MAXIMUM COMFORT,
AFFORDABLE PRICE

t-3™ is a comfortable, high-quality chair at a competitive price. Providing simple, yet effective ergonomic seating, t-3 features synchro-tilt functionality for task intensive use. While reclining, a synchronous seat-to-back action allows the feet to remain flat on the floor and the line of sight to remain constant—

increasing comfort, reducing fatigue and promoting blood flow. The back height adjusts easily for added support, while a tilt tension adjustment is within close reach from the seated position. Arms adjust in width and height to support varied working postures.
