Infinito + Masalla: Comfort
and endless applications
bring life to any space

Teknion Studio

QUI SURFACES AND SEATING The Qui collection defines and creates environments to encourage meaningful dialogue between a multitude of colleagues, and small-format, touch-point areas for quick interactions and exchanges.

Designed by Monica Armani, the Qui collection evolved from the idea of creating a family of products geared towards the theme of versatility to respond to the new and diverse needs of life and work in the contemporary world. Components are conceived for use with great balance and harmony, to create comfortable and cozy spaces that can be lived and interpreted in different ways.

Ottomans are available in three diameters: 25.5, 44.5 and 60 inches (65, 113 and 152cm). Optional USB power is available in the large ottoman to integrate technology in the collaborative environment. The table collection offers a wide range of occasional, casual work and traditional worktables. Available in six different wood finishes. Qui screens to divide environments and create private meeting spaces are available in heights of 53 and 59 inches (135 and 150cm).

COVER SEATING AND TABLE COLLECTION

The Cover seating and table collection plays in tune with any room, office or even home. With a high degree of upholstered comfort, Cover creates a light-scale environment perfect for quick meetings and conferencing, or a private nook for individual reflection. Designed by Claesson Koivisto Rune, Cover is inspired by how classically tailored garments are worn, in a layer-on-layer style. Coat on blazer. Blazer on waistcoat. Waistcoat on shirt.

Available in a Swivel Lounge Chair, 4-Leg Lounge Chair, Three-Seat Sofa and Ottoman. Contrasting textile applications allow for various configurations. Cover tables add a complementary workspace with an array of different styles. Coffee, Occasional, Work-Height and Bar-Height tables are available in various tabletop surfaces.

INFINITO LOUNGE SEATING + MASALLA TABLES

Infinito brings a traditional lounge look with a not-so-classic feel to any scenario. Designed with an intentional, rigid exterior and a soft, relaxed interior, Infinito brings the comforts of home to the office.

Infinito was designed by Toan Nguyen to be extremely versatile. Based on a square modularity, it creates many different configurations and combinations, involving all four directions and interacting with the surrounding architectural spaces. Each element can be used alone in the most traditional layouts, or be combined to create island environments.

The low height and compact proportions favor the conviviality and interaction of users, while privacy is obtained by taking advantage of the freedom of orientation in cluster arrangements.

The Masalla collection of occasional tables is based on the same concept of flexibility. It's up to the user to create with simple modules an almost unlimited number of personalized configurations, from the more minimal and monochrome to more colorful compositions.

FRACTALS & SPECTRUM LOUNGE SEATING

Power management capabilities have been introduced to Fractals and Spectrum Lounge Seating. USB and Standard outlet power enable users to plug in and recharge their mobile devices while accessing and sharing information.
