Multi Storm

Modular system of fixed seating on a beam. The elliptical beam in high strength electro-welded steel (mm 100 x 50) is offered in 3 **different lengths. Polypropylene seat shells with or without arms**, available in different standard colours, or **table tops** in high quality fiberboard covered with black scratch-resistant laminate can be secured to the support beam with die-cast fastening elements. On request a fire retardant shell (Class 2) is available. The high strength steel beam and the steel plate underneath the seat are powder coated in aluminum 68. A **floor anchoring system** is available on request and at an additional cost, to avoid accidental tipping of the structure. It is recommended that each beam be supported by two sets of leg supports arranged in a diagonal pattern.

table tops

HPL Laminate Table Tops. 117

HPL Laminate Tabletops

Full Knife Edge

Straight Trim

HPL tabletops are made by a sandwich of pure cellulose paper sheets, impregnated with thermosetting resins (High Pressure Laminate). Tops of excellent quality that combines aesthetics and performance: the tabletop is suitable for indoor and compatible for outdoor use, easy to clean thanks to the melamine and extremely compact with a thickness of 12 mm. The HPL in black colour has unique properties such as : thermal healing of superficial micro scratches, low light reflectivity thanks to extreme opacity, soft touch and anti-fingerprint feature. The HPL tops offer durability and resistance according to Standards EN 438 and fire resistance of class 2.

Hotel 135
Longway Collection 145
Terminus 153

Hotel

Modular systems system
Hotel is characterized by a strong expressive versatility conceived for fluid, linear and angular combinations. Comfortable pieces designed for enjoyable relaxation and conviviality. The collection includes two and three seater sofas plus an armchair; armrest options include an upholstered armrest in two sizes (7 and 14 cm) and a tablet arm for computer or other support. Joining tables between the seats or multifunctional tables complete the collection.
Base: metal frame in powder coated finish. Inner frame in Medium Density Fiberboard. Upholstery of different density non-deformable polyurethane foam covered with polyester padding. **Fire retardant foam meets California Bulletin 117A, EN1021-1/2 and Italian Class 1 IM Standards**.
Covers: fabric, faux-leather or C.O.M (preferably in solid colours)
Armrests: plywood and non-deformable foam
Tablet-arm: metal frame with top in laminate with MDF core available in natural oak or dark oak finish.

Right (DX) and Left (SX) end refer to position when seated.

All modules in terminal position must always be combined with upholstered armrests (IMBS/IMBL), table (IMT4) or tablet-arm (IMTDX/IMTSX).

Additional information is continued on the following page.

Longway ® Collection

Longway® is a modular system of narrow and wide ribbons of upholstered seating which undulate to form seats and armrests creating large central or terminal curved lines. Longway enhances an environments' quality with its particular play of shapes: the basic composition creates results never seen before, the alternation of curves and horizontal planes offers a marked visual impact. The broadness and versatility of the collection allows limitless compositions. **The collection includes single and modular elements**: benches, sofas and tables (Longway® tables) that forms islands, linear, angular benches, "C" or curved compositions and is aimed particularly to contract environments such as lobby, waiting room, shopping centers, airports, hotels, showrooms. Longway® is also suitable for semi-public spaces as stay, relax and informal meeting area. The large plan is suspended between floor armrests or on brushed stainless steel legs, powder coated or satin chromed steel legs. The internal frame is constructed of steel and upholstery of different densities of non-deformable polyurethane foam, lining of polyester padding. For IH/IW09, IH/IW10, IH/IW41, IH/IW42, IH/IW70, IH/IW72 and IH/IW73 the internal frame is in plywood. The modules IH11/IW11 and IH12/IW12 have the internal frame in steel and cold injected polyurethane foam. **Fire retardant inner padding meets "California Bulletin 117A" and "Italian Class 1 IM" Standards.** Special foam meeting 5852 British Standard is available on request. **Covers** are available in fabric, faux-leather or C.O.M. (preferably in solid colours). Possibility of upholstery using different materials or two colours of the same material with additional cost.

Shelving system. Conceived to fit any ambience as it may be widened or heightened to take up a whole wall or form a wall with single or double aspect to use at home or in public places. **The bookcase may be fastened to the wall or it can be a standalone unit** (with metal base and adjustable feet). Powder coated extruded aluminium frame available in two heights; for the self standing version 140 and 208,5 cm and for the wall version 131 and 199,5 cm. **Lacquered MDF shelves** available in three different depths cm 20, 30, or 40 and three different widths cm 90, 120, or 150. Possibility to assemble shelves of different widths on the same frame. Die-casting supporting element to connect the shelves allows for the most complete expansion possible from the typological and distribution standpoint. Registered model.

WARNING: The finishing colors shown in these pages have to be considered approximate. Although printed with care, the literature color reproductions are subject to usual reservations and all colors may be changed at any time as per production necessities. Further to our own commercial names, when available we also indicated the closest possible NCS reference. Such references are provided to result the more universal and objective reference possible. Segis however declines any responsibility for slight color tone differences that may occur between the NCS color reference and the real product color, between different materials, different products and between different production batches.
