

teknion tek/n

teknion

value without compromise

Combining durability with elegance, tek/n™ is a clever and economical solution for the office environment. Featuring a linear and minimalist aesthetic, with carefully selected design options, tek/n complements any modern office space. As a small and efficient kit of parts that includes shared components, tek/n can be quickly and easily specified, without compromising function or aesthetics.

adaptable workspace

The workplace is rapidly becoming a destination for staff to connect, collaborate and be creative. It is important that space connects users seamlessly across multiple settings so they maximise productivity, have the opportunity to re-energise their mind and have access to the right people and information.

active workspace

An increasingly mobile workforce requires spaces to connect with others, carry out quick tasks and a base for when they are in the workplace. tek/n helps users touchdown, connect easily and store their belongings short term – promoting connectivity and productivity.

huddle space

Mentoring across organisations is key to unlocking the latent knowledge staff hold. Increased learning within organisations is underpinned by a workplace that provides opportunities to share information and ideas, enable learning, mentoring and the cross pollination of ideas with ease.

cultural hub
We are social beings! The lines between work and life are blurring more and more and the role of the workplace is changing to support this shift. tek/n provides spaces in the workplace for staff to connect and foster social networks. It is an important role in building a strong culture and sense of belonging for those who work there.

personal workspace
tek/n can support focus work whether in an enclosed or semi-open environment. It can be easily designed to provide a comfortable place to retreat, supported by storage, ergonomic comfort and technology.

build-up

Specifying tek/n is intentionally simple, with a method that is common across the range: Durable components and intelligent cable management support multiple reconfigurations, increasing planning flexibility and delivering a sustainable design solution long term.

Generate a variety of layouts from tek/n's selection of worksurface shapes, frame lengths and full-end or intermediate legs. To create levels of user privacy and to delineate personal space, tek/n includes a family of fabric and translucent mesh screens in both fixed and modular (moveable) form.

making it your own

tek/n has been designed and manufactured to be aligned with sustainable principles and with LEED® (Leadership in Energy and Environmental Design) guidelines that emphasise natural light and air circulation. tek/n is also GREENGUARD certified for indoor air quality, and is fully compliant to British standards as certified by FIRA in the UK.

A concise selection of finishes and options allows you to create a variety of looks without paying for features you don't need.
