adventura

features

Adventura is a flexible lounge collection including a lounge chair, settee and sofa with a variety of options to fit in various workplace applications. Designed by the Studio TK Design team, Adventura brings in classic design details of European styles paired with Studio TK's flexible options to allow designers to select multiple fabrics, finishes and optional details. Inspired by a "choose your own adventure" selection of finishes and configurations makes this simple set of pieces very expansive for refined corporate spaces or crafted start-up environments.

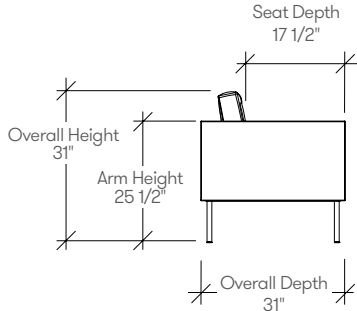

The versatile lounge collection offers two leg styles, a four leg post or sled version, in either powdercoat paint or polished stainless steel. Additionally, a broader range of back cushion options including a no-tuft back, a sewn in tufted back or a button tufted back expands the options and applications for Adventura.

africa

features

In partnership with Vondom – a leading Spanish provider of furniture for modern indoor and outdoor commercial spaces – Studio TK is offering Africa seating in North America.

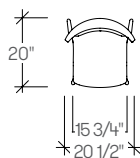

The Africa collection includes a chair, armchair and bar stool. The essence of this collection is reflected in its simple and natural forms. As the Africa collection’s designer, Eugeni Quitllet, says: “The most simple things are the most original... The most original thing is to be simple...”

Africa chairs is made of injected polypropylene with fiberglass. Chairs and stools are stackable and available in several colors.

borough

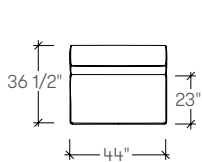

features

Hospitable by nature, elegant by design, the modular lounge collection introduces a casual sophistication to any social setting. Borough lounge raises the bar of modular seating by combining home seating elements with the modular flexibility necessary for today's workplace. The application options of Borough are endless. The broad array of individual modular pieces expands the possibility of adaptation when planning spaces not only today but well into the future. As the needs of a workplace change, the Borough Lounge can adapt to fill those needs because of its compatible sectional geometry. The uses can be as simple as a single seat banquette to a room-filling back-to-back serpentine. Borough's modular system brings elegance, comfort, versatility, and functionality to any office environment.

borough

planning

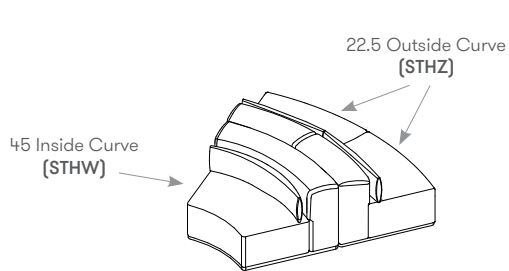

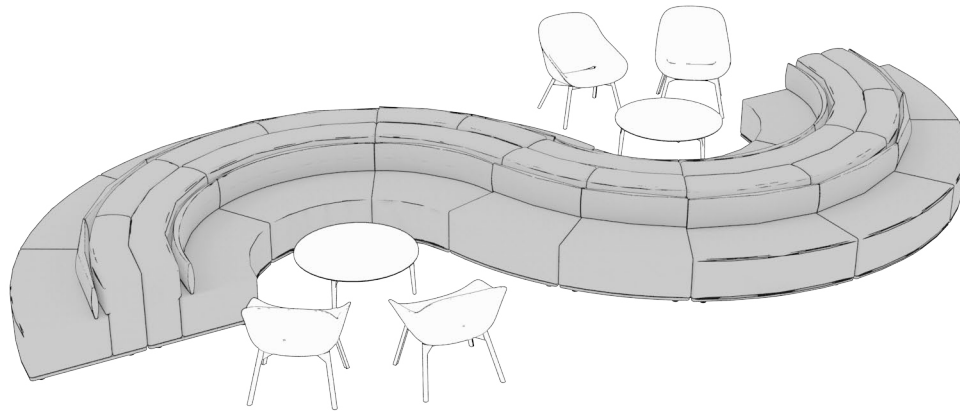

A variety of configurations can be achieved with Borough, allowing for various configurations. The following typical demonstrate the versatility that can be achieved.

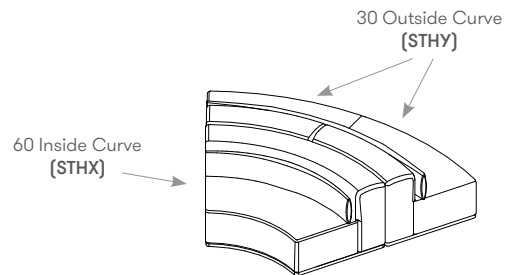

borough

details

The curved modular pieces are designed to form a double serpentine or be placed back to back.

Two 22.5 Outside Curve units pair with one 45 Inside Curve Unit

Two 30 Outside Curve units pair with one 60 Inside Curve Unit

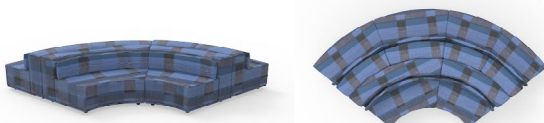

Two 45 units can be ganged to create a curved 90

Two 60 Units can be ganged to create a curved 120

note on finishes

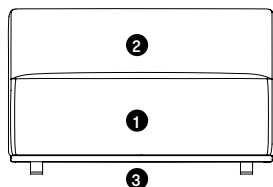

Studio TK does not recommend using patterned or striped textiles on the Borough Lounge. These textiles will become askew during the fabrication process, which causes distortions to the pattern or stripes, deviations to the pattern or stripe across the entire piece of furniture, and pattern or stripe misalignments from sectional to sectional. For these reasons, Studio TK will not accept warranty claims for pattern matching distortions, deviations or misalignments when patterned or striped textiles are applied to the Borough Lounge.

specifying borough finishes

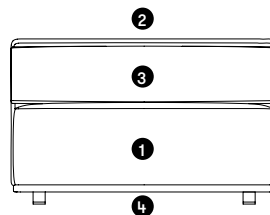

The modularity of Borough permits a wide range of fabric combinations that allows for an expressive use of color, texture and material.

Note:

Studio TK does not recommend using patterned or striped textiles on the Borough Lounge. These textiles will become askew during the fabrication process, which causes distortions to the pattern or stripes, deviations to the pattern or stripe across the entire piece of furniture, and pattern or stripe misalignments from sectional to sectional. For these reasons, Studio TK will not accept warranty claims for pattern matching distortions, deviations or misalignments when patterned or striped textiles are applied to the Borough Lounge.

COM/COL material
requirement

Yardage is based on a non-patterned fabric. Additional yardage may be required for pattern repeats and the matching required. Leather yield may be affected by the quality of the COL. However, variance in the size of the hides will not affect the yield.

cesto

features

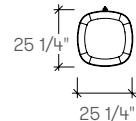

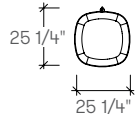

Cesto, spanish for 'basket', is a collection of interactive seating and table elements designed to address the dynamic collaborative and social behaviors typical of today's work environment. The lightweight, easily mobile poufs allow for people within the office to move pieces around the space at their hearts content. The stools allow for quick touchdown collaboration at traditional 29" high tables and the poufs and benches with or without backs were designed for more social spaces and allowing for collaborative work at a 26" high table.

clip

features

Clip is a versatile seating option designed by the Swedish architectural partnership Claesson Koivisto Rune.

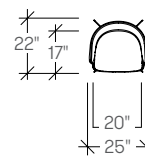

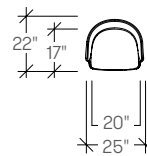

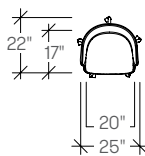

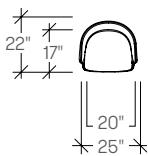

Clip was inspired by the common hair band used on the head. Visually, it creates the curvature of the back with the clip. Designed for Studio TK, the chair's rounded aesthetic is accentuated by crisp, clean stitching. Clip features a wide range of colors that can create a beautiful hospitality-type moment with the use of a more neutral color, or a more iconic moment with an interesting pop of color.

Clip can be specified in five-star caster, four-leg in metal, four-leg in wood, and in pedestal cross-base options to suit a host of commercial settings. Bases are finished in polished and painted aluminum, as well as in a hard-wood option.

cover

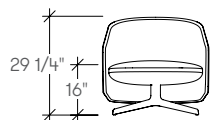

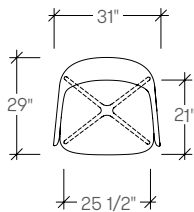

features

Designed by Claesson Koivisto Rune, the Cover lounge collection is inspired by classically tailored garments worn in a layered style. The collection plays in tune with any room, office or even home. With a high degree of upholstered comfort, Cover creates a light-scale environment perfect for quick meetings and conferencing or a private nook for individual reflection. The four-star swivel and the four-leg base can be finished in polished aluminum or embellished with color in any of Studio TK's Fundamental or Fashion powder coats.

dimensions

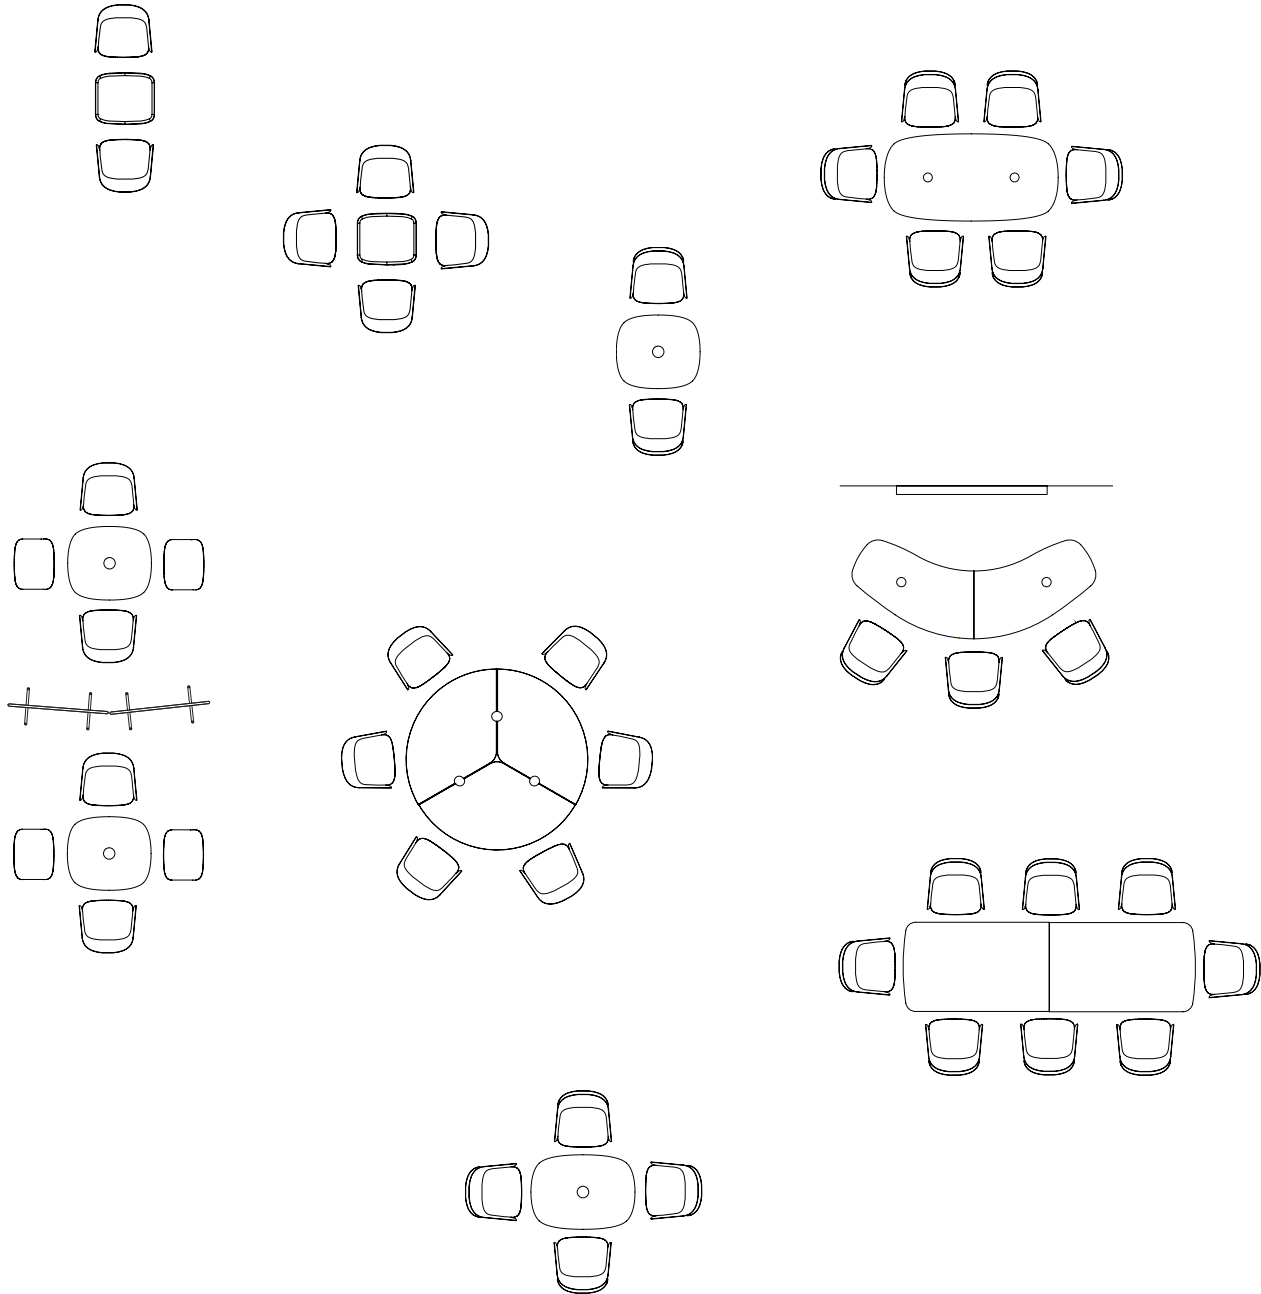

- Designed and tested for users up to 300 lbs
- Meets ANSI/BIFMA requirements

delta

features

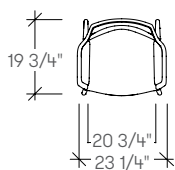

In partnership with Vondom – a leading Spanish provider of furniture for modern indoor and outdoor commercial spaces – Studio TK is offering Delta seating in North America.

The Delta collection by Jorge Pensi blends equally well with exterior or interior contemporary spaces. The design intent behind the Delta chair was to create a timeless product that constantly seeks to strike a balance between realism and surrealism – matter and antimatter, abstraction and emotion. The goal was to maximize emotions while minimizing resources, questioning the common logic of something new. Delta seating is made of injected polypropylene with fiberglass. Chairs are stackable and available in several colors.

dual

features

Dual lounge is a dynamic seating collection designed to celebrate expression and elevate the conversation. The duality of materials offers a seat ripe for expression. Upholster in a single color, or two, or split the difference with a partially opaque knit base available in 11 finishes. A posture fit for every occasion, a low back chair for a relaxed or casual collaboration. A high back chair for when you need time to unwind and recharge. The lounge design introduces a residential aesthetic to bring a welcoming sensibility to a range of spaces – so that work doesn't feel like work.

F500 series

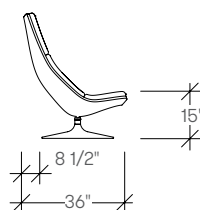

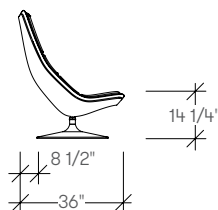

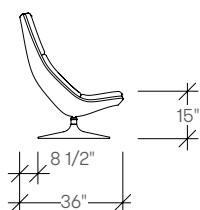

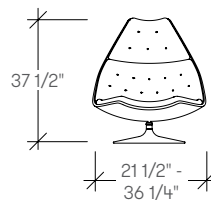

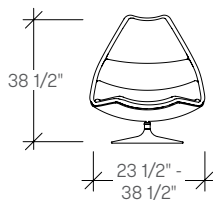

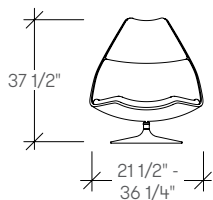

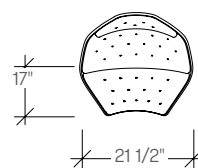

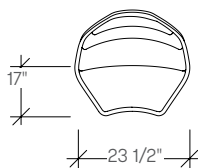

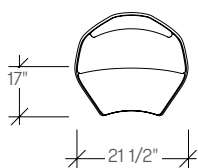

features

The F500 Series, in partnership with Artifort, encourages a moment to relax or recharge during a busy workday. Designed in 1967 by Geoffrey Harcourt RDI, the F500 Series lounge was inspired after noticing his girlfriend sitting in furniture cross legged. With comfort in mind, he designed a chair wide enough for this informal position. Choose from three upholstery styles from a smooth fixed upholstery for sleek modernity to a traditional tufted for elevated formality. Add personalization with a variety of powdercoat finishes to the disk base to create your own refuge.

fractals

features

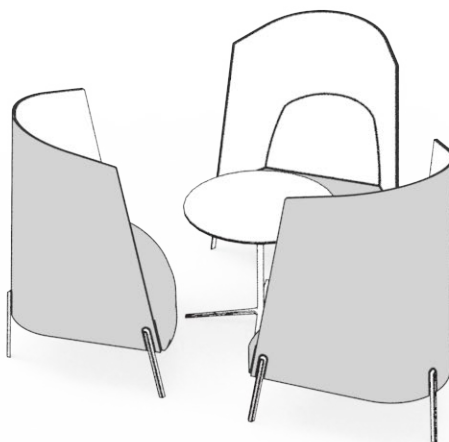

Fractals Seating is boldly innovative and visually compelling and opens up new planning possibilities for contemporary, forward-thinking environments. Fractals is designed to support the worker and groups of team-based workers in open and collaborative environments and to provide a modular program that creates a new level of planning.

Fractals consists of two simple pieces: a Settee and Lounge Chair, with either low or high backs to create various degrees of surround and privacy. An optional power unit is available for added functionality and mounts below the seat.

- Fractals seating elements work alone or together to create environments that focus on the needs of individuals or teams
- The Lounge Chair functions well as an alternative to touchdown desking, offering a seating surface wide enough to support the comfortable use of tablets and laptops
- The higher back on the Settee and Lounge Chair provides a clear delineation of space and creates a great sense of privacy

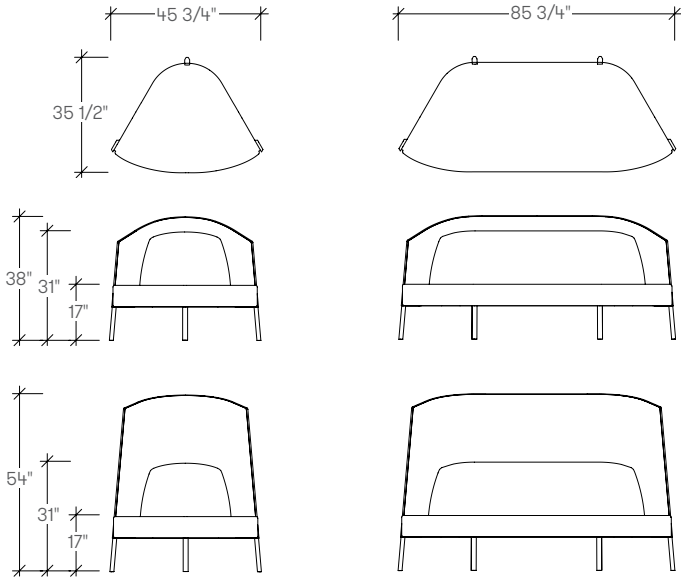

Fractals Seating with an interior and exterior back contrasting upholstery creates booth scenarios to allow for cool or muted colors on the exterior and vibrant colors on the interior. The contrast allows for people to be surrounded by colors for inspiration while keeping the exterior muted as to not distract other in the office.

havn

features

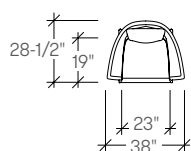

Havn is a Scandinavian-inspired seating collection comprising a winged lounge chair and settee. In Danish, “havn” means harbor, suggesting that this lounge chair is a good place to “dock” during the day with a coffee or a book. It’s a retreat from the norms of everyday work.

Havn enables open lounge settings or focused work with its high back. A highly sculptural back that nestles in the craft-oriented frame somewhat “pinches” it together to make the upper form. The back is wrapped organically within the wooden frame, surrounding a soft bolster pillow for comfort. The curved wooden frame cradles the upholstered seat with a carefully crafted void in the rear that makes it visually stunning.

infinito

features

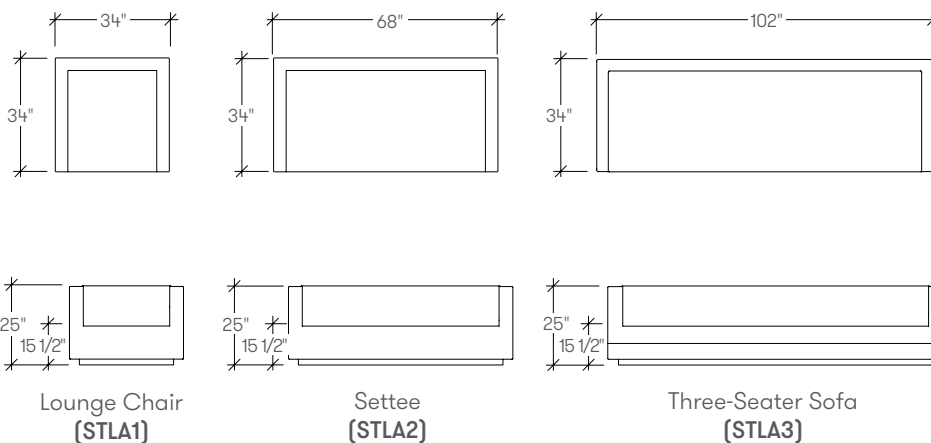

Infinito brings a traditional lounge look with a not-so-classic feel to any scenario. Designed with an intentional, rigid exterior and a soft, relaxed interior, Infinito brings the comforts of home to the office. Available in Lounge Chair, Settee and Three-Seat Sofa configurations with contrasting textile applications possible for multiple variations of color.

Infinito sectional provides all the same comfort and modularity as the Infinito Lounge collection, with an even more lifestyle personality. Ideal for lounges, greeting spaces and public areas, Infinito can be reconfigured in infinite ways since each piece has the same footprint. The Infinito sectional provides even more ability for social connectivity and community.

infinito

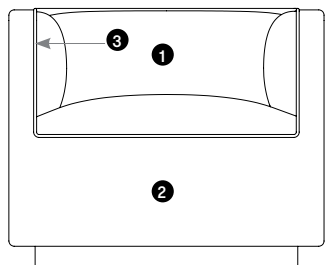

planning

A variety of configurations can be achieved with Infinito paired with other Studio TK pieces, allowing for various configurations. The following typical demonstrate the versatility that can be achieved. All units are built on the same footprint, providing maximum flexibility.

specifying infinito finishes

The modularity of Infinito permits a wide range of fabric combinations that allows for an expressive use of color, texture and material. The outer frame upholstery, the inner seat upholstery and the seat welt upholstery can all be finished in a different fabric if desired.

jima by Artifort

features

Offered through a partnership with Artifort in Schijndel, The Netherlands, Jima is a sleek, expressive chair that fits seamlessly into different worlds – home or office. Particularly noteworthy is the single, flowing line running from the top of the back, via the arms to the bottom of the seat. This makes it appear as if the seat cushion is locked in an embrace, providing ergonomic perfection and maximum comfort. Designed by Paris based Patrick Norguet.

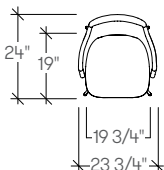

Jima is available in three versions: a steel 4-legged base, an elegant swivel star-base, and a 5-legged height-adjustable swivel base with castors. The chair is offered in an extensive range of fabrics and colors, encouraging and accommodating any interior style.

kuskoa by Alki

features

Kuskoa is rethinking the role of form and materiality in the new workplace. From large cafes to small collaboration zones, the chair, counter and bar-height stools offer versatile elegance to pair with a range of table types. The stools provide a mid-back support for longer gatherings and a metal foot rest to encourage good posture. A range of material options and finishes provides a variety of ways to express your space. The veneer shell nestles within a solid oak base, which can be finished five ways. Material accents can complement the warmth of the wood with optional inner and outer seat upholstery.

lasai by Alki

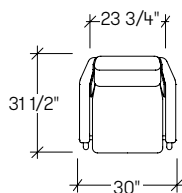

features

Lasai, a lounge with a calming sensibility and a crafted touch. The low profile, Hans Wegner-inspired recline is ideal for getting comfortable and catching up with colleagues. From the Basque for 'calm', the lounge's visual and tactile cues infuse a sense of balance in today's ephemeral work environment. The single and double seat configurations constructed with a wraparound solid oak structure for a welcoming lifestyle feel for your workplace. The oak frame can be finished five ways to add warmth, while the cushions and outer shell allow for a mix of upholstery finishes that can accentuate a space with a quick blast of color or subdue it with a muted palette.

libelle

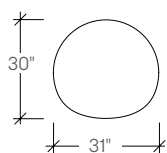

features

Libelle, Dutch for “Dragonfly”, is a functional, yet whimsical, collection of seating options, including: a pouf, a low back lounge chair, and an innovative lounge chair with privacy. Designer Khodi Feiz created Libelle to deliver a personal escape while accommodating small collaborative interactions. An optional tablet arm is a versatile addition that will enhance functionality and can be installed after it’s placed to either the left or right side. The laid back but sophisticated style of Libelle is perfect for today’s flexible work environment.

petal

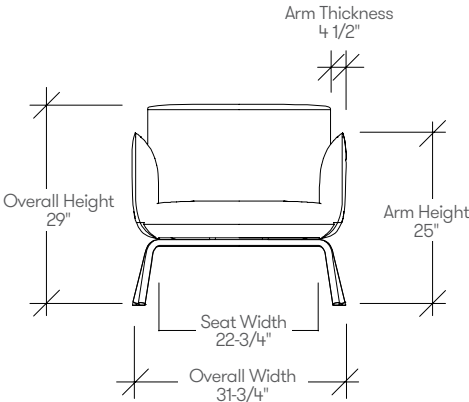

features

Petal Lounge provokes an essence of nature and mimics the blossoming of a flower with the natural organic curves of the chair. The sense of tranquility Petal brings into a space adds an inviting atmosphere to any room. Designed by the Studio TK Design team as an accent piece in a traditional lounge environment or used in multiples for a stand-alone greeting space, Petal can enhance any space.

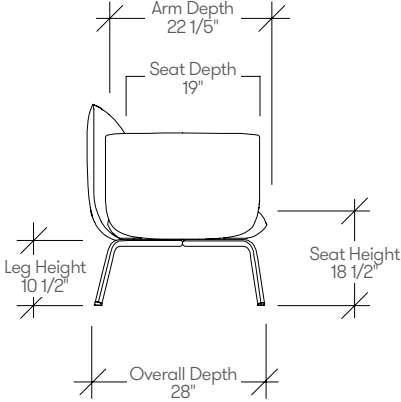

Paired with an exposed plywood base or one of the two metal base options in an organic paint color, Petal exudes a natural calm. Petal includes three base styles including an exposed plywood base, an auto-return swivel disc base, and a four-leg metal base.

pico

features

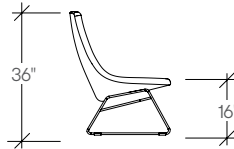

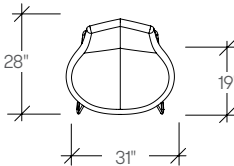

Inspired by Mt. Pico, Portugal's highest mountain peak, Studio TK's Pico Lounge is perfectly designed for public spaces, offices, lounges, or collaborative areas. Pico brings a sculptural element to today's workspaces from back to front. To achieve this goal, famed designers Flemming Busk and Stephan Hertzog used folded paper to create the natural shape of Pico. The organic appearance of both the low back and high back versions evoke a sense of comfort, encourage free movement, and open various seating postures. Complementing the free-flowing design, three very distinct bases are available: a 4-star swivel base, metal sled base and wood leg base. As a result, Pico is everything you want from a lounge chair; it is inviting, warm, and welcoming.

trine

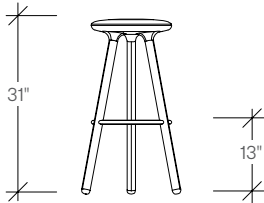

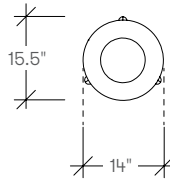

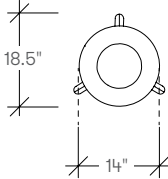

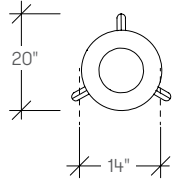

features

The Trine Stool, designed by eStudi Manel Molina, was inspired by the classic and iconic three-legged milking stools used on farms in Spain. Manel combined his experiences of growing up on a farm and his artisanal background to create an alluring stool that is as simple as it is complex. Trine takes fabric, metal, and wood to produce a breathtaking design where a unique metal base and footrest seamlessly intertwine with metal or wooden legs. Trine's three sizes, a dining height, a bar height, and a counter height, combined with Studio TK's multiple textiles, wood finishes, and powder coating options, bring flair to all residential, hospitality, and workplace applications.

vettore

features

Vettore is a modular lounge system designed with classic, tailored sensibilities while offering an efficient modularity to adapt to evolving flexible work space. Designed by Toan Nguyen, Vettore configures within any environment to create intimate lounge settings or fill spacious public scenarios. Built on a universal base “stage”, Vettore allows for unlimited user specification with upholstered or table components to create a customized sofa to fit their needs. Vettore, Italian for “vector” or “array”, divides space comfortably and adds elegance to thoughtful casual work styles.

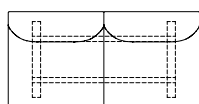

The selection of individual components allows for contrasting textiles and finishes for endless possibilities. Every sofa is custom to every environment. Vettore avoids the conventional modularity of freestanding components and adds a visual lightness to a space through a low profile base.

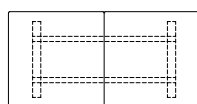

Vettore seating consists of the following preconfigured styles.

planning

Bevy enables personalization within every configuration through Studio TK's finishes program. Base finishes, including polished aluminum and powder-coat colors, achieve true customization and durability in high-use areas like cafés and dining spaces. Several top sizes in different top surface finishes create an array of choice. A substantial frame under-structure allows for easy wire management, along with providing strength and stability.

artifort compass

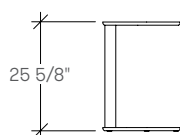

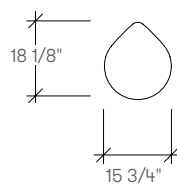

features

Offered through a partnership with Artifort in Schijndel, The Netherlands, Artifort Compass tables are simple, elegant wooden companions that enhance seating spaces and adapt naturally to flexible lifestyles. Designed by Mike & Maaïke, Artifort Compass' semi-circular surface is welcoming from many angles, allowing individuals to position and reposition to suit your needs quickly.

Artifort Compass perfectly harmonizes with Studio TK's chairs, lounges, sectionals, and sofas. Its low-profile base slips conveniently under your sofa or chair while its cantilevered design brings the surface comfortably close. Artifort Compass can be rotated to one side, positioned in front, or hovered over your lap, providing the perfect surface for a drink or the ideal position for your laptop.

fractals nook

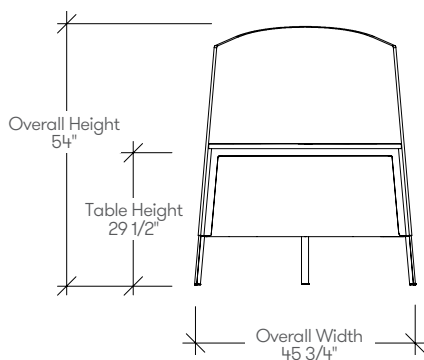

features

Fractals Nook, an extension of the Fractals Seating product, uses an organic high shell with an added worksurface to create an intimate desk carrel for heads down work. Fractals Nook allows for users to create a distraction free zone for work. The natural curves of Fractals create unique space planning capabilities for social spaces that require the need for privacy. The addition of the Fractals Nook now allows for new planning scenarios for the complete Fractals line. It offers the ability to intertwine high back lounge pieces with high desk nooks.

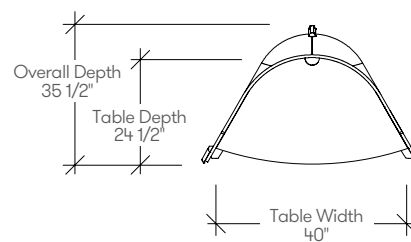

Fractals Nook allows the same broad canvas of the lounge series for the selection of multiple fabrics and finishes to create your own distinctive look. Powdercoat finishes on both the legs and the inner frame are chosen individually as well as inner and outer fabric selection for those environments that encourage space division emphasized by finish.

freehand

features

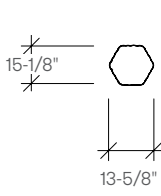

Freehand occasional tables were designed around the free-flowing pencil of an artist. The inspiration is the juxtaposition of a super mechanical process of extruding aluminum to these forms that are organic and imperfect, and flow from one piece to the next.

Though not perfectly symmetrical, table sides fit together to form a number of geometric shapes that can then be finished with tabletop surfaces. Sides are available in two shapes and three sizes. Freehand can be uniquely decorated in Studio TK's Fundamental and Fashion powdercoat finishes. Tabletops are available in leather, felt, linoleum and glass. The finishes narrative extends from a monochromatic look that's more hospitality-focused, to the felt and leather tops with a pop of color that tells more of a craft story. Freehand's breadth of options allows users and designers to customize to suit their project needs.

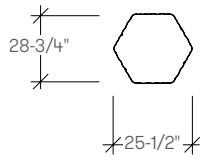

Designed by the London-based studio Pearson Lloyd.

havn tables

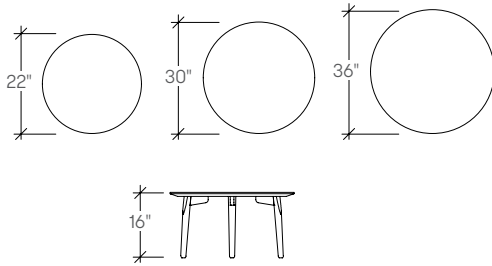

features

In coordination with the Havn lounge series, Busk+Hertzog set out to create a small yet versatile series of universal occasional tables that matched Havn seating's crafted architecture.

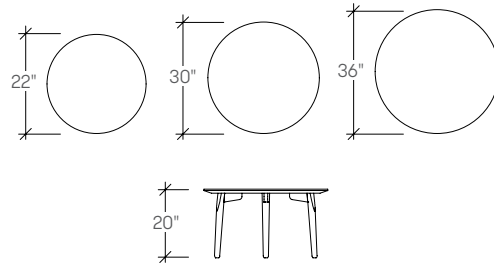

Havn tables complement Havn lounge seating both in design and functionality but, at the same time, work perfectly on their own or together with other lounge furniture, within or outside the Studio TK collection. Combining various heights, sizes, shapes, materials and colors, Havn configurations are as endless as the ways they can be applied.

rec

features

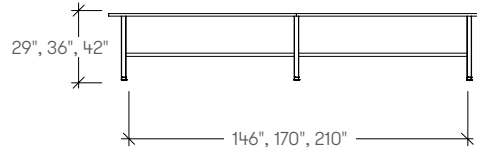

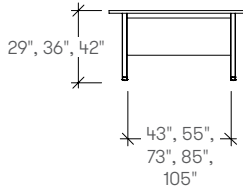

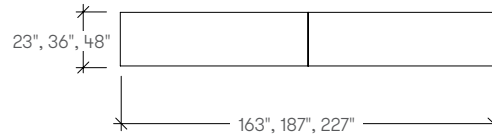

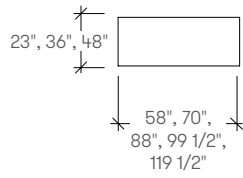

Designed by Christophe Pillet, Rec worktables are inspired by the raw, rectangular worktable from the industrial age. Rec creates high work postures ideal for today's social spaces. Rec worktables provide compelling high work settings for the more active worker and creative types – those who need to sit or stand and accomplish solo, heads-down work. Rec supports applications that serve both perimeter and open space planning, for personal touchdown, quick gatherings and longer-term collaborative work scenarios.

Rec worktables are offered in three popular heights. Two top styles in multiple sizes are available in linoleum, laminate and veneer. Three base styles are offered in a wide variety of powder coat colors.

sly

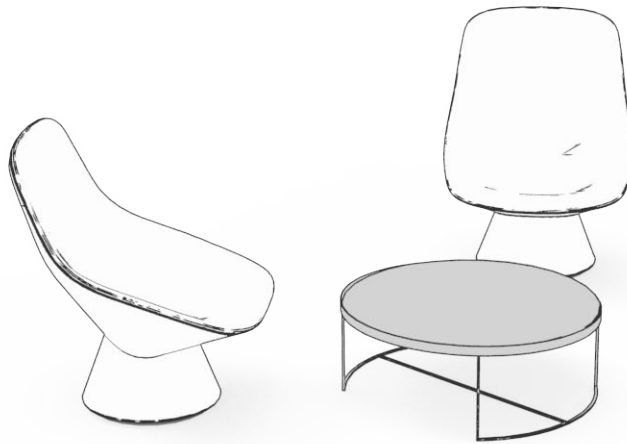

features

The Sly Table series is illusory, tricking the viewer's eye. Although the table surface appears to be angled, it is perfectly level.

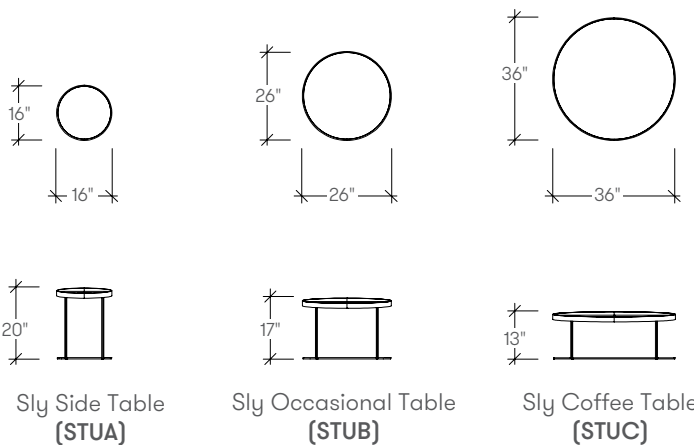

Sly is a crafted, light-scale occasional table series with a simple, unbalanced approach. The edge detailing creates a sense of non-conformity to traditional norms. Surface materials include linoleum, laminate, veneer and back-painted glass. An exposed plywood edge detail is featured with linoleum tops.

The unique base design incorporates three diameters and heights, comprising Side, Occasional and Coffee Tables. Various base sizes increase visual interest in a setting when multiple Sly tables are specified, and enable the overlapping and nesting of tables.

The materiality of the inset top, in combination with an expansive base palette, allows designers to create iconic lounge, greeting or public settings.

Cable Managers are magnetic and can be positioned anywhere on the metal structure of the table:

- Included when a power cut out is specified
- Available for single and split tops
- Single Tops accommodate the STYD and STYE Power Bumps
 - 58", 70", 88" include 4 cable managers
 - 99" and 119" include 6 cable managers
 - 163", 187", and 227" include 12 cable managers
- Split Tops accommodate the STYQ and STYR Power Bumps
 - Single power units include 4 cable managers
 - Dual power units include 6 cable managers
 - Quad power units include 12 cable managers

Magnetic cable managers are finished in Black.

Power Routing

- 1 Place at least one magnetic manager on the sub-top rails to ensure cable is not visible underneath top.
- 2 Place at least one magnetic manager on the inside of the table leg to route the power cord down the leg. If power monument is located at one table end you may use two managers here. (Inside of leg is recommended however you could also place on outside of leg.)
- 3 Place one magnetic manager on the cross beam of the leg assembly to either go to the floor (if monument is at end of table) or to route to center manager.
- 4 Place one magnetic manager directly above floor power monument (if between table legs) to route cable to the floor.

jean

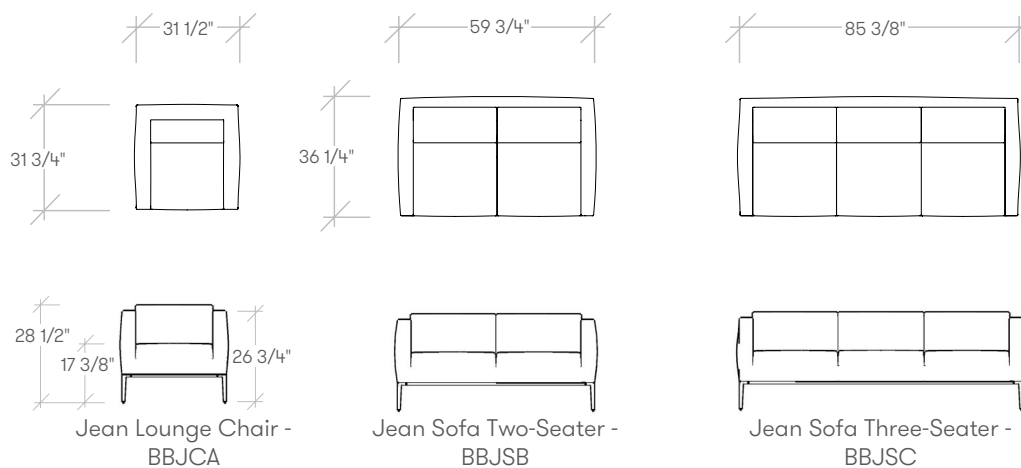

Jean has been designed with comfort in mind, offering a high sitting position combined with a strong yet minimal design. This lounge chair works well in offices, hospitality and public spaces as well as residential interiors.

Designer: Antonio Citterio

dimensions

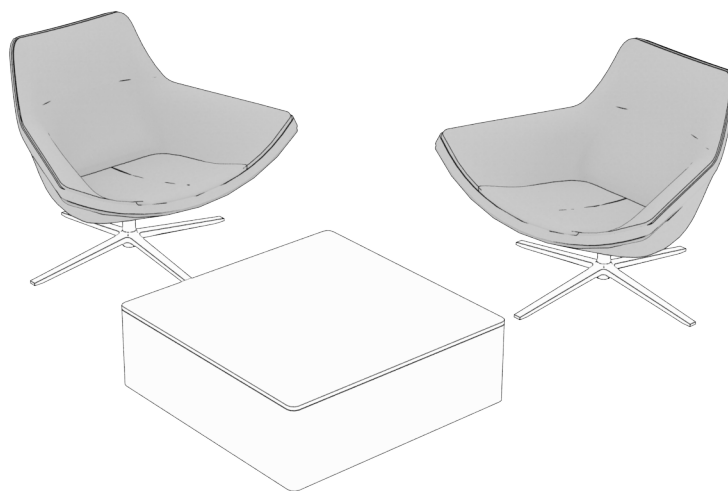

- Designed and tested for users up to 110kg/242 lbs
- Meets standard European NEN-16139 requirements

metropolitan 14

Metropolitan 14 is the reinterpretation of the classic Metropolitan chair. The volume of the chair has become thinner and the surfaces have enhanced their flowing design with a fully integrated seat cushion. The chair design is an invitation to sit down and enjoy a moment's rest while still interacting with the environment from a comfortable position.

ac executive

Designed by Antonio Citterio, AC Executive provides a distinctive range of wood-based furniture designed for executive offices, meeting rooms and home office.

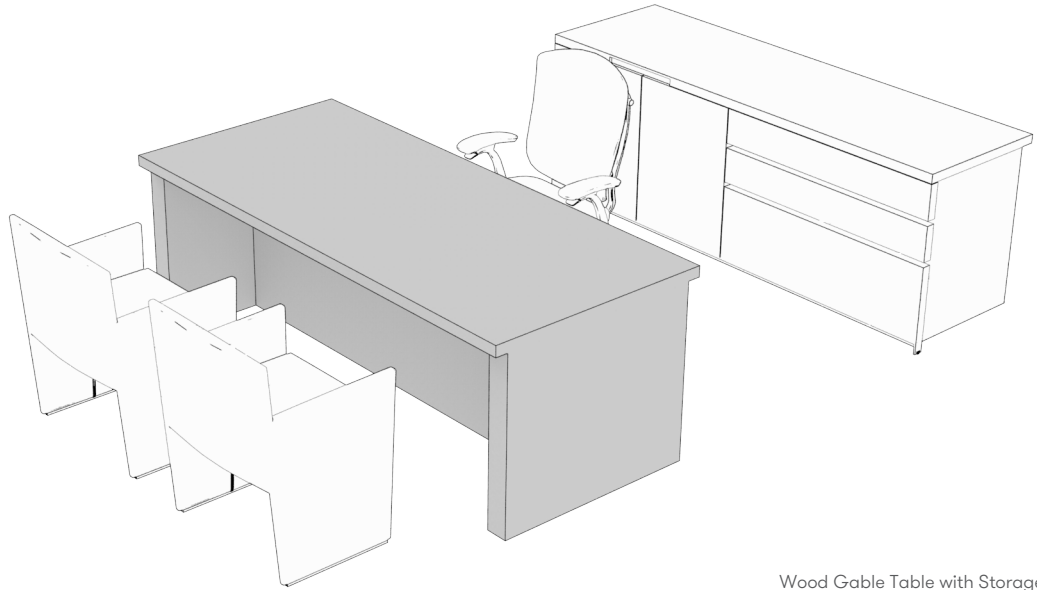

Select from a complete series of Storage Walls, Bookcases, Credenzas, Desks and Tables to create a beautiful and functional workspace. Hand-selected horizontal grain veneers are finished with a matte sheen and complemented with polished chrome legs and accent detailing. Product features include: concealed soft-close hardware, veneer-matched drawer boxes, back-painted magnetic glass, LED lighting, wire access/management and acrylic floating dividers.

AC Veneer Group includes these finishes only: (P7) Grey Oak, (P8) Light Brushed Oak and (P9) Smoked Oak.

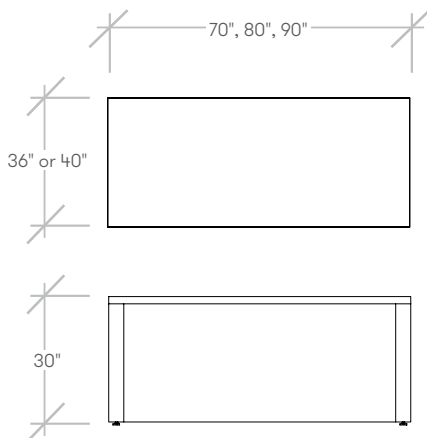

tables

Tables are available with wood gables or with X-Legs. These tables are intended for private offices or small meeting rooms.
