xpress program

what is xpress

Teknion's Xpress Program is designed to offer expedited shipment to a large base of teknion customers needing delivery in an abbreviated time frame. Products that are available through Teknion's Xpress Program will include this Xpress .

order information

Orders received before 12:00 pm eastern standard/eastern daylight savings time will be processed on that same day. Orders received after 12:00 pm eastern standard/eastern daylight savings time will be processed on the next business day.

Teknion's Xpress Program is not intended to replace our standard product lead time. For this reason, the following guidelines are in effect:

1. Quantities may be limited on individual items based on product availability.

XPRESS PRODUCT PROGRAM

XPRESS PRODUCT MAP	PROGRAM	ORDER DETAILS	NOTES
EXPANSION CASEGOODS	5-day Program*	Maximum \$75,000 list	See Product Map for details

ergonomic considerations

problems:

improperly chosen seating causes the following:

- Over bending causes lower back pain and fatigue, compresses internal organs. To resolve this problem see solution A) and B) below.
- Folding of Knees causes pain and compression in thighs. To resolve this problem see solution B) below.
- Extension of Arms causes neck and shoulder pain and headaches. To resolve this problem see solution C) below.
- Stooping of Head causes stiffness and pain in neck and shoulders. To resolve this problem see solutions D) and E) below.

solutions:

proper task seating allows for the following:

- A) Dynamic posture torso permitted to move freely reduces fatigue.
- B) Open Angle legs at least 90° from torso avoids back strain and compression of organs; calves at least 90° from thighs avoids compression in thighs.
- C) Arms at Side shoulders relaxed, arms not more than 15° out from body, hands extended just above desk or keyboard (with or without chair arms) avoid neck and shoulder strain.
- D) Head Erect avoids neck and shoulder strain.
- E) Position of source materials and Equipment: Height, Angle and Distance to account for:
 - Axis of Vision the maximum angle within which task objects can be seen without bending the neck
 - Focal Distance the distance required to see task objects
 - Reach the minimum distance required to reach task objects without altering the position of the upper body

ergonomic considerations (continued)

sitting is one of the hardest tasks for the human spine:

- Lying, reclining or standing allow better alignment and better flow of spinal fluid with less load on spinal joints than sitting, especially sitting improperly
- · It is extremely important to choose a suitable chair for the task and to adjust it properly for fit and use

sitting properly:

- · Occupy the entire seat area in order to take full advantage of the shape and curves of the seat and back
- · Adjust the seat and back so that the lumbar support area falls at the proper height, usually 6" to 10" above the seat
- Choose a seat height that allows head to stay erect or inclined slightly toward task and allows the arms and knees to rest at 90° or more with feet flat on the floor
- · Adjust the arms of the chair so that shoulders are relaxed with hands extended above the keyboard
- · Move often, both in the seat and around the work area
- Adjust your chair frequently according to current task

teknion seating

• In order to satisfy these requirements, Teknion Seating develops products to comply with ANSI/BIFMA requirements and offers a full range of sizes and mechanisms. For more information, see Seating Applications on the following pages

how to choose a chair: seating applications

Chair Type	Application	Typical Use Situation
dedicated task	Used for situations in which the individual performs long-term and/or repetitive operations, usually intensive keyboarding. May also be multi-user.	Data-processingSwitchboard/call centerComputer programmer

around synchro-tilt task chair & stool overview

The Around Chair, designed by Justus Kolberg, is a task chair and swivel stool collection that achieves two different looks with either an upholstered or mesh back, framed by a sleep sculptural form.

The concealed innovations optimize function and comfort

It offers a distinctive design expression and an opportunity to vary the aesthetic with the product line.

It is available with a mesh or fabric back and fully assembled or not fully assembled.

around synchro-tilt task chair & stool adjustment features & instructions

reclining tension override

While the weight-balancing mechanism automatically adjusts the tilt -tension to each user, an override grip is located below the seat on the right hand side to enable modification to suit user preference. To fine tune the tilt tension, simply rotate the grip forward to tighten and backwards to loosen.

tilt-lock and limiter

Turning the grip found under the left side of the seat backwards limits the back tilt travel and locks the back when it's rotated fully forward. Travel is limited on 4 positions with back lock in the upright position.

arm width, depth and pivot adjustment

To adjust the width of the 2D and 4D arms, grab the arm pad on both sides and push to the left or to the right to the desired position.

For the 4D arm option, simultaneously pivot the arm pad inward or outward to the desired angle. Arm pad depth can be controlled by grabbing the pad and sliding it forward or backward.

arm height-adjustment

To adjust the height-adjustable arm height, press the button below either arm rest to raise or lower it to the desired position.

seat height-adjustment

Seat height can be adjusted by pulling up on the lever below the seat on the right hand side. When this lever is pulled, the weight of the body will cause the seat to lower, and releasing it stops the seat at the desired height. Pulling up on the lever with no weight on the seat allows it to rise.

around synchro-tilt task chair & stool adjustment features & instructions (continued)

lumbar support height-adjustment (upholstered)

While sitting in the chair, put arms behind back to grab each individual lumbar control knob, slide each element up or down to match your physical requirements, even for asymmetrical positioning.

lumbar support height-adjustment (mesh)

While sitting in the chair, put arms behind back to grab the lumbar control knobs on both sides of lumbar element, slide lumbar up or down to match your physical requirements.

seat depth adjustment

To adjust the seat depth, pull outward on the lever below the seat on the left-hand side and simultaneously lift your weight from the seat while sliding the seat forward. Seat depth reduction is assisted by a spring-loaded motion. For either direction, release button to lock the seat in place.

footring adjustment (stool)

To raise or lower the stool's foot ring, turn the foot ring's knob counter-clockwise to release the foot ring and adjust the ring until you reach desired level. Turn the knob clockwise to lock in place.

essa chair overview

Essa is designed for Teknion by Pearson Lloyd and takes its name from the work essence.

It has a pared down scale and a pure sculptural shape that takes cues from a classic club chair.

It is a less technical task chair that combines elegance with ergonomics, providing just the right amount of support through curves and contours rather than multiple adjustment mechanisms.

It is available with a plastic or upholstery back.

planning with essa chair

The following can be considered when planning with the Essa chair.

workstations

The Essa chair with height-adjustable arms is suitable for use in any workstation settings.

enclaves

The Essa chair with no arms is ideal in enclaves and touchdown stations where the end user needs a space to get some quick work completed.

meeting and conference rooms

Essa's contemporary look with curves and comfort is suitable for short-term use in meeting and conference rooms. Fixed arms look consistent and professional.

essa adjustment features & instructions

seat height adjustment

To raise the chair, pull the lever outwards while lifting your weight from the seat until you reach the desired level, then release to lock in place. To lower the chair, pull the lever outwards and allow your weight to push the seat down until you reach the desired level, then release to lock in place.

back tilt adjustment

To adjust the angle of recline, move the lever forward to unlock the back and leave the chair in free flow mode. Recline to the desired position and move the lever rearward to lock the back in place.

arm height adjustment

To adjust the arm height, press the button in the upper part of the armrest to raise or lower it to the desired position. Release the button to lock in place.

NESP

Essa Chair, Upholstered Back with Plastic Shell, Dual Upholstery

FEATURES

- Standard pneumatic cylinder provide height-adjustment of 4"
- Weight-balanced Synchro-Tilt mechanism. Back recline up to 17°
- Back tilt can be locked in the upright position and 2 defined angles
- Curated finishes in Blackstone, Atrium White, and Clay
- Options for no arm, fixed arm, or height adjust arms
- Options for hard and soft casters or glides
- Hard casters are standard and well suited for soft flooring such as carpeting
- Soft casters are available for use on hard flooring, such as wood, concrete, or tile

NOTES

- When Blackstone (NF) Frame Finish is specified, defaults include Upholstered Back, 5-Point Base, Under Seat, Gas Cylinder, Arms, and Mechanism. Arm Pads, Buttons, and Mechanism Levers default to Dark Grey. Caster selection will be finished Ebony.
- When Atrium White (8D) Frame Finish is specified, defaults include Upholstered Back, 5-Point Base, Under Seat, Gas Cylinder, Arms, and Mechanism. Arm Pads, Buttons, and Mechanism Levers default to Lighter Beige. Caster selection will be finished Grey.
- When Clay (NH) Frame Finish is specified, defaults include Upholstered Back, 5-Point Base, Under Seat, Gas Cylinder, Arms, and Mechanism. Arm Pads, Buttons, and Mechanism Levers default to Lighter Beige. Caster selection will be finished Grey.
- Model ships fully assembled

COM [yards]	[sq. ft]	
0.75	12.5	

nuova contessa adjustment features & instructions

seat height-adjustment

Seat height can be adjusted by lifting the lever at the front of the right armrest. When this lever is lifted, the weight of the body will cause the seat to lower, and releasing it stops the seat at the desired height. Lifting the lever with no weight on the seat allows it to rise.

back tilt adjustment

When the chair back is at the desired angle, press the lever once to lock it in position. Pressing the lever again frees the chair back.

4D arm-width, depth, pivot and height-adjustment

To adjust the width of the 4D arms, grab the arm pad on both sides and push to the left or to the right to the desired position.

Simultaneously pivot the arm pad inward or outward to the desired angle. Arm pad depth can be controlled by grabbing the pad and sliding it forward or backward.

To adjust the arm height, press the button below either arm rest to raise or lower it to the desired position.

back tension adjustment

With an unlocked back setting, turn the dial found under the right side of the seat to adjust tension. This dial increases or reduces the resistance of the chair back while reclining. There are 1 - 4 settings, with 4 being the stiffest. Rotating this dial clockwise will reduce the tension and rotating the dial counterclockwise will increase the tension.

seat depth adjustment

Lifting the slide levers under both sides of the seat allows it to be adjusted forwards and backwards.

nuova contessa adjustment features & instructions (continued)

lumbar height-adjustment

The lumbar height-adjustment levers can be found on either side of the chair back frame.

The height of the lumbar support can be adjusted by sliding it up and down.

Lumbar responds uniquely to user's back curve depth and pressure.

Xpress

FEATURES

- Aluminum finish option, arm pads are Grey for durability
- Standard pneumatic cylinder provides height-adjustment of 4-1/2"
- Back-tilt can be locked in five positions or left free flow
- Seat depth adjustment of 2"
- Optional Lumbar Element has an apex height-adjustment of 2-1/4" and responds uniquely to user's back curve depth and pressure
- Frame and 5-Star Base are Aluminum
- Synchro-tilt 2.8:1 ratio and Tilt-Tension Control

NOTES

Headrest accessory must be installed on-site by customer.

Optional Headrest:

- Ebony Upholstered pad for Ebony frames
 Grey upholstered pad for Tess Silver and Very White plastic frames

Arm finish color corresponds with Body/Plastic finish color

For Very White with Polished Aluminum finish option, arm pads are Grey for durability

projek overview

Projek is smart, simple seating designed for today's workplace where shared workspaces are increasingly common.

Projek has a clean and unassuming look that allows for visual fit in varied office settings.

It offices a fresh take on finishes and aesthetics, with the ability to mix and match finishes for each part of the chair.

Projek is available in a task chair and a swivel stool.

Projek - Synchro-Tilt Task Chair (NPRT) (shown)

Seat	0.875	8.75	
Headrest	0.5	4.875	

projek adjustment features & instruction

seat height-adjustment

Seat height can be adjusted by pulling outward on the button below the seat on the right hand side. When this button pulled, the weight of the body will cause the seat to lower, and releasing it stops the seat at the desired height. Pulling outward on the button with no weight on the seat allows it to rise.

seat depth adjustment

To adjust the seat depth, pull outward on the button below the seat on the left-hand side and simultaneously lift your weight from the seat while sliding the seat forward or backward. Release button to lock the seat in place.

4D arm pivot adjustment

To pivot the arm cap, depress the auto safety lock button on the outside of the armrest and pivot 210° degrees to desired position. Release the button to lock in place. 180° arm rotation adjusts the arm depth.

arm height-adjustment

To adjust the arm height, press the button below either arm rest to raise or lower it to the desired position. Release the button to lock in place.

back tilt adjustment

Turning the grip found under the left side of the seat limits the back tilt travel and locks the back. Travel is limited on 3 positions with back lock in the upright position.

tilt tension adjustment

Fine tune the weight balanced tension by rotating the dial located below the seat center to suit personal preference.

projek adjustment features & instruction (continued)

lumbar height-adjustment

The lumbar height-adjustment knobs can be found on the back where the Inner Frame connects to the Lumbar Element.

The height of the lumbar support can be adjusted by sliding them up and down.

arm width adjustment

To adjust the width of each arm, turn the dial clockwise to release the arm lock. Slide the arm inward or outward to the desired position. Tighten the knob to lock the arm in place.

stool foot ring height

To raise or lower the stool's foot ring, turn the foot ring's knob counter clockwise to release the foot ring and adjust the ring until you reach the desired level. Turn the knob clockwise to lock in place.

Xpress

NPRT

Projek - Synchro-Tilt Task Chair

FEATURES

- Standard pneumatic cylinder provides height-adjustment of 4"
- Seat depth adjustment of 3" and Lumbar height-adjustment of 4"
- Back tilt can be locked in the upright position or left to free flow to 3 defined angle ranges
- Weight-balancing with a travel limiter synchro-tilt mechanism (3.5:1 tilt ratio) with unique preference control to tilt tension. Back recline angle range is 0° 20° and seat adjustment range angle is 0° 6.5°
- Ebony base is available in plastic only
- Hard casters are standard and are well suited for soft flooring such as carpeting
- Soft casters are available for use on hard flooring, such as wood, concrete or tile
- Headrest option is only available on Fully Assembled style

NOTES

Headrest's frame and fabric finishes default to Outer Frame Finish and Seat fabric finish.

2D and 4D Arm finish defaults to the Outer Frame Finish. For Very White the arm rest will be finished same as outer frame. Arm Rest Pad and Arm Support finished in Ebony. Fixed Arm is available in Ebony only.

Projek Chair is Dual Upholstery with Shrinx Mesh available on the back only and Teknion's Standard and Graded-In-Fabrics on seat. See Projek Finish Guide to define Plastic Outer Frame, Plastic Inner Frame and Lumbar Element finish details.

Not all configurations are available in the Xpress program.

Assembly Required (K) is further knocked-down and customer is responsible for assembly.

sabrina overview

Sabrina is an infinitely classic, yet modern, mesh back task chair.

Visually sculptural in frame and profile, Sabrina features an innovative back rung structure symbolizing the interconnection of comfort and design.

Sabrina's design incorporates a ring-shaped backrest for both fix and flex comfort and an inner ring provides support and backwards bending body's natural position, while the outer frame gently twists to either side for extra flexing.

sabrina adjustment features & instructions

reclining tension adjustment

Turning the grip found under the right side of the seat increases or reduces the resistance of the chair back while reclining and forward-tilt when specified. Rotate forward to tighten and backwards to loosen.

tilt lock and limiter

Turning the grip found under the left side of the seat locks and unlocks the recline and forwardtilt seat, when specified. Rotate forward to unlock and backward to lock. Unlock, completely recline and return to an upright to re-set.

arm height-adjustment

To adjust the height-adjustable arm height, press the button below either arm rest to raise or lower it to the desired position.

arm pad adjustment

While sitting in the chair, grab the height-adjustable arm pad from the top and slide it away from your body, along the length of the arm cap, or towards you to match your physical requirements. Once positioned, rotate the arm pad angle toward your body or away from you to match your physical requirements.

lumbar support

While sitting in the chair, put arms behind back to grab both sides of lumbar element, slide lumbar up or down to match your physical requirements.

seat depth adjustment

To adjust the seat depth, pull outward on the button below the seat on the left-hand side and simultaneously lift your weight from the seat while sliding the seat forward or backward. Release button to lock the seat in place.

sabrina adjustment features & instructions (continued)

seat height-adjustment

Seat height can be adjusted by pulling up on the lever below the seat on the right hand side. When this lever is pulled, the weight of the body will cause the seat to lower, and releasing it stops the seat at the desired height. Pulling up on the lever with no weight on the seat allows it to rise.

fit and flex back

While the center frame firmly supports the user sitting, the slide frame allows passive forking right and left as the user twists, or flexes torsionally.

stool foot ring height

To raise or lower the stool's foot ring, turn the foot ring's knob counter-clockwise to release the foot ring and adjust the ring until you reach desired level. Turn the knob clockwise to lock in place.

savera arm adjustment features & instructions

arm width adjustment

To adjust the arm width on Savera Synchro-Tilt, Multi-Tilt, Swivel-Tilt and Stool, push the lever down and slide the arm to the desired position. Push the lever up to lock the arm in place.

Savera XL arms are fixed prior to shipping in either standard or generous position.

arm height-adjustment

2D ARMS:

To adjust the arm height, lift the small button on the outside of either arm to raise or lower it to the desired position.

arm height-adjustment

4D ARMS:

To adjust the arm height, press the button located behind either arm to raise or lower it to the desired position. Release the button to lock in place.

4D arm pivot adjustment

To pivot the armrest, grasp the arm cap, rotate inward or outward and release at the desired position. Not available on Savera XL.

4D arm slider adjustment

To adjust the arm cap depth position, grasp the arm cap and firmly slide forward or backward to the desired position.

savera synchro-tilt adjustment features & instructions

back tilt adjustment

SYNCHRO-TILT TASK:

The tilt control paddle on the left locks the chair into four different positions.

To tilt the chair, sit in the chair and unlock the paddle by pushing it down, which will release the back to free flow. To lock in position, pull the paddle up and the back will lock in position.

tension control

SYNCHRO-TILT TASK:

The tension-adjustment knob for the Synchro-Tilt Task chair is located in the center below the front of the seat. Leaning back, decide if the resistance of the chair is comfortable. If it is too stiff, turn the tension adjustment knob counter-clockwise. If the chair back does not provide enough resistance, rotate the knob clockwise.

lumbar height-adjustment

The lumbar height-adjustment levers for Savera Synchro-Tilt, Multi-Tilt, Swivel-Tilt and Stool are found on both sides of the chair. Pull both levers up or down to the desired position.

Savera XL does not have lumbar height-adjustment.

seat height-adjustment

The seat height-adjustment paddle for Savera Synchro-Tilt, Swivel-Tilt and XL is located underneath the seat on the right side.

To raise the chair, lift the paddle up, while lifting your weight from the seat, until you reach the desired height, then release. To lower the chair, lift the paddle up, allowing your weight to push the seat down until you reach the desired height, then release.

The seat height-adjustment paddle for Savera Stool functions the same but the paddle is located on the left side.

seat depth adjustment

SWIVEL-TILT AND SYNCHRO-TILT-TASK:

The lever is located on the left-hand side, near the front. To adjust the seat depth, lift lever up. Simultaneously lift your weight from the seat while sliding the seat forward or backward. Release the lever to lock the seat in place.

See "Savera arm adjustment features and instructions" page at the beginning of this section for arm details

savera XL adjustment features & instructions

back tilt adjustment

SYNCHRO-TILT XL:

The back tilt adjustment paddle is located underneath the seat on the left side. The back tilt adjustment provides the ability to lock the back into four different positions or leave in free flow.

To tilt the chair, sit in the chair and unlock the paddle by pulling it up, which will release the back to free flow. To lock the desired position, push the paddle down and the back will lock.

tension control

SYNCHRO-TILT XL:

The tension-adjustment wheel is located underneath the seat on the right side.

Leaning back with the back tilt adjustment paddle in the up position, determine if the resistance of the chair is comfortable. If the resistance is too stiff, turn the tension adjustment wheel counterclockwise. If the chair back does not provide enough resistance, turn the wheel clockwise.

seat height-adjustment

The seat height-adjustment paddle for Savera Synchro-Tilt, Swivel-Tilt and XL is located underneath the seat on the right side.

To raise the chair, lift the paddle up, while lifting your weight from the seat, until you reach the desired height, then release. To lower the chair, lift the paddle up, allowing your weight to push the seat down until you reach the desired height, then release.

The seat height-adjustment paddle for Savera Stool functions the same but the paddle is located on the left side.

See "Savera arm adjustment features and instructions" page at the beginning of this section for arm details.

savera multi-tilt adjustment features & instructions

back tilt adjustment

The Tilt control lever is on the right-hand side and is located at the farther back position.

To lock the back, lean back to the desired angle and firmly push the lever down to engage it. To unlock and free-float, firmly pull up the lever to the horizontal position.

tension control

The tension adjustment knob for the multi-tilt is located in the middle, directly under the front of the seat. Turning the knob counter-clockwise will increase the tension and clockwise will decrease the tension

lumbar height-adjustment

The lumbar height-adjustment levers for Savera Synchro-Tilt, Multi-Tilt, Swivel-Tilt and Stool are found at the sides of the chair. Pull levers up or down to the desired position.

Savera XL does not have lumbar height-adjustment.

seat height-adjustment

The seat height-adjustment paddle on the Multi-Tilt is located on the right-hand side, underneath the arm post.

To raise the chair, lift the paddle up, while lifting your weight from the seat, until you reach the desired height, then release. To lower the chair, lift the paddle up, allowing your weight to push the seat down until you reach the desired height, then release.

seat depth adjustment

The paddle is located on the left-hand side, near the back. To adjust the seat depth, lift lever up. Simultaneously lift your weight from the seat while sliding the seat forward or backward. Release the lever to lock the seat in place.

seat angle adjustment

The Forward-Tilt knob is located closest to the front. Rotate it forward and rearward to adjust the seat angle incline.

The seat angle may be infinitely adjusted when the paddle is in the horizontal position. Firmly push the lever down to lock the seat angle and pull up to the horizontal position to allow free floating.

savera swivel-tilt adjustment features & instructions

back tilt adjustment

SWIVEL-TILT TASK:

The back-tilt control lever is located on the right near the front. To tilt the chair, sit in the chair and pull the handle outward. Leaving the handle in this position, the chair is now in free flow mode and can reach any position between upright and fully reclining. To lock (upper position only), bring chair to upright position and push the handle in.

tension control

SWIVEL-TILT TASK:

The tension-adjustment knob for the swivel-tilt is located in the middle directly under the seat. Turning the knob will increase or decrease tension.

lumbar height-adjustment

The lumbar height-adjustment levers for Savera Synchro-Tilt, Multi-Tilt, Swivel-Tilt and Stool are found at both sides of the chair. Pull both levers up or down to the desired position.

Savera XL does not have lumbar height-adjustment.

seat height adjustment

The seat height-adjustment paddle for Savera Synchro-Tilt, Swivel-Tilt and XL is located underneath the seat on the right side. To raise the chair, lift the paddle up, while lifting your weight from the seat, until you reach the desired

To raise the chair, lift the paddle up, while lifting your weight from the seat, until you reach the desired height, then release. To lower the chair, lift the paddle up, allowing your weight to push the seat down until you reach the desired height, then release.

The seat height-adjustment paddle for Savera Stool functions the same but the paddle is located on the left side.

seat depth adjustment

SWIVEL-TILT AND SYNCHRO-TILT-TASK:

The lever is located on the left-hand side, near the front. To adjust the seat depth, lift lever up. Simultaneously lift your weight from the seat while sliding the seat forward or backward. Release the lever to lock the seat in place.

See "Savera arm adjustment features and instructions" page at the beginning of this section for arm details.

savera swivel-stool adjustment features & instructions

stool seat height

To raise the chair, lift the paddle up while lifting your weight from the seat until you reach the desired level and then release to lock in place. To lower the chair, lift the paddle up allowing your weight to push the seat down to the desired level and then release to lock in place.

stool foot ring height

To raise or lower the stool's foot ring, turn the foot ring's knob counter clockwise to release the foot ring and adjust the ring until you reach the desired level. Turn the knob clockwise to lock in place.

lumbar height-adjustment

The lumbar height-adjustment levers for Savera Synchro-Tilt, Swivel-Tilt and Stool are found at the sides of the chair. Pull levers up or down to the desired position.

Savera XL does not have lumbar height-adjustment.

See "Savera arm adjustment features and instructions" page at the beginning of this section for arm details.

N S A X Savera XL – Synchro-Tilt Task Chair

FEATURES

- Standard pneumatic cylinder provides height-adjustment of 4"
- Synchro-tilt 3:1 ratio
- Seat and back inner construction are plywood
- Frame, 5-Star Base and outer back are plastic
- Tension control
- Frame, 5-Star Base and outer back are plastic
- Hard casters are standard and are well suited for soft flooring such as carpeting
- Soft casters are available for use on hard flooring, such as wood, concrete, or tile

NOTES

Standard vs Generous Arms: Arms are the same height-adjustable style, width clearance is 20-1/2" for Standard and 23" for Generous. Arm placement is done by plant prior to shipping. **Single Upholstered:** The same fabric is applied to the seat and inside back.

tone synchro-tilt task chair & stool overview

Quiet, yet spirited, design. Visually soft and minimalist, Tone is designed to blend seamlessly with its setting. Its rounded frame invites touch and a pure silhouette balances simplicity with superior comfort.

Tone allows for an expressive and efficient use of materials. Two different mesh styles are available in an uplifting color palette. Thoughtful in each detail at an accessible price, Tone marries the needs of people, place and planet in an elegant whole.

Tone is available in a task chair and swivel stool. Task chair is available fully assembled or knocked down.

tone adjustment features & instructions

tilt tension adjustment

Rotating the knob found under the right side of the seat increases or reduces the resistance of the reclining chair back. Rotate forward to tighten tension. Rotate knob backwards to loosen tension.

back tilt lock adjustment

Turning the knob found under the left side of the seat locks and unlocks the recline. Rotate backwards to unlock and rotate forward to lock. To reset the chair to an upright position, unlock and completely recline the chair back. Chair can be locked in four positions.

arm width, depth and pivot adjustment

To adjust the width of the 2D and 4D arms, grab the arm pad on both sides and push to the left or right to the desired position.

For the 4D arm option, simultaneously pivot the arm pad inward or outward to desired angle. Arm pad depth can be controlled by grabbing the pad and sliding it forward or backward.

arm height-adjustment

To adjust the arm height, press the button below either arm rest to raise or lower it to the desired position.

seat height-adjustment

Seat height can be adjusted by pulling the lever underneath the seat on the right side. When the lever is pulled upward, the weight of the body will cause the seat to lower, and releasing it stops the seat at the desired height. Pulling up on the lever with no weight on the seat allows it to rise.

tone adjustment features & instructions (continued)

lumbar support height-adjustment

While sitting on the chair, put arms behind back to grab both ends of the lumbar support element. Slide lumbar up or down to required height.

seat depth adjustment

Seat depth adjustment can be found under the left hand side of the seat. To adjust the seat depth, pull the lever upward and simultaneously lift your weight from the seat while sliding the seat forward. For either direction, release the lever to lock the seat in place.

foot ring adjustment (stool)

To raise or lower the stool's foot ring, turn the foot ring's knob counter-clockwise to release the foot ring and adjust the ring until you reach the desired level. Turn the knob clockwise to lock into place.

visio chair overview

Visio elevates the affordable work chair.

Simple and polished, Visio has a lighter scale and a slim, graceful profile with mesh back that molds to the body for essential support. A comfortable chair with refined details, Visio offers discreet ergonomics that suit the corporate or residential setting.

Visio Chair, Mesh Back (NTEU)

mesh & frame finishes

Note: Only applicable to chairs with "Fully Assembled (F)" selected.

statement of line

visio chair dimensions & material requirements

features

- Designed and tested for users up to 275 lbs
- Meets ANSI/BIFMA requirement

weight

Visio Chair, Mesh Back	31 lbs
------------------------	--------

COM/COL material requirement

The pattern, repeat and directionality of fabric may increase the amount of yardage required.

Leather quantities should always be rounded up to the next hide size, as yields vary from 60-80% and are affected by the quality, size and shape of the hide, and by the location and quantity of blemishes.

SINGLE UPHOLSTERED

	COM [yards]	COL [sq. ft]	
Visio Chair, Mesh Back	1	6.00	

visio chair adjustment features & instructions

seat height-adjustment

To raise the chair, lift the lever up while lifting your weight from the seat until you reach the desired level, then release to lock in place. To lower the chair, lift the lever up and allow your weight to push the seat down until you reach the desired level, then release to lock in place.

seat depth-adjustment

To adjust the seat depth, push the lever down and simultaneously lift your weight from the seat while sliding the seat forward or backward. Release the lever to lock the seat in place.

back tilt lock adjustment

The chair is in free flow mode when the lever is in a level position. While in free flow mode, recline to the desired position and then twist the lever forward to lock.

lumbar height-adjustment

While sitting in the chair, put arms behind backrest to grab both sides of lumbar element and slide lumbar up or down to the desired position.

arm height adjustment

To adjust arm height, press the button in the middle of arm rest to raise or lower it to the desired position. Release the button to lock in place.

FEATURES

- Mesh back and fabric seat
- Height- Adjustable Arms
- Nylon base with 60mm soft casters
- Weight-balanced synchronized mechanism with height-adjustment, back tilt and tilt lock at 3 positions
- Lumbar support height-adjustment of 2.5"
- Designed and tested for users up to 275 lbs

NOTES

Item can be ordered Fully Assembled or Assembly Required.

Grade 2 Percept Upholstery Finish is only available when Fully Assembled (F) is selected.

Xpress Available through *Teknion's Xpress Program*.

aarea worklounge overview

Tailoring meets engineering, innovated through second-life materials. Aarea's mélange knit back is fabricated from retrieved marine plastic to minimize virgin materials and waste. The knit back is flexible and readily conforms to the shape of the body, creating seamless support through the tensions inherent in the knit.

The Worklounge offers high performance without bulky, visibly mechanical components, essentially a lounge chair that acts like a task chair. The synchro-tilt mechanism allows the seat back and cushion to recline at different rates, keeping your feet on the floor – a feature previously unique to task chairs.

-------------------------	------	----

4-Star Base, High Back with Headrest

COM/COL material requirement

The pattern, repeat and directionality of fabric may increase the amount of yardage required.

Leather quantities should always be rounded up to the next hide size, as yields vary from 60-80% and are affected by the quality, size and shape of the hide, and by the location and quantity of blemishes.

aarea worklounge adjustment features & instructions

seat height-adjustment

Seat height can be adjusted by lifting the lever underneath the seat on the left side. When the lever is lifted up, the weight of the body will cause the seat to lower. Releasing the lever stops the seat at the desired height. Lifting the lever up with no weight on the seat allows it to rise.

back tilt lock adjustment

Three lockable tilt positions are available on the Aarea Worklounge. For free-flow mode, push down lever located on left hand side to unlock. For tilt-lock mode, ensure chair is unlocked. Lean back to desired angle and then lift up lever to lock. To return chair to an upright position, push down lever to unlock. Lean on the backrest and lift weight of body off backrest to reset.

aarea casual lounge overview

Tailoring meets engineering, innovated through second-life materials. Aarea's mélange knit back is fabricated from retrieved marine plastic to minimize virgin materials and waste. The knit back is flexible and readily conforms to the shape of the body, creating seamless support through the tensions inherent in the knit.

The Casual Lounge chair fits in any open setting, for a supportive, cushioned sit with height adjustability and four-star, wood and metal leg options.

ability spinner stool overview

Ability Spinner Stools provide a simple and affordable solution for mobile and casual guest seating.

Ability Stools are equipped with casters intended for use on carpeted surfaces. Use of these casters on hard surfaces could result in unexpected rolling and tipping. Casters designed for use on hard surfaces are available.

around conference adjustment features & instructions

seat height-adjustment

Seat height can be adjusted by lifting the lever underneath the seat on the right side. When the lever is lifted up, the weight of the body will cause the seat to lower. Releasing the lever stops the seat at the desired height. Lifting the lever up with no weight on the seat allows it to rise.

back tilt lock adjustment

Moving the lever found under the right side of the seat locks and unlocks the recline. Push lever forward to lock chair in upright position. Pull the lever backwards to unlock for tilting action.

just-us adjustment features & instructions

seat height-adjustment

Seat height can be adjusted by lifting the lever underneath the seat on the right side. When the lever is lifted up, the weight of the body will cause the seat to lower. Releasing the lever stops the seat at the desired height. Lifting the lever up with no weight on the seat allows it to rise.

back tilt lock adjustment

Moving the lever found under the right side of the seat locks and unlocks the recline. Push lever forward to lock chair in upright position. Pull the lever backwards to unlock for tilting action.

foot ring adjustment (stool)

To raise or lower the stool's foot ring, turn the foot ring's knob counter-clockwise to release the foot ring and adjust the ring until you reach the desired level. Turn the knob clockwise to lock into place.

planning with just-us chair

The Just-Us chair can be used in a variety of applications throughout a workspace.

private offices

Just Us is available with the Around Chair Mesh so coordinates well with the Around Chair in a private office setting.

meeting and conference rooms

The swivel-tilt mechanism and seat height is easily adjusted with one lever which makes this chair suitable for short-term use in meeting rooms. Fixed height arms look consistent and professional.

workshop space

The Just-Us Stool is easy to use and light-spirited making it a welcoming and casual choice for individual or collaboration work. The Just-Us Stool appeals to organizations and individuals in search of a fresh, more contemporary look and feel, but desiring a stool that exudes professionalism in the work environment.

touch-down workstations

The Just-Us chair is suitable for short term use in a touch-down workstation environment where the end user requires a non-dedicated space to work.

enclaves

The Just-Us chair is easy-to-use and works well in enclaves and touchdown workstations where the end user needs a space to get some quick work completed.

- With fixed-loop arms for a clean look
- · Simple to operate with one lever
- Swivel-tilt mechanism locks in upright position
- Standard pneumatic cylinder provides seat height-adjustment of 4"; High pneumatic cylinder adjustment is 5"
- Swivel-tilt mechanism with 11° recline
- To allow coordination with other Teknion Work Chairs, Around or Just-Us mesh is applied on the chair's back
- The cushioned seat is upholstered with LUUM upholstery
- Hard casters are standard and are well suited for soft flooring such as carpeting. Soft casters are available for use on hard flooring, such as wood, concrete or tile

NOTES

Gris Frame Finish includes Gris plastic frame, cylinder and 5-star base with Grey casters. Ebony Frame Finish includes all Ebony frame, cylinder, base and casters. Mechanism is always Polished Aluminum.

Xpress Available through *Teknion's Xpress Program*.

kupp chair overview

Kupp is inspired by the classic typology of the café chair and addresses the need for simple, portable seating in office, commercial and higher learning spaces where seating needs can change from moment to moment.

A fresh approach to stacking chair design, horizontal nesting solves constraints and contributes to employee safety as chairs can be nested with minimal physical effort.

Kupp is available with or without arms.

It's strong, slender frame, flip-up seat and integrated nesting bumper allow it to be easily moved and stored with minimal damage.

planning with occo chair

The Occo chair can be used in a variety of application throughout a workspace.

multipurpose

The Occo chair is idea for short term use in cafeterias, bistros and casual meeting areas.

meeting and conference rooms

The Occo chair with casters is suitable for short-term use in meeting rooms

enclaves

The Occo chair works well in enclaves and touchdown workstations where the end user needs a space to get some quick work completed.

open environment

The Occo chair is suitable for short term use in an open environment where the end user requires a non-dedicated space to work. The Occo chair with and without casters complement each other.

understanding sprout stools and tables

The Sprout collection of stools and tables is inspired by nature – budding flowers, foliage and branches at varying stages of size and growth. Each can be displayed solo, like a small flower in a bud vase, or be part of a larger arrangement of similar or varying colors and textures.

sprout stools

Sprout Stools are portable and casual and ideal for use in workplaces, phone booths, cafeterias, retail and educational settings.

They are available in three heights:

- Task Height
- Counter Height
- Bar Height

sprout round tables

Sprout Round Tables also with trumpet bases, are ideal for use in any setting and complement Sprout Stools.

They are available in four heights:

- Lounge Height
- Task Height
- Counter Height
- Bar Height

sprout soft square tables

Sprout Soft Square Tables with trumpet bases are ideal for use in any setting and complement sprout stools.

They are available in four heights:

- Lounge Height
- Task Height
- Counter Height
- Bar Height

sprout stool overview

The Sprout Stool is a portable, casual stool ideal for use in workplaces, phone booths, cafeterias, cafes, retail and educational settings. Optional Seat Heights are fixed in task, counter or bar height which is more safe and ideal for commercial applications.

Sprout Stool (NSPS)

planning with sprout stools

The Sprout Stool can be used in a variety of application throughout a workspace.

• Sprout Stools can be used on their own, with millwork or tables. Sprout Tables complement the Sprout Stools and are available in coordinating sizes

Sprout Stools are available in three different heights:

- Task Height
- Counter Height
- Bar Height

Sprout Stools can be planned in a variety of ways to create different workspaces and environments within a corporate, commercial, public or residential space.

workspaces

A contemporary, compact, fun solution for casual guest seating in a workstation.

casual privacy

Sprout Stools at Bar Height complement the Tek Booth phone booth. The swivel seat enables you to easily get in and out of the space.

planning with sprout stools (continued)

lounge & casual

Blend with other products like Zones, Banqs and Teknion DNA to provide more casual solutions.

cafes & hospitality

Blend with Sprout Tables and Banqs banquettes to create interesting spaces and varying heights across a cafeteria.

collaborative

educational

Apply Luum polyurethane upholstery to the seat to make a more durable solution.

retail

Consider as a casual customer perching stool or to rest your bags at a teller or retail counter.

planning with sprout tables (continued)

Task, Counter and Bar Height Sprout Stools have heights that correspond with tables of the same name. The following should be considered when planning with Sprout Tables.

recommended occupancy

The following demonstrates the recommended table occupancy to allow for adequate personal and casual working space on Sprout Tables.

N S P S Sprout Stool

FEATURES

- Portable, casual stool ideal for use in workplaces, phone booths, cafeterias, cafes, retail & educational settings
- Coordinate with Sprout Tables or other. Task Height for 29" high table or worksurface, Counter Height for 36" high counter & Bar Height for 42" high bar surface
- 300 pound weight capacity
- Seat is generously proportioned. Seat swivels 360° which is beneficial for use in small spaces & for encouraging movement
- Seat heights are fixed for safer use and consistent look in public spaces
- Counter & Bar Height model includes footrest which swivels with seat
- Single Upholstered Seat
- · Multi-surface, non-marking felt glides
- Fully assembled

NOTES

Robustly constructed metal frame & base sub-assembly can be painted any Teknion paint finish allowing coordination with Sprout Tables & LUUM upholstery.

N S P T Sprout Soft-Square Table

FEATURES

- Casual Tables with trumpet bases that are ideal for use in workplaces, enclaves, cafeterias, cafes, retail & educational settings.
- Table tops offered in any of Teknion's Laminate, Flintwood, or Veneer finishes. Boutique surfaces available as a Special
- Multi-surface, non-marking felt glides

NOTES

Table tops are cozy in size- offered as 24"x 24" and 30" x 30" Soft-Square shapes that are radiused at the corners. The 24" tops are ideal as a cocktail table to rest your beverage while the larger diameter table provides more space for a couple of people to eat, socialize or work- all in the same space.

Coordinates with Sprout Stools (NSPS) & Sprout Round Tables (NSPR). Task Height for 29" high table or worksurface, Counter Height for 36" high counter & Bar Height for 42" high bar surface. Additional 16" high Lounge Height model is offered to be used with lounge seating.

Robustly constructed metal frame & base sub-assembly can be painted any Teknion paint finish allowing coordination with Sprout Stools.

planning with variable multi-purpose chair family

Designed by Alessandro Piretti, this broad family of chairs can be used throughout the workplace to provide a common chair solution for multiple needs. It is suited to the educational market, corporate collaborative areas, auditoriums and lunch and meeting rooms.

key features:

- Variable Multi-Purpose Chair collection includes a 4-Leg Stacking Guest Chair, 4-Leg Stacking Bar and Counter Height Stool, Swivel Multi-Use Work Chair, Swivel Stool and Conference Chair
- Flexible zones in seat and backrest that are optimized for user comfort based on the pressure maps
- Variable Chairs have been designed and tested for users up to 300 lbs
- The design aesthetic, upholstery and finish options compliment Thesis Educational Training Tables and Desking
- Can be integrated across an entire Teknion floor plate
- 12 different Plastic finishes
- Optional Bookracks, Tablets, Ganging Devices and a Dolly are available

Variable Chairs are available Not Upholstered, Single Upholstered Seat only, Single Upholstered Seat and Back or Dual Upholstered Seat and Back.

4-Leg Guest Chairs and Stools with arms and without arms may be stacked on the floor and Guest Chairs may also be stacked on the Dolly. Guest Chairs are stackable when either caster or glide options are specified.

The Tablet can be applied to any type of armless Variable Chair. The 4-Leg Stacking Guest Chairs and Stools with Tablets may be stacked.

The Bookrack can be installed on the 4-Leg Stacking Guest Chair or Stacking Stools. Chairs with Bookracks do not stack.

A Ganging Device is available to help align Guest Chairs in a linear pattern. Ganging devices must be specified for application with chairs with no arms or for chairs with arms or tablets.

educational applications

High performance standards, contemporary aesthetics and reconfigurable furniture help shape minds of all ages. The Variable chair is ideal for single student, project group, classroom and lecture hall applications.

single students

Study carrels or focused touch-down areas can be created with Thesis and Variable 4-Leg Guest Chairs. Chairs stack for easy facility maintenance. Options are available with casters or glides and with or without arms.

For more details on this model of chair, refer to the *Stacking Chairs* section.

project groups

Project or team meeting areas can be created with Thesis Tables and Variable Multi-Use Work Chairs or Conference Chairs. Both chair types swivel and are available with or without arms. While the Conference Chair is fixed-height and no fuss, the Work Chair is height-adjustable; perfect to accommodate users who may be sitting in the chair for a longer period of time and require a bit more adjustability.

For more details on this model of chair, refer to the *Work Chairs* section.

educational applications (continued)

classrooms

Focus

For more details on this model of chair, refer to the *Work Chairs* section.

Classroom or training environments can be created with Thesis Training Tables Variable 4-Leg Stacking Guest Chairs and Swivel Stools. The caster option provide mobility for quick classroom reconfigurations depending on class size and task. Stackability allows the chairs to be stacked out of the way when not needed, or assist in quick facility maintenance. Reconfigure the furnishings and to suit Focused, Interactive and open Space needs.

For more details on this model of chair, refer to the *Stacking Chairs* section.

Open Space

educational applications (continued)

lecture halls

Focus

For more details on this model of chair, refer to the *Stacking Chairs* section.

Classroom or training environments can be created with Thesis Training Tables and Variable 4-Leg Stacking Guest Chairs. Options with casters provide mobility for quick classroom reconfigurations depending on class size and task. Stackability allows the chairs not required to be stacked out of the way when not needed, or assist in quick facility maintenance.

Interact

For more details on this model of chair, refer to the *Stacking Chairs* section.

corporate, commercial & institutional applications

Todays workplace hosts fixed, motion, mobile and distance workers. They will have different needs for privacy and collaboration. Many people are not dedicated to a single workstation for all of their day.

Swivel Multi-Use Work Chairs are ideal for medium term use or touch down workstations. They swivel, provide height-adjustability and the patented Variable back flex. Arm rests provide additional support.

For more details on this model of chair, refer to the *Work Chairs* section.

Technology Bars provide a more casual space to do individual work or collaborate. Swivel stools provide seat height-adjustment, footrest height-adjustment and the integrated back tilt. The 4-Leg Counter or Bar height Stools are another option where use may be more short term and as a result a fixed height is preferred.

corporate, commercial & institutional applications (continued)

For more details on this model of chair, refer to the *Stacking Chairs* section.

Todays conference or meeting rooms are often integrated with technology such as CLUBtalk. The Variable Conference Chairs swivel and have a fixed seat height and fixed arms for a clean meeting room solution with no need to search for adjustment controls.

Cafeterias, cafes and bars, whether they be large or small scale, provide a space for people to relax, recharge and collaborate. Providing alternative table heights of 29", 36" counter or 42" bar height, creates a more modern landscape and the ability to separate areas. Stacking Variable 4-Leg Guest Chairs and Stools are ideal for impromptu reconfigurations as well as facility maintenance.

corporate training

Various levels of training can be achieved in corporate sett ups by rearranging existing furniture to accommodate different sizes of training sessions.

Corporate Training Rooms can be created with Thesis Training Tables, Variable 4-Leg Stacking Guest Chairs and Variable HybrED Chair with a 5 star base. Most users will be permanent residents in the office therefore the lower storage tray is not needed as most employees will keep their belongings at their desk.

variable swivel multi-use work chair overview

The Swivel Work Multi-Use Chair is ideal where the functionality of a loaded Task Chair may be unnecessary for the application. Teknion's first all-Plastic Swivel Work Chairs are height-adjustable, have a swivel mechanism and the patented integrated back tilt.

Very White shell finish is not recommended for high traffic use or minimized maintenance.

See "Multi-Use Chairs" section for Variable Conference Chairs and Application Guidelines for all Variable Chair types.

See "Stacking Chairs" section for Variable Stacking Guest Chairs and Stacking Stools (Counter and Bar heights).

Variable Swivel Multi-Use Work Chair (NVRW)

statement of line

Swivel Work Chair – Integrated Arms with Glides (NVRWKB)

variable swivel multi-use work chair overview (continued)

The Swivel Multi-Use Stool is perfect for counter-height users such as tellers with walk-up guests as well as for those in working in labs. It is height-adjustable, includes the patented integrated back-tilt and a footring.

Very White shell finish is not recommended for high traffic use or minimized maintenance.

See "Multi-Use Chairs" section for Variable Conference Chairs, HybrED Chairs and Application Guidelines for all Variable Chair types See "Stacking Chairs" section for Variable Stacking Guest Chairs and Stacking Stools (Counter and Bar heights).

variable swivel multi-use work chair adjustment features & instructions

tilt adjustment

Actively recline in all Variable Chairs and return to an upright position with the patented Variable integrated hinged back-tilt. Amount of flex varies dependent on user.

swivel mechanism

The Swivel Multi-Use Work Chair, Swivel Multi-Use Stool and Conference Chair freely swivel 360°.

footring height-adjustment

To raise or lower the footring on the Swivel Stool, turn the footring's knob counter-clockwise to release the footring and adjust the ring until you reach the desired level. Turn the knob clockwise to lock in place.

seat height-adjustment

While in the seated position in the Swivel Multi-Use Chair or Stool, pull-up the paddle located below the chair on the right-hand side to lower the chair to the desired position. Depress the paddle. Transfer your weight to your feet and pull-up the paddle to raise the chair height. Depress the paddle.

nami overview

Nami is a contemporary European designed stacking chair, whose name and form are inspired by a cresting wave. Its flexing plastic or 3D wood shell provides lumbar and thoracic support as well as comfort and beauty.

FEATURES

- Innovative one-piece 3D Wood shell in rotary-cut Beech with surface finish in four colors to fit within the range of Teknion's V2-V4 stain finishes
- Stacks 3 high on the floor. Does not stack on dolly.
- Ganging device can gang any combination of arm option (including tablet arm)
- Multi-surface glides

NOTES

Tablet can only be specified on chairs with arms. Tablet is standard on the right and finished in Ebony.

When Tablet is specified, chair is no longer stackable.

When With Ganging (G) is selected, a ganging device is included to connect two chairs. A TekniStain form is required if a Teknion Wood product is needed in colors outside our standard offering. To order a Custom Wood Stain use the seating code NOCWS. A one time upcharge per color applies. Forward a purchase order and TekniStain form to your Customer Service Representative. Allow two (2) weeks for the TekniStain approval process. The Custom Wood Stain sample must be signed off prior to placing product order. Allow three (3) extra weeks to the total lead time of the chair when using a custom wood stain. The total lead time will begin once final approved samples have been received from customer to Teknion. The custom wood stain sample must be signed off prior to placing product order.

variable overview

The 4-Leg Stacking Guest Chair is the ultimate multi-purpose chair as it can be used in various applications and environments, and because its medium density stackability makes it easy to store.

Very White shell finish is not recommended for high traffic use or minimized maintenance.

See "Work-Use Chairs" section for Variable Swivel Multi-Use Work Chairs and Stools.

See "Multi-Use Chairs" section for Variable Conference Chairs and Application Guidelines for all Variable Chair types.

COM/COL material requirement

The pattern, repeat and directionality of fabric may increase the amount of yardage required.

Leather quantities should always be rounded up to the next hide size, as yields vary from 60-80% and are affected by the quality, size and shape of the hide, and by the location and quantity of blemishes.

what is banqs

Banqs is a destination for collaboration, focus work, and socialization.

As mindsets shift around what constitutes a positive work experience, Banqs has taken a holistic approach to help workplaces adapt to new patterns.

Work, and where it is being performed, has become increasingly agile. The Banqs portfolio provides the flexibility you need to meet the moment.

Whether that means connecting one-on-one offline, doing heads-down work that requires a certain level of privacy, or making the most out of in-between moments to catch up with your colleagues, Banqs' comprehensive system of screens, tables, and modular sofas transform under-utilized real estate into effective places to collaborate, socialize, and focus.

meeting space

Banqs can be configured into well equipped, functional meeting spaces with an A/V integrated High Spanning Screen, complete with monitor mount and cable management feature in combination with power integrated tables and modular Banqs sofas.

collaborative/socialization space

Create inviting collaborative spaces with Banqs Two-Seater and Three-Seater sofas and their wide range of screen configurations.

Sofas can be configured into linear or L-shape layouts along perimeter walls to create informal meeting spaces in under-utilized areas.

They can also be configured into X-shape or T-Shaped settings in more centralized areas to encourage spontaneous gathering and social interactions.

Banqs offers a selection of freestanding occasional tables and task height tables to help complete these multi-purpose settings.

focus space

Provide access to touchdown spaces with Banqs' Solo Focus Sofas.

The Solo Focus is a generous One-Seater sofa that comes complete with work surface, optional power, and USB integration.

A choice of three worksurface styles offers a wide range of focus modes; from heads-down work to a private place to take a call, to a place to gather your thoughts in between meetings.

planning with banqs

Banqs addresses the need for meeting, collaborative/socialization and focus spaces throughout a floorplan.

Focus Space
• Pinwheel Planning

3 Socialization Space
• L-Shaped and Linear Planning

4 Socialization Space
• Pinwheel Planning

6 Collaborative/Socialization Space • L-Shaped and U-Shaped Planning

Focus Space
• L-Shaped Planning

8 Meeting Space
• Linear Planning

Focus Space
Linear Planning

See the Teknion Planning Tool for further thought starters.

planning with banqs (continued)

Banqs seating components are designed on a 24" wide planning module and allow for a generous and comfortable seat for the individual. Unlimited configurations can be created with Banqs seating that address the needs of today's workplace and end users.

Banqs screens are available in three heights which provides different levels of privacy to a setting.

Combining various components and heights allows for multiple functions within a layout.

banqs fabrics and finishes

Banqs is available in a large variety of fabrics and finishes, allowing users to create unique looks.

Banqs sofas can be specified in single or triple upholstery.

- Single upholstery: Entire sofa is one fabric
- Triple upholstery: Each component (screen/bolster/seat) in a different fabric Banqs legs are available in metal or wood options.
- Metal Leg finish: Foundation, Mica or Accent paints
- Wood Leg finish: N56 stains

All Teknion fabrics and leathers can be used on Banqs seating.

See the Teknion Fabrics and Finish guide for all available finishes.

banqs fabrics and finishes (continued)

banqs wood leg finishes

^{*}Corner bracket and work surface standpipe finish will co-ordinate to Wood Leg Finish selected.

banqs fabrics and finishes (continued)

Banqs legs are available in metal or wood options:

- Metal Leg finish: Foundation, Mica or Accent paints
- Wood Leg finish: N56 stains

understanding banqs seating

The following outlines the maximum recommended seating capacity for each bench or sofa.

Banqs Single-Sided Solo Focus Sofa

Banqs Corner Alcove Solo Focus Sofa (right corner shown)

Banqs Full Alcove Solo Focus Sofa

Banqs Rectangular Bench, No Back

Wide

Banqs Back-To-Back Sofas

Banqs Single-Sided Sofa

Three-Seater

Two-Seater

Two-Seater

Three-Seater

Banqs Corner Alcove Sofa (right corner shown)

Banqs Full Alcove Sofa

Single-Sided Sofas combined with Corner Alcove Sofas.

understanding banqs seating (continued)

The following should be considered when planning with Banqs electrical modules.

benches and sofas

Banqs benches and sofas are available with an optional electrical module below the seat.

The electrical module includes:

- 1 Simplex power 1 USB-A
- 1 USB-C
- 1 Power cord (Undermount Power 13' cord, Power Flip 10 cord')
- 1 Cable manager

Electrical modules mount 9" from the leg on either the left or right side.

Single Sided

for all back-to-back sofas

- (2) electrical modules can be specified adjacent to leg, on either left or right side (from seated position) or
 (2) electrical modules can be specified adjacent to leg, mixed left and right side

Note: Factory installed undermount electrical modules are 9" from edge of sofa to centerline of module.

48" wide back-to-back sofa and electric module (left from seated position shown)

72" wide single-sided sofa and electric module (mixed right and left from seated position shown)

sofas focus sofas

Sofa Focus Sofas have an optional small power flip module on the table of the unit.

- If a power module is required under the sofa it must be specified separately

banqs fabric pattern and seam guidelines

Fabric

- Fabric is applied "Off-the-Bolt" on Banqs seating (Off-the-Bolt is a term that describes the orientation that fabric is applied to seating).
- Seams are required at the center-line of 3-seater straight upholstered benches and sofas (as indicated below).
- Patterned upholstery can be used.
- COMs follow the same fabric orientation and pattern seaming.
- See Fabrics and Finishes Guide

Product	Fabric Pattern Seams	Product	Fabric Pattern Seams
Banqs Single-Sided/Corner Alcove/Full Alcove Solo Focus Sofas, Standard (Full Alcove, High Screen shown)		Banqs Single-Sided/Corner Alcove/Full Alcove Solo Focus Sofas, Wide (Full Alcove, High Screen shown)

Banqs Single-Sided Sofas, 2-Seater (High Screen shown)		Banqs Single Sided Sofas, 3-Seater (High Screen shown)	
Banqs Corner/Full Alcove Sofas, 2-Seater (Corner Alcove, High Screen shown)		Banqs Corner/Full Alcove Sofas, 3-Seater (Corner Alcove, High Screen shown)	
High Spanning Screen			

banqs fabric pattern and seam guidelines (continued)

Leather

- Leather hides have variations in shape and limited dimensions.
- Leather hides are divided into smaller panel sizes (approx. 24" x 24") and require additional seams.
- Seams are required at the center-line of 2-seater and 3-seater straight upholstered benches and sofas (as indicated below).
- COLs follow the same fabric orientation and pattern seaming.

Product	Leather Pattern Seams	Model	Leather Pattern Seams

Single-Sided Solo Focus, High Screen, Boomerang Table	157	lbs

COM/COL material requirement

The pattern, repeat and directionality of fabric may increase the amount of yardage required.

Leather quantities should always be rounded up to the next hide size, as yields vary from 60-80% and are affected by the quality, size and shape of the hide, and by the location and quantity of blemishes.

banqs corner alcove solo focus, standard dimensions & material requirements

construction notes

- Weight capacity of 300 lbs. per seat (ie. 2-Seater capacity is 600 lbs.)
- Conforms to BIFMA X5.4-2020 lounge seating standards

weight metal legs (add 7 lbs. for wood legs)

Corner Alcove Solo Focus, Low Screen, Standard Table	123 lbs
Corner Alcove Solo Focus, Low Screen, Box Storage	142 lbs
Corner Alcove Solo Focus, Low Screen, Boomerang Table	147 lbs
Corner Alcove Solo Focus, Medium Screen, Standard Tab	le146 lbs
Corner Alcove Solo Focus, Medium Screen, Box Storage	165 lbs
Corner Alcove Solo Focus, Medium Screen, Boomerang Tab	le170 lbs
Corner Alcove Solo Focus, High Screen, Standard Table	162 lbs
Corner Alcove Solo Focus, High Screen, Box Storage	181 lbs
Corner Alcove Solo Focus, High Screen, Boomerang Table	e 186 lbs

COM/COL material requirement

The pattern, repeat and directionality of fabric may increase the amount of yardage required.

Leather quantities should always be rounded up to the next hide size, as yields vary from 60-80% and are affected by the quality, size and shape of the hide, and by the location and quantity of blemishes.

NBL / NBN

Banqs Left Corner Alcove Solo Focus

FEATURES

- Standard and wide options
- Legs available in Metal (NBL) or Wood (NBN)
- Available in single and triple upholstery
- Standard, box storage, and boomerang (standard width) and standard and dual (wide width) table options
- · Optional small power flip available in black or white finish
- · Ships fully assembled.

NOTES

- Laminate/veneer finish applies to entire table
- Ganging plates and kits must be ordered separately for linear, perpendicular, or pinwheel applications
- Undermount electrical module must be specified as separate item (includes cable management)
- When low screen is selected, corner bracket will not appear when Box Storage or Boomerang Table is adjacent to screen
- Low screen sofas (33"H) that have either Box Storage or Boomerang tables specified next to a side screen do not require the screen connector bracket at top

NBR / NBO

Banqs Right Corner Alcove Solo Focus

FEATURES

- · Standard and wide options
- Legs available in Metal (NBR) or Wood (NBO)
- Available in single and triple upholstery
- Standard, box storage, and boomerang (standard width) and standard and dual (wide width) table options
- · Optional small power flip available in black or white finish
- Ships fully assembled

NOTES

- Laminate/veneer finish applies to entire table
- Ganging plates and kits must be ordered separately for linear, perpendicular, or pinwheel applications
- Undermount electrical module must be specified as separate item (includes cable management)
- When low screen is selected, corner bracket will not appear when Box Storage or Boomerang Table is adjacent to screen
- Low screen sofas (33"H) that have either Box Storage or Boomerang tables specified next to a side screen do not require the screen connector bracket at top

Full Alcove Solo Focus, Low Screen, Box Storage	157 lbs
Full Alcove Solo Focus, Low Screen, Boomerang Table	162 lbs
Full Alcove Solo Focus, Medium Screen, Standard Table	169 lbs
Full Alcove Solo Focus, Medium Screen, Box Storage	188 lbs
Full Alcove Solo Focus, Medium Screen, Boomerang Tabl	e193 lbs
Full Alcove Solo Focus, High Screen, Standard Table	190 lbs
Full Alcove Solo Focus, High Screen, Box Storage	209 lbs
Full Alcove Solo Focus, High Screen, Boomerang Table	214 lbs

COM/COL material requirement

The pattern, repeat and directionality of fabric may increase the amount of yardage required.

Leather quantities should always be rounded up to the next hide size, as yields vary from 60-80% and are affected by the quality, size and shape of the hide, and by the location and quantity of blemishes.

banqs full alcove sofa overview

Banqs Full Alcove Sofas address various visual, acoustic, and spatial privacy needs with three screen heights.

Intended for stand alone use, the medium sofa can be combined with other Banqs components, like benches and single-sided sofas, to create linear and perpendicular layouts for a variety of applications.

Banqs Full Alcove Sofa (NBAF)

banqs full alcove sofa dimensions & material requirements

banqs high spanning screen overview

Banqs High Spanning Screens mount perpendicular to the ends of Single-Sided or Back-to-Back Sofas to provide privacy as well as access to power and A/V for meeting settings.

Banqs High Spanning Screen (NBAZ)

Banqs High Spanning Screen, Digital Share & Worksurface Electrics (NBAZD)

Banqs High Spanning Screen, Worksurface Electrics only (NBAZW)

Banqs High Spanning Screen, No Electrical Module (NBAZN)

planning with banqs high spanning screen

Banqs High Spanning Screens are designed for booth applications, and must be used perpendicular to high screen sofas. High spanning screens are not freestanding.

Single-Sided Sofa, High Screen, 3-Seat with 30" deep x 72" wide Table

Note: High Spanning Screen adds 1" to overall sofa dimension

Banqs High Spanning Screens can only be planned with High Screen sofas.

Single-Sided Sofa, Low Screen, 3-Seat with 30" deep x 72" wide Table

Single-Sided Sofa, High Screen, 3-Seat with 30" deep x 72" wide Table

Maximum of (2) High Spanning Screens can be planned together

The following recommendations for TV/monitor size and weight should be taken into consideration when specifying a High Spanning Screen with Digital Share & Worksurface Electrics.

- Maximum TV/Monitor size is 28" (measured on the diagonal)
- Maximum recommended width is 30"
- Maximum TV/Monitor weight 20lbs
- TV/Monitor cannot be mounted on both sides of a High Spanning Screen
- No tilt, pan or rotation is provided in the monitor mount
- VESA 75mm x 75mm and 100mm x 100mm hold patterns are accommodated

banqs table with flat base overview

The Banqs Table with Flat Base can be used with Banqs benches and sofas or planned independently.

The flat base is ideal in booth or diner applications where less obstructed foot room helps people slide in and out of the space.

Banqs Table with Flat Base (NBAT)

statement of line

planning with banqs tables

The following should be considered when planning with Banqs tables.

For linear planning, a minimum distance of 18" between tables is suggested for comfortable access and egress to and from Banqs benches and sofas.

Banqs Tables with Flat Base or 4-Prong Base can be specified, however; Banqs Tables with Flat Base are suggested for improved end user comfort.

For banquette and booth applications, it is suggested that table sizes match the sofa sizes.

When planning with Full Alcove Sofas and tables consider leg room and leave sufficient space for access and egress.

planning with banqs tables (continued)

For booth applications using High Spanning Screens, it is suggested that table sizes also match the sofa sizes.

The seating occupancy of 2-seater and 3-seater sofas should be reduced to allow for all users to clearly view the TV/monitor.

planning with banqs tables (continued)

Banqs tables can accommodate the following power and lighting options.

No electrics (High Spanning Screen not required)

Zones Table Lamp (ZNET)

Zones Small Power Pill (ZNEP)

Zones Small Power Pill (ZNEP) with Digital Share & Worksurface Electrics (NBAZ)

Zones CALA Power Module (ZNEB)

Zones CALA Power Module (ZNEB) with Digital Share & Worksurface Electrics

Small Power Flip (NBAJ)

Small Power Flip (NBAJ) with Digital Share & Worksurface Electrics (NBAZ)

Notes: When specifying a High Spanning Screen with Digital Share & Worksurface Electrics (NBAZ84D), remember to specify the table with the corresponding power/

Power/lighting accessories must be purchased separately.

understanding banqs freestanding tables

Banqs Freestanding Tables are available in two styles: with and without screens.

Both table styles are designed to be used in conjunction with other sofas, and attached with ganging plate(s) or ganging kit(s) (specify separately).

Both table styles not meant to be used as a stand alone table.

Banqs Freestanding Occasional Tables are designed to be used in the following applications:

- Outside Corner
- Reverse Planning
- T-planning
- X-planning

Banqs Freestanding Occasional Tables with Screens are designed to be used for inside corner planning applications.

banqs freestanding occasional table overview

Banqs Freestanding Occasional Tables are designed to be ganged with Banqs benches and sofas, and are available with up to (4) power modules to provide maximum connectivity.

belize overview

Belize is a mobile collaborative, friendly and casual chair that provides storage and comfort.

Belize Chairs are equipped with casters intended for use on carpeted surfaces. Use of these casters on hard surfaces could result in unexpected rolling and tipping.

Casters designed for use on hard surfaces are available. If in doubt, see your dealer for appropriate selection.

N B E C Belize – Lounge

NOTES

A tablet and cup holder cannot be specified for the same side of the chair.

The handle, cup holder and tablet arm frame are finished in Polished Aluminum. The surface of the cup holder is finished with a Black, non-slip surface.

If a tablet is specified, a tablet surface finish must also be specified. Pricing shown opposite includes a Foundation, Laminate or metal tablet surface. If a Wood Veneer tablet surface is specified, the applicable upcharge must be added.

Pricing does not include the Side Panel Style. The applicable upcharge must be added based on the Side Panel Style specified.

If Upholstered Side Panel is specified, fabric for the side panel must also be specified.

Hard casters are standard on all Belize Lounge Chairs. Casters at the rear are lockable.

Leather LD is not available on the Belize Collection.

what is bonds

Bonds is designed by collaborative partners Iratzoki-Lizaso and inspired by the concept of a Jacob's Ladder, a toy made up of loosely bonded segments.

features

- An open topographical system that articulates around the central ideas of adaptability flexibility and agility for todays work and public spaces
- · A concise collection of connected and freestanding seating modules, connected side table modules and auxiliary tables
- A rich and considered ecosystem of functional modules where a mix of wood, fabric and color can be configured in limitless combinations that focuses on resonating with todays emotion and aesthetic values

The design concept behind Bonds is an articulation and translation system that provides:

- An element of differentiation
- Movement in a controlled way
- An easily understandable way of adapting space
- A level of casualness that is still professional
- A degree of flexibility when specifying
- The possibility of easily rearranging existing furniture to refresh the functionality of a space

The following demonstrates the movement that can be achieved with Bonds Building Block Seats while connected.

bonds product offering

Bonds consists of the following components:

freestanding blocks

building block seats

strap and ganging kits

planning with bonds

Bonds is ideal in spaces where people gather to work, converse, relax or rest.

The Teknion Planning Tool provides idea starters for planning with Bonds products. Assets are also available for presentations and specifying Teknion products. The following are a few examples.

TEKNION PLANNING TOOL - BONDS

The following should be considered when planning with Bonds.

Bonds has a unique seam stitch detail which provides an aesthetic craft detail.

- Has a functional purpose that allows the specifier to plan layouts and color schemes for their client
 Allows for the universal use of all fabrics and is especially designed for expressive fabric patterns without the need for pattern matching
- · Optimizes the use of fabrics, lowering the impact on the environment by maximizing yield and reducing waste

Building Block Tables are 1/2" smaller than Building Block Seats to allow for proper fit when seats are articulated.

Depending on the layout, the ends of the tables and seats may not align

Bonds seating and tables are available in a variety of heights to provide various seating postures.

Seat Heights: - 16" Lounge - 18" Work

- Table Heights:
 10-1/4" and 19" Lounge
 27" Work

Work Height Seats with Tablets or Auxiliary Tables

Lounge Height Seats with Lounge Height Tables

Work Height Seat and Lounge Table - Seat nests flush to the underside of the table

Lounge Height Seats and Tables -Seat is offset 2" from the bottom of the table

Work Height Seat with Work Height Table - Seat nests flush to the underside of the table

Lounge Height Seat with Work Height Table - Seat is offset 2" from the bottom of the table

Bonds planning is based on three planning styles.

dynamic

- Building Block Seats are unattached and can be easily moved
- A minimum of two units and a maximum of six units is recommended

stationary

- Building Block Seats are fixed
- Attached with straps or ganging kits

modifying elements

• Freestanding seats and tables are used with dynamic and stationary elements to add function and visual depth to a setting

Configurations can be planned to allow for various levels of movement.

dynamic with strap kit

The strap kit allows Building Block Seats to be dynamic where every unit can be moved.

dynamic with strap kit or fixed with ganging mechanism

The same configuration can be achieved using either straps or ganging kits depending on how dynamic the configuration should be.

fixed with ganging kits

All units are fixed and cannot be moved.

Bonds unique ability to connect with either straps or linking brackets makes it ideal for planning around walls and columns.

walls

Inside corner, either dynamic or fixed

Outside corner, either dynamic or fixed

Wrapping around inside and outside corners, either dynamic or fixed

Outside corner where walls are not straight

columns

Seats can wrap completely or partially around columns

Triangular tables can be used to create circular or curved configurations that can wrap completely or partially around columns

An unlimited amount of configurations can be created with Bonds depending on the number of Building Block Seats and Building Block Tables are used.

planning with bonds building block tables

Building Block Tables can be placed beside or between two Building Block Seats.

Articulation only happens between Building Block Seats

Building Block Seat placed beside a Building Block Table cannot articular.

Two Building Block Tables should not be attached to each other.

Building Block Seats must align with Building Block Tables, they cannot be offset, or rotated.

The triangular Building Block Table must be planned between two Building Block Seats.

Building Blocks are not intended to be used as standalone tables.

planning with bonds building block tables (continued)

The following should be considered when planning with Building Block Tables.

Building Block Tables are available with options for electrical outlets.

- Tables are open at the bottom to allow the table to sit over a floor monument
- Electrical Options:
- one USB-Å
- one USB-C
- Dimensions:
- Width: 3-1/4"
- Height: 2"
- Includes a 10' cable
- Location of the module is always in the center, available:
- single sided for all tables
- double sided for th Square Block and Rectangular Block tables

N B O T S Building Block Table – Square

FEATURES

- Modular lounge height table (10-1/4"h) that is used with Building Block Seats
- Seats can be linked from all sides
- Optional electrical modules available for single and dual sided applications
- Optional sliding literature holder is available which includes an integrated surface to place work tools

NOTES

Includes one Ebony linking bracket.

Top surface is only available with a flat edge.

Electrical configuration always includes 1 Power + 1 USB-A + 1 USB-C in an Ebony or Atrium White finish.

Electrical option includes 10ft (120") cable length and self contained certified housing.

collaborative ottoman overview

The Collaborative Ottoman provides casual seating for guests in a workstation or lounge environment. In a lounge, the Ottoman can be used in their own grouping or intermingled with other lounge seating, such as Teknion dna.

Collaborative Ottomans are equipped with casters intended for use on carpeted surfaces. Use of these casters on hard surfaces could result in unexpected rolling and tipping. Casters designed for use on hard surfaces are available.

teknion dna overview

Teknion dna is a line of modular lounge seating and tables designed to go beyond the traditional requirements of lounge seating. Teknion dna meets today's workplace needs of collaborative work settings for increased flexibility, reconfigurability and access to power and communications. The following typicals demonstrate the planning capabilities of Teknion dna.

idea starters

The Teknion Planning Tool provides idea starters for planning with Teknion dna products. Assets are also available for presentations and specifying Teknion products. The following are a few examples.

TEKNION PLANNING TOOL - TEKNION DNA

teknion dna planning possibilities

All Teknion dna units are based on-module of 13" to allow for unlimited planning possibilities.

This configuration consists of:

- Two Benches with Bolsters and Side Tables
- Two Benches with Bolsters
- Two Square Seats/Ottomans

The same components can be used to create the following configurations:

This configuration consists of:

- Four Benches
- One Square Table

The same components can be used to create the following configurations:

teknion dna seating basics

Teknion DNA Seating Components include Benches, Benches with Bolsters and Square Tables.

Bench with Bolster (NDNB) and Bench with Bolster and Side Table (NDNBT)

- The Bench back includes a track for mounting a bolster, which can be mounted in three positions, left, right and center
- Bolster can be ordered in a center locked position however lock position can be changed in the field
- Optional side table can be specified on the left or right side of the Bench with Bolster and provides one continuous base for wiring

• Side table can be specified with a solid top or with a data/electrical Module

Square Seat/Ottoman (NDNC) and Square Seat/Ottoman with Side Table (NDNCT)

- Optional side table can be specified on the left or right side of the Bench with Bolster and provides one continuous base
- Side table can be specified with a solid top, or with a data/electrical module

Floor Mounting Bracket (NDNF)

- Allows units to be securely linked to flooring
- Hardware is dependent on the types of floor and therefore not included
- To ensure proper spacing at least one Linking Bracket Kit (NDNJ) is required when securing to the floor

Linking Bracket (NDNJ)

- Allows units to be securely linked together
- When electrical is routed through the units, it is required that they be either linked or secured to the floor

Bench (NDNA) and Bench with Side Table (NDNAT)

- Optional side table can be specified on the left or right side of the Bench and provides one continuous base for wiring
- Side table can be specified with a solid top, or with a data/electrical module

teknion dna table basics

Teknion DNA Table Components include casual laptop and lounge tables and add-on or square tables that accommodate electrical data.

Add-On Side Table (NDNM)

- Available as a separate unit to add to an existing layout, or when reconfiguration requires additional
- · Must be attached to a Bench with Bolster, Bench, or Square Seat/ Ottoman, but certain linking restrictions may apply (see Application pages)

Data/Electrical Module

- · Can be specified as an option on the Square Table and Side Table
- Mounts directly to the table surface and provides standard capacity power, and includes one duplex outlet inside of a flip-up door

Square Table (NDNS)

- Provides a table top surface with the same footprint as the Square Seat/ Ottoman
- · Can be specified with a solid top, or with a data/electrical module

Also Available:

Freestanding Square Coffee Table (NDNTS) and Freestanding Round Coffee Table (NDNTR)

Provides table surfaces at coffee table height.

- Integrates with Teknion dna seating to provide a casual worksurface for use with laptops
- · Worksurface is large enough for a laptop and a mouse
- Is lightweight and foldable with a handle for mobility
- Tables can be nested

Laptop Tables integrate with Teknion dna seating to provide a casual

The table tops flip up, allowing the tables to be nested.

planning with teknion dna benches & tables

Teknion DNA Table Components include casual laptop and lounge tables and add-on or square tables that accommodate electrical data.

bolsters

Add-on tables can be specified as part of the bench, or be ordered separately as required. When the table is ordered with the bench it has one continuous base, when it is ordered separately, the bench and table will have two separate bases.

When planning with electrical, Teknion dna units must be linked together. Reveals alone the fronts and sides alone. Cables to pass from one another to the next and accommodate linking brackets.

planning with teknion dna benches & tables (continued)

/

Reveals are placed in specific locations which affect the configurations that can be achieved. The reveals must overlap in order to be connected.

Bench with Add-On Side Table Connected to another Bench or Square Seat/Ottoman.

understanding teknion dna power & communications

The following demonstrates how power and communications are routed through Teknion dna.

All power connections in Teknion dna are casual plug-in connections and can span a maximum of 15'. There is no hard-wire capability.

teknion dna recessed data/electrical module details

- Standard offering has three power outlets and a covered communication opening that can accommodate a variety of data connectors (not included)
- \bullet The communication opening is 1.38" x 2.72" for single gang mounting plates which will accommodate kits from AMP, Panduit, Hubbell, Leviton, Northern Telecom, AT&T, Lucent and others
- Module is 6.125" wide x 6.125" deep x 3.5" high

Pivoting Retractable door is finished in clear Anodized Aluminum

One top-accessed Duplex Power Outlet is finished in Grey.
One additional simplex power outlet can be accessed from the bottom.

Depth Adjustable Screw

Depth Adjustable Bracket is finished in Platinum

Top Plate and Data/Electrical Box are finished in clear Anodized Aluminum

Blank cover for Communication Opening is finished in Platinum Grey

Frame is finished in powder coat Platinum

Power Cord is 15' long and Black color with 3-prong straight plug

teknion dna finishes

The following outlines the finishes available on all Teknion dna units.

Due to the unique shape and size of **Teknion dna** and the inherent properties of some fabrics, mild creasing or puckering may result and is not considered a quality issue by Teknion. In most cases, the fabric can be smoothed-over by hand to improve the appearance. Seams will be applied to the top surface of seating units when leather is specified.

teknion dna coffee table basics

The following outlines the basic of the Teknion DNA Coffee Table.

Teknion DNA - Rectangular Freestanding Coffee Table (NDNU)

- Sizes available: 52" long x 26" wide x 16" high 60" long x 26" wide x 16" high
- Surface finishes include Compact Laminate, Flintwood and Natural Veneer and Custom Wood Stain
- Post finishes include Platinum, Storm White, Ebony and Polished Aluminum
- Provides large lounge height worksurface in collaborative applications
- 26" wide to provide space for back-to-back laptop use

NDN

Teknion dna – Modular Seating Bench

FEATURES

- · Base provides access for routing wires from unit to unit
- Optional Bolster can be positioned in three locations or locked in place with the bolster lock option
- Modular design allows other Teknion dna components to connect from all sides
- Optional side table provides a worksurface and access to power and data
- Optional data/electrical module
- Multi-surface glides

NOTES

Side Table is specified left or right from the seated position but can be reconfigured on site.

Side Table pricing includes a Compact Laminate surface. If a Flintwood or Natural Veneer is specified, an additional upcharge applies.

If Compact Laminate surface finish is specified, the edge will be Black. If a Flintwood or Natural Veneer surface is specified, the edge will be Baltic Birch.

Optional Data/Electrical Module is Anodized Aluminum.

If Bolster with Lock is specified, the lock will be in the center position but can be reconfigured on site.

Single Upholstered: The same upholstery is applied to the bench and bolster.

Dual Upholstered: Two different upholstery options are applied to the chair, one to the bench and the other to the bolster. The first fabric listed will apply to the bench and is the grade used to price the chair. A dual upholstery upcharge applies.
