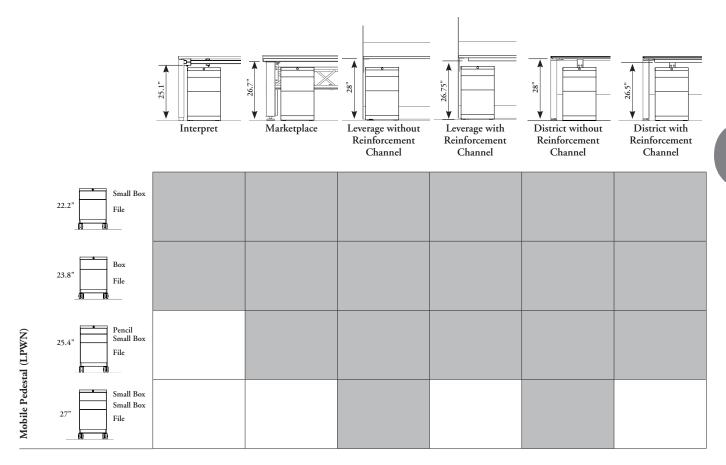

Shared between two Leverage Worksurfaces

planning with ledger pedestals

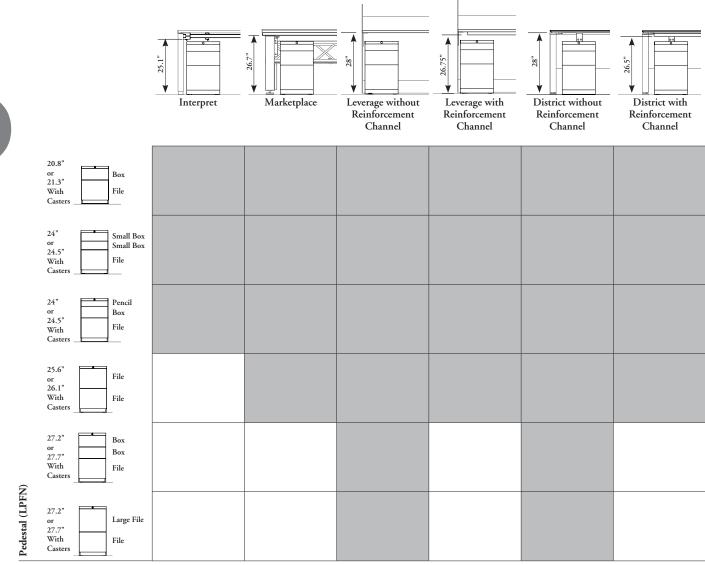

When planning with Ledger Pedestals below worksurfaces, careful attention should be given to the overall height of the pedestal. Each of Teknion's Systems and Benching products offers different underworksurface heights and District and Leverage require reinforcement channels after certain widths. Please refer to the support section of the District and Leverage application guide for reinforcement channel requirements. The following outlines Ledger Pedestal compatibility with Interpret, Marketplace, Leverage and District.

storage locker basics

Storage Lockers combine wardrobe, cabinet and storage and come complete with a coat rod and shelf to accommodate personal items.

- Available in a variety of configurations including full-height or half-height doors with drawers as well as lockers with front and side storage
- All drawer heights are based on a 1.6" module
- Cabinet walls are slotted in 1.6" height increments for shelf adjustment

 Individual locks are available for file drawers only and will be keyed randomly Three **handle styles** are available: District handle pull, rectangular handle pull and a distinctive full pull which makes opening and closing effortless from any position

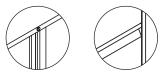

District Handle Pull • Not available on metal fronts

• Platinum finish

Rectangular Handle Pull Platinum finish

Full PullAvailable on metal fronts only

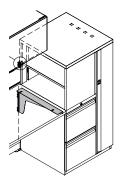

• Finished to match drawer/door front

Pedestal Accessories (LPA)

- Hanging File Bar (LPAB) permits hanging letter- or legal-size files in the file drawer
- Drawer Divider (LPAS) sections the box file into separate compartments
- Pencil Tray (LPAT) organizes small work tools in any size drawer
- Stationary Inserts (LPAK) divisional inserts for sorting paper. Come in packs of 8 (Depth 18"), 9 (Depth 22") or 12 (Depth 28")

If Hanging File bar, Drawer Divider or Pencil tray is specified, drawer depth **cannot** be changed.

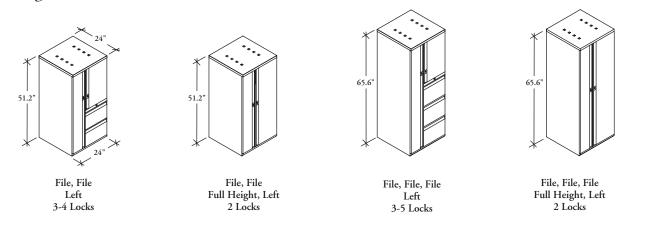

Supporting Locker Bracket (LLB) used in combination with Ledger Storage Lockers (LSLF, LSLS) 24" wide only provides a support at the end of a run of panel- mounted worksurfaces

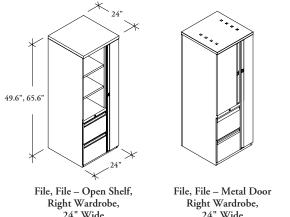

storage locker configurations & lock charts

Ledger Storage Lockers cater to diverse storage requirements. A variety of styles are available.

bookshelf basics

The Bookshelf (LBT) provides easily-accessible binder and book storage within the workstation or general office.

- Five shelf configurations are available: Two-High, Three-High, Four-High, Five-High and Six-High
- Each configuration is available in Letter-Height, Combination-Height and Binder-Heights to match other Ledger storage units
- Shelves are adjustable and can be moved in 1" increments

Two-High Letter-Height: 25.6" Combo-Height: 27.2" Binder-Height: 28.8"

Three-High Letter-Height: 36.8" Combo-Height: 40" Binder-Height: 41.6"

Four-High Letter-Height: 48" Combo-Height: 51.2" Binder-Height: 56"

Six-High Letter-Height: 75.2"

ledger finishes

Ledger storage units are available in a variety of finish colors. Codes must be included in the order.

- · Case and metal fronts are available in Satin, Satin Mica, Textured and Textured Mica colors
- Seamless fronts are available in a selection of Group 1 and Group 2 colors and Flintwood fronts are available in a selection of Standard and Cathedral Flintwood stains
- Drawer accessories are Grey and casters are Black
- The District and Rectangular handle pulls have a Platinum finish and Full Pull will be finished to match the drawer front
- Mobile Pedestal with Seat is available in Teknion's Standard Seating fabrics and leather, rubber pull is Black

filing & storage price & application guide – September 28, 2020

introduction

Ledger Plus is a select group of storage elements that can be planned as single units or together in a variety of configurations. They bring further utility to what is typically used for filing and personal belongings. It does more with less in common areas and in between spaces.

- Ledger Plus Cabinets are planned in five heights, Lounge, Underworksurface, Worksurface, Counter-Height and Bar-Height
- Locker Towers are available up to 66" high
- Ledger Plus is based on a 1.6" filing module and can accommodate worksurfaces and cushions

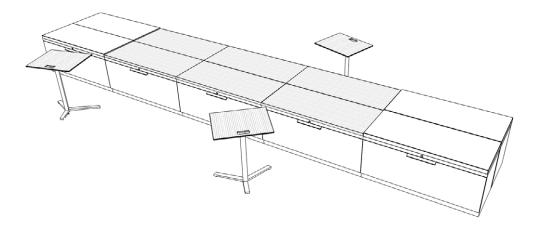

The following chart outlines the heights of Ledger Plus Drawer Cabinets.

Height	Actual			Nominal		
	Without Worksurface	With Worksurface	With Cushion	Without Worksurface	With Worksurface	With Cushion
Lounge	17.6"	18.6"	19.1"	18"	19"	19.5"
Undersurface	20.8"	21.8"	22.3"	21"	22"	22.5"
Worksurface	27.2"	28.2"	n/a	27"	28"	n/a
Counter	35.2"	36.2"	n/a	35"	36"	n/a
Bar	40"	41"	n/a	40"	41"	n/a
Tall	48"	49"	n/a	48"	49"	n/a

The following layouts demonstrate a variety of applications that can be achieved with Ledger Plus including seating, stand up meeting places and casual sit-down meeting places. Ledger Plus provides the ability to create a "residential" look and feel through the blending of metal, wood and fabric cushions.

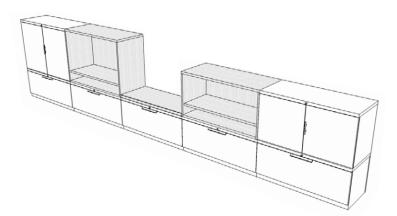

low linear runs

17.6" high Lounge height storage placed back to back is ideal for providing additional seating. Cushions or wood toppers can be added individually or combined to create unique layouts.

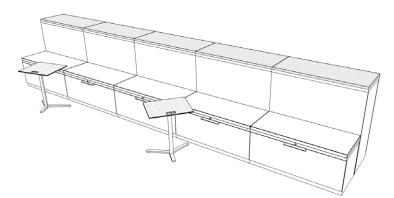

low linear runs with metal or wood add-on storage

Stackers are available in various heights in wood and metal configurations to allow for additional storage. When used with the 17.6" high Lounge height low storage 40" and 48" high datum heights are achieved. The wood and metal options share similar depths and heights so can be combined in the same configuration.

seating and stand up meetings

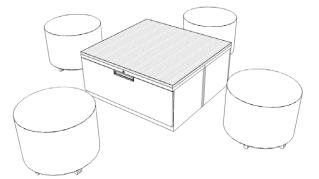

17.6" high Lounge height storage cabinets with cushions, and 40" high (Bar) height cabinets or lockers can be combined to provide both seating and standing height meeting spaces.

worksurface clusters

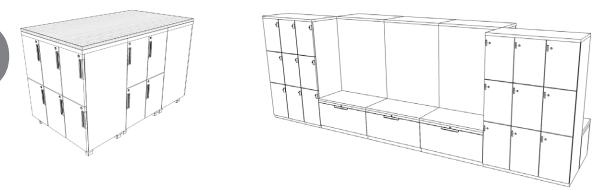

Storage tops can be added to low runs or standing height cabinets to provide alternative heights for working.

locker clusters

A variety of locker sizes and combinations are available and can be combined with low linear seating, or storage tops. Heights are available from 35.2" to 65.6" high.

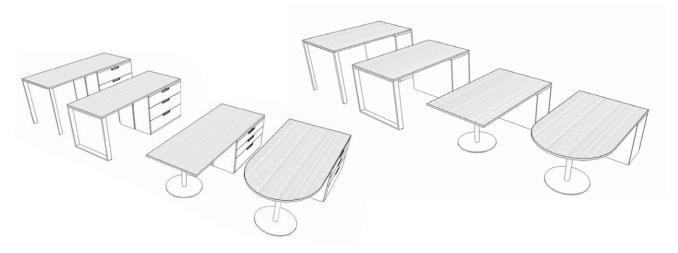

cantilevered worksurfaces

Cantilevered worksurfaces extend on one or both sides of storage cabinets, or cabinets with wood add-ons to provide additional meeting spaces.

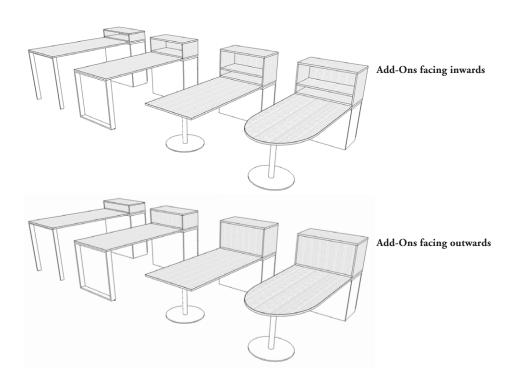

semi-supported worksurfaces

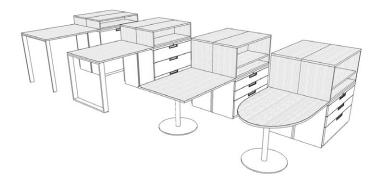

Semi-supported worksurfaces are available in a variety of shapes and leg styles and are used with single storage or back to back storage units to provide casual meeting spaces at 28.2", 36.2" and 41" high.

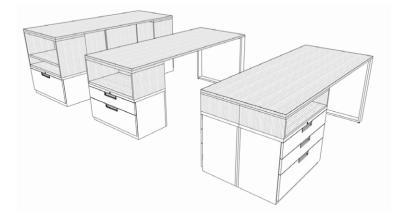

semi-supported worksurfaces with wood add-on storage

Wood Add-On storage and semi-supported worksurfaces can achieve a datum height of 40" and 48". They can be planned with single or back to back storage units.

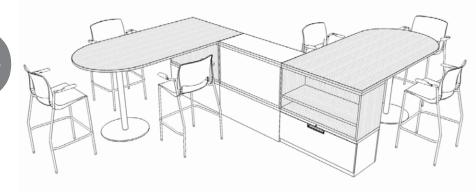

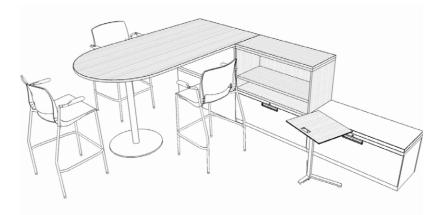

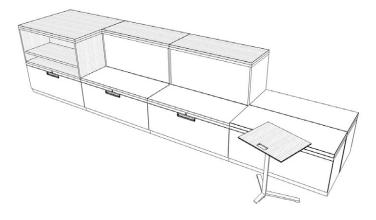

mixed configurations

Matching depths and heights between Ledger Plus units allows for an infinite number of storage and worksurface combinations.

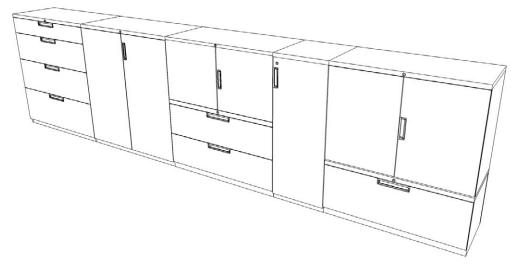

metal cabinet overview

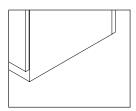

Ledger Plus provides storage solutions for managing information and resources and includes metal drawer, storage and combo cabinets, locker towers and add-on cabinets.

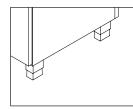

- All door fronts are an overlay style and are available in metal, Source Laminate and Flintwood
- Locks are available keyed random or keyed alike

Combination of Storage Cabinets, Locker Towers and Combo Towers shown

Two base styles are available on all cabinets, Standard and Elevated

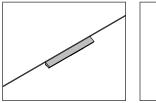

Standard • With levelers

- +1" leveling range
- With Interpret foot

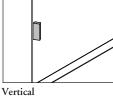

Elevated

- The leg is 3.2" high so the case height will be 3.2" less
- \bullet 7/8" up and 3⁄4" down leveling range

Two handle styles are available, District and Interpret.

orizoittai

Interpret

Horizontal

- Can be used on the Standard and Elevated Cabinet
- The Two-Tone color option is available in Foundation, Mica and Accent finish
- Available on wood or metal fronts
 - filing & storage price & application guide September 28, 2020

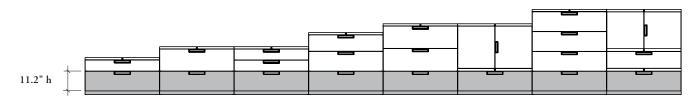

Vertical

- District
- Can be used on the Standard Cabinet only
- Available in Storm White, Espresso, Platinum, Latte and Very White
- Available on wood or metal fronts

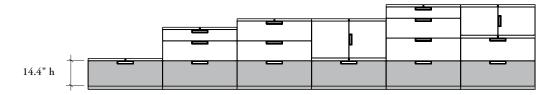

metal cabinet datum heights

The bottom drawer on Drawer Cabinets and Combo Cabinets align to maintain consistent datum lines. File drawers are available large (L) or Extra Large (XL), and vary in height depending on whether the cabinet is Standard or Elevated. The following outlines the datum lines that are achieved.

standard_Q (XL file)

metal cabinet drawer heights

The chart below aids in selecting the appropriate drawer for specific applications.

modu	ile code				
drawer type	exterior height	interior height	drawer type	product illustration	applications
F	112 11.2"	10.6"	Fixed Front – Letter		 Drawer extends for easy access from any position Fits hanging files in letter and A4 sizes, books and magazines Accommodates front-to-back and side-to-side filing
L	128 12.8"	12.2"	Fixed Front – Binder		 Drawer extends for easy access from any position Fits binders and hanging files in letter and A4 sizes, books and magazines Does not accommodate metric-size binders
Q	144 14.4"	13.8"	Fixed Front		 Drawer extends for easy access from any position Fits binders and hanging files in letter and A4 sizes, books and magazines Accommodates metric-size binders
В	64 6.4"	5.8"	Fixed Front		 Drawer extends for easy access from any position Fits writing equipment office supplies, CDs, DVDs, personal items
B*	96 9.6"	9"	Fixed Front		 Drawer extends for easy access from any position Fits writing equipment office supplies, CDs, DVDs, personal items

application guides

metal drawer cabinet basics

Ledger Plus metal Drawer cabinets are offered in six pre-configured arrangements in both Standard and Elevated profiles.

- All drawer heights are based on a 1.6' module allowing the drawer configurations to be changed or retrofitted at any time
- Tall filing cabinets are not available elevated

Standard Profile

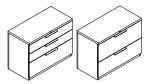

All cabinets are available 18" and 20" deep* and 24", 30", 36" and 42" wide. *Drawer Cabinets (PLDLS) in depth 20" have interior drawer depth of 18"

lounge height (17.6")

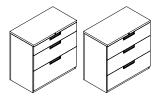

Lounge Height Drawer Cabinet (PLDLS) - Standard Extra Large File (Q) When freestanding application and 18" depth is specified, 42" is not available.

worksurface height (27.2")

Worksurface Height Drawer Cabinet (PLDWS) - Standard Box/Extra Large File (BQ) Box/Box/File (BBF) Large File/File (LF)

bar height (40")

Bar Height Drawer Cabinet (PLDBS) - Standard File/File/Extra Large File (FFQ) Large File/Large File/File (LLF)

under worksurface height (20.8")

Under Worksurface Drawer Cabinet (PLDUS) - Standard Box/File (BF)

counter height (35.2")

storage top basics

Ledger Plus Storage tops add extra functionality to the top of drawer cabinets. They have been sized precisely to fit on top of predetermined storage clusters and, therefore, provide the most ideal fit.

Storage Top for Clusters with End Units (PLSTY) Storage Depth: 18" and 20" Storage Width: 24", 30", 36", 42"

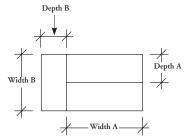

- Used on drawer cabinets, storage cabinets, combo cabinets and lockers when end units are used
- Mechanical fastening to the storage unit

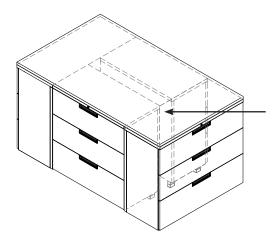

planning with storage tops

The following should be considered when planning with Ledger Plus Storage tops.

Ledger Plus storage tops are available in pre-configured sizes to accommodate common configurations. The following chart outlines the available standard configurations.

Application	Configuration	Depth A	Depth B	Width A	Width B	Depth of Top	Width of Top
(S) Single-Sided	(A) 2 units side by side	18, 20	n/a	24, 30, 36, 42	n/a	18, 20	48, 60, 72, 84
	(B) 3 units side by side	18, 20	n/a	24, 30	n/a	18, 20	72, 90
(D) Double-Sided	(C) 2 back to back units	18, 20	n/a	24, 30, 36, 42	n/a	36, 40	24, 30, 36, 42
	(D) back to back cluster of 4 units	18, 20	n/a	24, 30, 36, 42	n/a	36, 40	48, 60, 72, 84
	(E) back to back cluster of 6 units	18, 20	n/a	24, 30	n/a	36, 40	72, 90
	(F) 2 back to back units with 2 end units	18, 20	18 20	24, 30, 36, 42 24, 30, 36, 42	36, 42	36, 40	60, 66, 72, 78 64, 70, 76, 82
	(G) cluster of 4 back to back units with 2 end units	18, 20	18 20	24, 30 24	36, 42	36, 40	84, 96, 88
	(J) 2 back to back units with 1 end unit	18	18 20	24, 30, 36, 42 24, 30, 36, 42	36	36	42, 48, 54, 60 44, 50, 56, 62
	(H) cluster of 4 back to back units with 1 end unit	18	18 20	24, 30, 36 24, 30, 38	36	36	66, 78, 90 68, 80, 92

Please note that top sizes are nominal, the actual size is intended to slightly overlap the filing. It is recommended that only one top be used on each filing configuration. For non standard configurations, please contact the *Teknion Specials department* to request a single top.

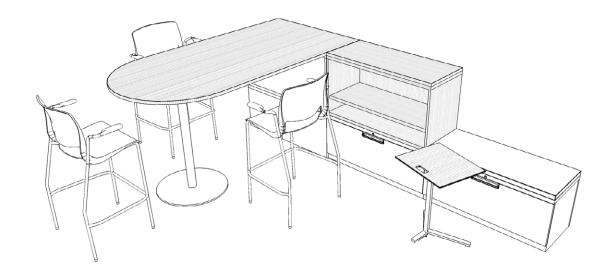

When planning with 42" wide storage ends on both sides it is possible to create an internal gap in the center to allow for power access.

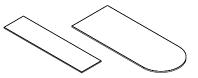

86

worksurface basics

Ledger Plus Semi-supported Worksurfaces with legs used in combination with Ledger Plus Storage provides casual areas for collaboration.

- · Ledger Plus worksurfaces are used on drawer cabinets, storage cabinets, combo cabinets and lockers
- Two shapes are available, Rectangular and Bullet
- The surfaces are mechanically fastened to the storage unit
- Reinforcement channels are ordered separately

Semi-supported with Legs (PLSW) Depth: 24", 30", 36" 40", 42" Width: 60", 66", 72", 78", 84", 90", 96"

Worksurface Reinforcement Channel (PLRC) Width: 42", 48", 54" 60", 66", 72"

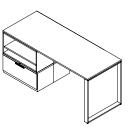

Three leg styles are available to support Ledger Plus worksurfaces.

District Leg (PLSD) Height: 27.2", 35.2", 40" Depth: 24", 30", 36" 40", 42"

Available in Foundation, Mica, Accent and Clear Anodized finish.

• Cluster Leveling range of +1

Loop Leg (PLSL) Height: 27.2", 35.2", 40" Depth: 24", 30", 36" 40", 42"

Available in Foundation, Mica, Accent and Clear Anodized finish.

• Cluster Leveling range of +1

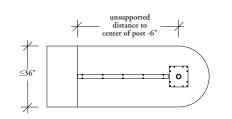

Pedestal Leg (PLSP) Height: 27.2", 35.2", 40" Depth: 24", 30", 36" 40", 42"

Available in Foundation, Mica and Accent finish.

- Only available for surfaces over 36" deep
- Cluster Leveling range of +1

planning with worksurfaces

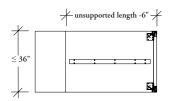

The following should be considered when planning with Worksurfaces.

Pedestal Legs

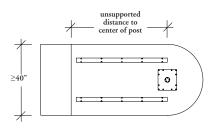

88

- If the unsupported span to the center of the pedestal leg is ≥54" and the depth of the surface is ≤36", then one reinforcement channel is required and must be mounted in the center of the surface
- The channel should be ordered at least 6" shorter than the unsupported span

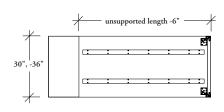

District and Loop Legs

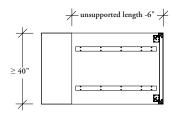

- If the unsupported span to the end of the worksurface is between 52" and 70" and the depth is ≤36", then one reinforcement channel is required and must be mounted in the center of the surface
- The channel should be ordered no more than 6" shorter than the unsupported span

- If the unsupported span to the center of the pedestal leg is ≥48" and the depth of the surface is ≥40", then two reinforcement channels are required and must be mounted on either side of the pedestal leg
- The channel should be ordered the same length as the unsupported span to The Center of The Pedestal Leg

- If the unsupported span to the end of the worksurface is ≥70" and the depth is between 30" and 36", then two reinforcement channels are required and must be mounted equally from both sides
- The channel should be ordered no more than 6" shorter than the unsupported span

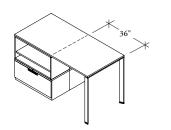

- If the unsupported span to the end of the worksurface is ≥52" and the depth is more than 40" then two reinforcement channels are required and must be mounted on equally from both sides
- The channel should be ordered no more than 6" shorter than the unsupported span

standard storage basics

Standard Storage products provide filing and miscellaneous storage beneath the worksurface is an economical alternative to more extensive storage offerings.

- Adjacent drawers align for clean, continual lines. All datum lines are consistent
- All Pedestals are dimensioned to fit beneath the worksurface for filing of documents and small objects. It can be placed anywhere below the worksurface, and is not dependent on panel widths for placement
- Box drawers extend 16" and file drawers extend 19"
- The Integral Pull allows for easy extension of the drawer
- Can be keyed alike or keyed randomly for a dedicated lock
- · Counterweights are required for all Pedestals and Stretch Pedestals that are not located under a worksurface
- If counterweights are specified for the 30" and 36" wide Stretch Pedestals, two counterweights will be installed and three counterweights for the 42" wide Stretch Pedestals will be installed
- Pedestal accessories (LPA) and Stretch Pedestal Accessories (LFA) are available and must be ordered separately

• All drawers fully extend with box drawers

extending 16" and file drawers extending 19"

- Available in three Foundation finishes only: Nevada (N), Granite (J), and Ebony (E)
- Keys have a Brushed Chrome finish
- Interiors are Grey

The width of On-Module Overhead Cabinets must be equal to the width of the panel from which it is being suspended

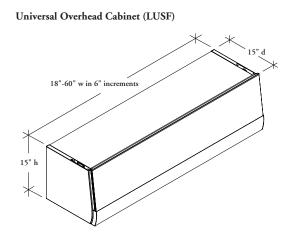

Overhead Cabinet with off-module mounting cannot be mounted within 1 1/2" of the end of a panel or at a panel-to-panel connector.

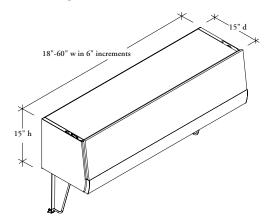

universal overhead basics

The Universal Overhead Cabinet mounts to Altos and all Panel Systems. The Universal Upmount Overhead Cabinet mounts to all Post and Beam and Panel Systems.

- Can be mounted on- or off-module depending on the system
- Equipped with an assisted opening mechanism. The door retracts outside/over the Overhead Cabinet
- Locks can be keyed alike to match other lockable storage components or keyed random to provide a dedicated lock

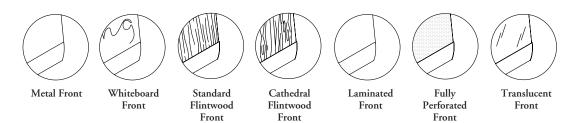

Universal Upmount Overhead Cabinet (LUSU)

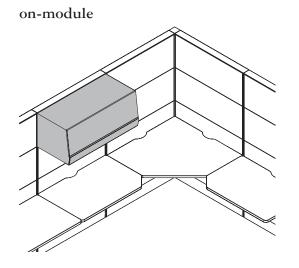

Finishes

- Offered with seven front finish styles
- Case is available in Satin, Satin Mica, Textured and Textured Mica colors
- Metal fronts are available in Satin, Satin Mica, Textured and Textured Mica colors
- Laminated fronts are available in Foundation Laminated colors
- Flintwood fronts are available in a selection of Flintwood stains
- Flintwood and Laminate doors are not available in 54" and 60" widths

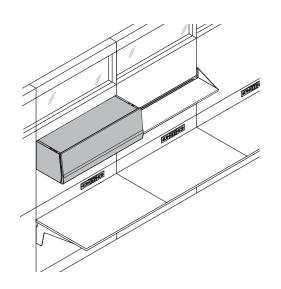

universal overhead applications

Universal Overhead Cabinets can be used on- or off-module in the following applications.

Leverage On-Module (shown)

- The 18" cabinet is not compatible with Leverage Panels
- T/O/S On and Off-Module available

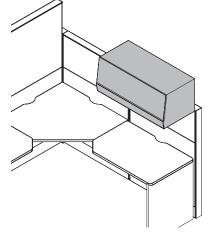

Altos On-Module

- The overhead is suspended by two brackets that hook into the Vertical Post Packages, so all applications must be onmodule and span the width of the wall module
- The 18" wide cabinet is not compatible with Altos walls

universal upmount overhead applications

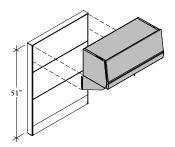

Universal Upmount Overhead Cabinets can be used on- or off-module in the following applications.

on-module

Leverage On-Module (shown)

- The 18" cabinet is not compatible with Leverage Panels
- T/O/S On and Off-Module available

The width of the on-module overhead cabinet must be equal to the width of the panel from which it is suspended

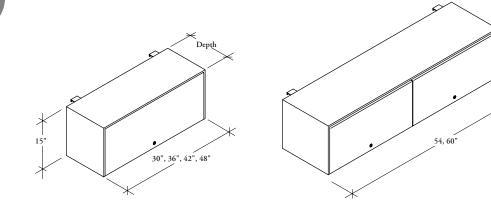

application guides

ledger flush front overhead cabinet basics

The Ledger Flush Front Overhead Cabinet is a lockable storage unit with flush fronts that mounts to Altos and panel systems.

- Can be mounted on- or off-module depending on the system
- Locks can be keyed alike to match other lockable storage components or keyed random to provide a dedicated lock
- The door retracts inside/within the overhead cabinet

Ledger Flush Front Overhead Cabinet (LSF)

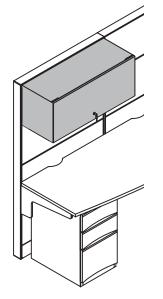

Finishes

- Case and metal fronts are available in a selection of Satin, Satin Mica, Textured and Textured Mica colors
- Flintwood fronts are available in a selection of Flintwood stains
- Seamless finish fronts are available in a selection of Group 1 and Group 2 colors

ledger flush front overhead cabinet applications

The Ledger Flush Front Overhead Cabinet can be used on- or off-module in the following applications.

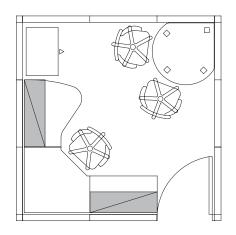

on-module

Leverage On-Module (shown)

- District On-Module available
- T/O/S On and Off-Module available.

• T/O/S Off-Module **cannot** be installed on a 30" high element

Altos On-Module The overhead is suspended by two brackets that hook into the Vertical Post Packages, so all applications must be on-module and span the width of the wall module

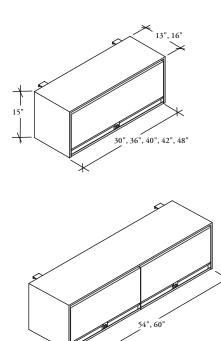

ledger full pull overhead cabinet basics

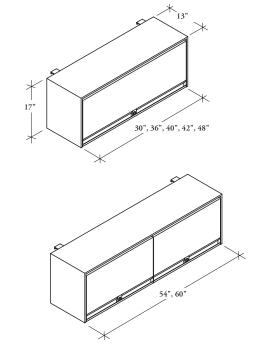

The Ledger Full Pull Overhead Cabinet is a lockable storage unit that mounts to Altos and panel systems.

- The A4 Cabinet is a metric-height unit
- Cabinets 54" and 60" wide have two doors, all other cabinets have one door
- Locks can be keyed alike to match other lockable storage components or keyed random to provide a dedicated lock
- The door retracts inside/within the overhead cabinet

Ledger Full Pull Overhead Cabinets (SSF)

Ledger Full Pull A4 Overhead Cabinets (SSFM)

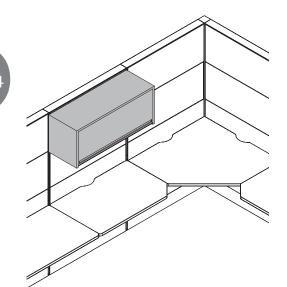

Finishes

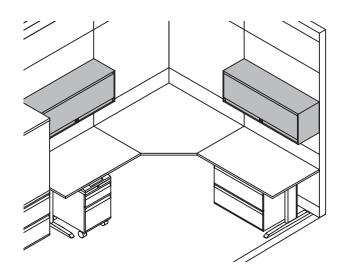

• Case and metal fronts are available in Foundation, Mica colors and Accent

ledger full pull overhead cabinet applications

The Ledger Full Pull Overhead Cabinet can be used on- or off-module in the following applications.

on-module

Leverage On-Module (shown) • District On-Module available T/O/S On-Module • T/O/S Off-Module available.

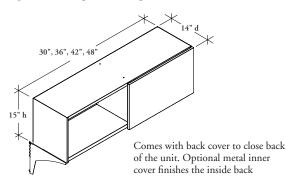

• T/O/S Off-Module **cannot** be installed on a 30" high element

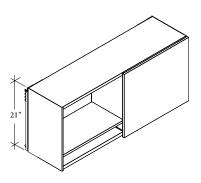

sliding door storage cabinet basics

The Sliding Door Storage Cabinet mounts to Leverage, T/O/S, District and Altos. The Upmount Sliding Door Storage Cabinet mounts to Leverage and T/O/S.

- Can be mounted on- or off-module depending on the system
- Comes with a center dividing gable and sliding door
- Locks can be keyed alike to match other lockable storage components or keyed random to provide a dedicated lock
- Lock is located on the underside of the cabinet
- Fits metric and imperial binders
- There is no handle so the unit is non-handed
- Inner covers are specified separate

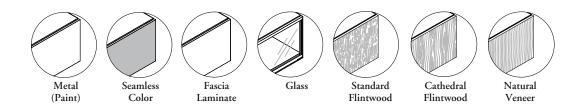

Upmount Sliding Door Storage Cabinet (LMSU)

Finishes

- Offered with seven front finish styles
- Case metal fronts and inner covers are available in Satin, Satin Mica, Textured and Textured Mica colors
- Seamless fronts are available in a selection of group 1 and 2 colors
- Laminate fronts are available in a selection of grade 1 and 2 colors
- Glass front is frosted
- Wood fronts are available in Flintwood and Natural Veneer

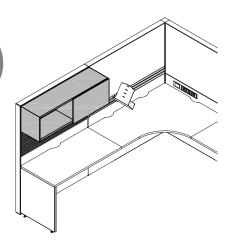

sliding door storage cabinet applications

Sliding Door Storage Overhead Cabinets can be used on- or off-module in the following applications.

on-module

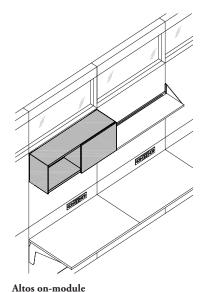

106

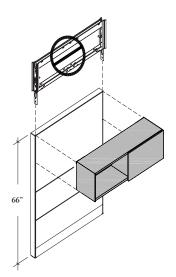

Leverage on-module (shown)

• District On-Module available

- T/O/S On and Off-Module available.
- T/O/S Off-Module, cabinet cannot span across two panels

The overhead is suspended by two brackets that hook into the Vertical Post Packages, so all applications must be on-module and span the width of the wall module

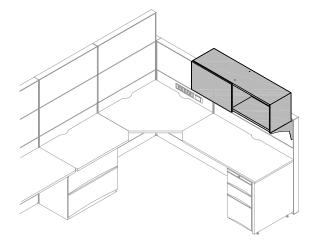

- An on-module cabinet can be mounted onto a 30' high element because the brackets mount over the top of the panel
- An on-module overhead can be mounted onto an add-on module but an additional add-on cannot be mounted above it
- The cabinet must mount from the top

upmount sliding door storage cabinet applications

Upmount Sliding Door Storage Cabinets can be used on- or off-module in the following applications.

on-module

Upmount Sliding Door Storage Cabinet (LMSU)

Leverage On-Module (shown)

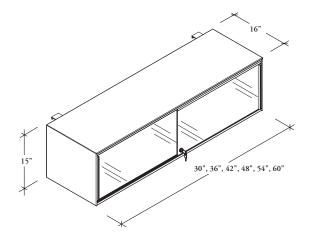

- T/O/S on- and off-module available
- The width of the on-module overhead cabinet must be equal to the width of the panel from which it is suspended

almanac overhead cabinet basics

The Almanac Overhead cabinet is a lockable storage unit, with sliding doors that mounts to Altos and panel systems.

- Provides an efficient method of placing frequently used items within arms reach
- Can be mounted on- or off-module depending on the system
- · Locks can be keyed alike to match other lockable storage components or keyed random to provide a dedicated lock

Almanac Overhead Cabinet (LSSF)

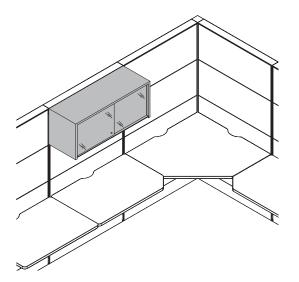

Finishes

- Available with metal, Flintwood, Glass and Translucent front finish styles
- Case and metal fronts are available in Satin, Satin Mica, Textured and Textured Mica colors
- Flintwood fronts are available in a selection of Flintwood stains
- Glass and Translucent fronts will have a frosted finish

almanac overhead cabinet applications

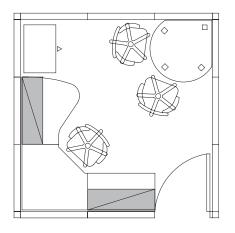

The Almanac Overhead cabinet can be used on- or off-module in the following applications.

on-module

Leverage On-Module (shown)

- T/O/S On and Off-Module available.
- T/O/S Off-Module **cannot** be installed on a 30" high element

Altos On-Module The overhead is suspended by two brackets that hook into the Vertical Post Packages, so all applications must be on-module and span the width of the wall module

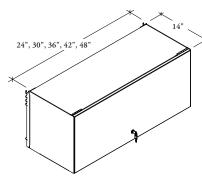

standard overhead cabinet basics

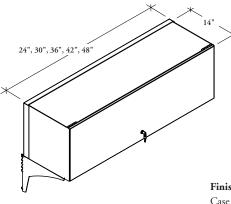

Standard Overhead Cabinets are lockable, on- or off-module storage units that mount to Altos, Lyft and panel systems.

- Standard storage is available with a lockable option
- The door retracts outside/over the cabinet
- Cannot accommodate Book Organizer (TBKGS)

108 Standard Overhead Cabinet (LCSF)

Standard Overhead Upmount Cabinet (LCSU)

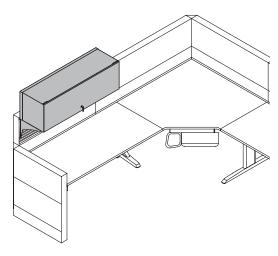

Finishes Case and front fronts are available in Nevada, Granite and Ebony colors
