Phenomenology Collection

09 — 2018

Phenomenology Collection

Light defines the way we observe space and affects our perception of shape and form. Luum's September collection, *Phenomenology*, is inspired by the nuanced and striking phenomena of light, and how it transforms built environments. Lustrous surfaces and patterns emerge and shift to alter and augment our experience within our environment dependent on our vantage point.

The Phenomenology Collection by Suzanne Tick presents five new fabrics that interact dynamically with light through exploration of color, materiality and pattern designed to illusory effect. Each fabric performs as a unique design tool to enhance interior spaces and integrate to create intriguing and elegant experiences.

These new qualities come to life in dynamic and engaging color palettes that complement one another across styles. The inherently durable material constructions suit different surfaces to amplify or transform their effect; their full color stories also serve to satisfy any need, to create narratives within any interior.

Collection: Phenomenology
Designer: Suzanne Tick

Use: Upholstery

Sophistication isn't fixed—it's in flux. *Ephemera* features a highly durable epingle pile that reveals or obscures the subtle underlying ikat-inspired jacquard depending on the angle at which it is seen.

1 — Ephemera

Content: 100% Polyester
Number of Colorways: 12
(shown on chair, directly left): Solar Flare
(shown on reverse side, left to right): Phosphene, Night Glow
Abrasion: 100,000 double rubs
Special Characteristics: Heavy Metal Free

Age-old ikat techniques are reinterpreted through complex construction, each of the reflective and rich colors imparts a refined air to any space. In addition to its optical effect, this fabric was designed for bleach-cleanability and washability, making it appropriate for merging hospitality and workplace applications.

3. Meta Texture

5. Fleck Forge

1. Ephemera

2 — Velvet Underground

This dramatic recolor of a high-performance classic polyester velvet presents an array of engaging colors in an updated palette. Inspired by nostalgia for luxe interiors, luminous *Velvet Underground* absorbs and reflects light within its tight, low pile to add opulent depth to interiors and furniture. Despite its luxurious effect, this updated velvet is durable and commercially launderable.

Use: Upholstery

Content: 100% Polyester

Number of Colorways: 16

(shown here, top to bottom): Halcyon (*Ephemera*), Full Phase (*Velvet Underground*), Garden Level (*Velvet Underground*), Green Flash (*Ephemera*), Green Room (*Velvet Underground*), Ashfall (*Ephemera*), Metal Machine (*Velvet Underground*), Afterglow (*Ephemera*)

Abrasion: 100,000 double rubs

3 — Meta Texture

With *Meta Texture*, Luum presents a three-color printed polyurethane featuring a pattern that appears deeply textural, creating the illusion of dimension and shadow across surfaces. Inspired by classic tweeds, each layer of the print interacts to create the feeling of interwoven threads. The 13 colorways in this palette vary in depth and shade to provide an option to suit any mood. Engineered to be more durable to hydrolysis, *Meta Texture* is a bleach-cleanable polyurethane, well suited for healthcare applications.

Use: Upholstery

Content: 100% Polyurethane

Number of Colorways: 13

(shown here, left to right): Pale Shadow, Neutral Ground, Heat Wave, Grey Matter, Deep Space

Special Characteristics: Heavy Metal Free, Bleach Cleanable, Inherently Stain Repellent

4 — Backdrop

Backdrop is an inherently fire-retardant polyester cross-dye drapery with a dry hand and refined heathered texture. This opaque, wool-like quality can obscure or direct light as well as reflect the subtly mixed hues inherent to the polyester yarn composition. Pairing the comprehensive neutral palette of *Backdrop* with *Heather Tech* makes a holistic and enveloping design, creating conversation between surfaces.

Use: Drapery

Content: 100% Polyester

Number of Colorways: 8

(shown on reverse side): Blue Filter

Special Characteristics: Chemical Finish Free, Heavy Metal Free

5 — Fleck Forge

With a uniquely dry hand and matte finish, *Fleck Forge* is a quality that offers a new solution for wallcovering and wrapped wall applications. In lieu of lustrous vertical fabrics, *Fleck Forge* conveys a crisp and natural feeling grounded by its optical texture. This quality's finely woven structural pattern highlights yarn-dyed warp and weft interaction in a palette of crisp neutrals, while also creating seamless coverage and concealing any imperfections of underlying surfaces. The artisanal feel of this quality does not discount its bleach-cleanability and scrubability as a direct-glue wallcovering and wrapped wall fabric.

Use: Vertical

Content: 100% Polyolefin

Number of Colorways: 8

(shown here, top to bottom): Hammered, Patina, White Hot, Carbide, Cast Iron

Special Characteristics: Bleach Cleanable
