Pela by Luum

Pela is a Scandanavian full grain, semi-aniline dyed cowhide with a soft, supple hand. As with all leathers in our collection, Pela is chrome free. The large palette is filled with neutrals and accent colors ideal for integrating with today’s interior finishes. This leather has an inherent stain and liquid repellent which protects the leather, yet allows for the natural beauty of the full grain hide to show. It is well-suited for use on larger scale, collaborative space furniture as well as other products that require an inviting feel with the visible look of natural, high quality leather.

Like all natural products, leather may vary slightly in grain texture and color than shown in samples. Because each hide is unique, minor variations between hides can be expected. The beauty of our leather can be found in the softness, breathability and the natural visual beauty of real hides. Full Grain leather hides are sourced from the highest quality suppliers of natural upholstery leather. Full Grain leather is not corrected and is appreciated for its natural characteristics and grain pattern and supple hand that comes from minimal finishing.
