To be Completed by Teknion

Teknion TJ Number: Boulevard Number:

Notes

- Lead Times:
- Allow two (2) weeks for the TekniPaint approval process.
 - The TJ # will be provided once Teknion receives the actual sample approved by the customer.

- Limitations:
- This policy does not apply to textured finishes, it is only designed to match the color.
 - Only metal painted parts can be color matched (handles and plastic parts cannot be color matched). Please ensure you request a special that specifically calls out the standard color you want applied to the plastic part if it is not an option in the product code (example: Panel Gaskets).
NOTE: The default will be Ebony.
 - If ordering **multiple different colors** (TJ's) on a single product on a single order, please request specials for each product that is specific to the special color.
