

## cloud

Cloud is a series of benches based on minimalist design. The straight lines can be combined with curved elements to create free-flowing compositions. Cloud includes sofas, benches, a corner quarter-round and a unique table top.

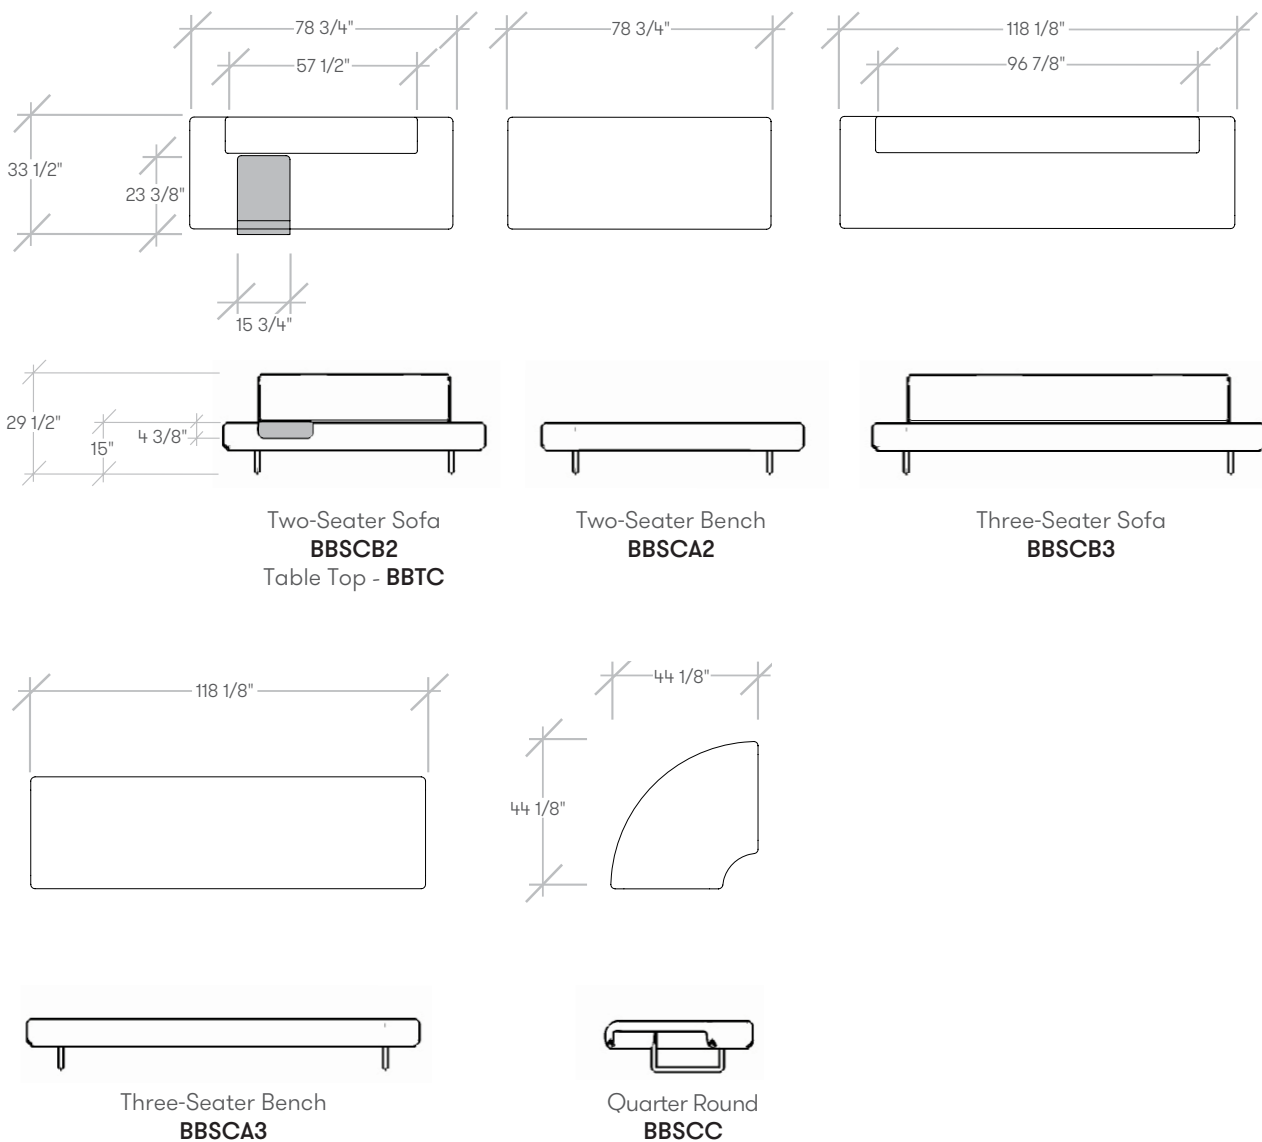

Designer: Naoto Fukasawa

- The polished metal tube cases convey a sense of lightness and mid-air suspension
- The backrest features a 'turned-up' section at the top that can also function as an armrest
- The quarter-round element combines benches of all sizes to create original landscapes
- The table top provides a table surface anywhere along the length of the sofa or bench

## dimensions

- Designed and tested for users up to 110kg/242 lbs
- Meets standard European NEN-16139 requirements

## COM/COL material requirement

Yardage is based on a non-patterned fabric. Additional yardage may be required for pattern repeats and the matching required. Leather yield may be affected by the quality of the COL. However, variance in the size of the hides will not affect the yield.
