

teknion variable

teknion

Variable® multi-purpose seating provides a common chair for varied applications, at a competitive price value. Designed by Alessandro Piretti, Variable is ideal for informal spaces where reconfiguration is encouraged, yet durability and style remain essential. Named for its multiple configurations, applications and ability to meet extensive needs, Variable extends beyond the corporate office to education, retail, hospitality, healthcare and recreational markets.

Variable features a one-piece molded shell construction with patented, dynamic flex-back designed to optimize comfort and support while encouraging movement. Flexible zones in the seat and backrest deliver optimized user comfort.

base
Chrome

As a stacking chair featuring wall-saver legs, Variable is available in a Guest chair and Stool option, suitable for multi-purpose applications. A robust tubular steel construction provides optimal durability in

spaces with frequent reconfiguration and handling, while a cut-out in the chair back aids in relocation and stacking. A dolly option maximizes storage capacity.

shell *Very White* upholstery *Marl Cloth, Sea Nomad* base *Polished Aluminum*

Variable Work chairs are ideal for casual, short-term applications when a full-featured task chair is not required. Used with Teknion's Livello™ height-adjustable

tables, the Work Chair delivers height-adjustability, a swivel mechanism and integrated back tilt, all the necessary functions suitable for touchdown spaces.

Variable HybrED chairs are compact, integrated desk and chair units. Designed to work with Thesis—Teknion’s line of learning/study tables and collaboration tools—Variable HybrED features a worksurface and storage tray ideal for learning and educational

environments. Casters encourage easy user mobility and classroom reconfiguration. An alternate height-adjustable model with 5-star base is ideal for corporate applications such as training and seminars.
