## district

District® is a collection of desks, cabinets, windows and walls that reinterprets systems furniture. District echoes the attributes of mid-century furniture with long, low lines, achieving refined transparency with layered surfaces while making efficient use of smaller spaces.

## leverage

Leverage® makes it easy to customize the office, allowing the desired level of features to be specified for each workspace, while achieving a crisp, clean look at an affordable price. Leverage fulfills these attributes with a wide range of panel styles, off-module planning, stackability, interchangeable elements and 120-degree planning capabilities.

# upStage

upStage™ brings a new topography to the office landscape. Based on a simple platform or stage, upStage frees users from the constraints of a benching frame or panel, allowing you to build along a horizontal or vertical plane to create layered worksurfaces and multi-story volumes. upStage is real furniture that can be mixed, stacked and moved around.

# interpret

Interpret™ is a contemporary desking system based on a core frame platform that can be built upon, extended or fully reconfigured. Interpret also addresses the readiness of people and organizations to embrace benching by introducing new planning concepts and capabilities, while drawing from the legacy of classic systems furniture.

## expansion cityline

Inspired by the definitive patterns of the urban landscape, Expansion® Cityline's unique design employs a beam framework that maximizes office connectivity. The beam serves both as a structural spine and as an avenue for data and power to and through work and social zones across the office.

## chronicle

Chronicle refines the expected casegood to be something more: modern, elevated, inviting. An extensive selection of neutral finishes can combine in one setting to create a unique and unexpected look. Natural wood veneers are hand selected and matched per suite rather than component, for a seamless wood grain pattern across multiple pieces.

byward

Offering a fresh approach to casegoods design, Byward™ is about doing more with less. Composed of ten core products, the collection combines streamlined design, dimensions and construction to cost-effectively meet essential needs. Lending a familiar residential look to the office, pieces are scaled to optimize space.

Byward Leather

emote

Emote™ transforms the private office into the creative office. Lighter in scale, distinct furniture pieces are well-suited to smaller, more agile spaces. Emote is available in a range of unique finishes. The palette surprises and inspires through colored woods while maintaining the natural, tactile appeal of the wood grain.

## journal

Journal™ transforms private work areas into layered, multi-faceted spaces that enable a fluid mobility and varied levels of interaction. Overlapping elements create zones of activity designated as private, collaborative and public. Journal creates the not-so-private office – built for one, designed for five.

## dossier

Dossier™ is classic caseworks furniture with a clean architectural look. Layered surfaces and upper storage combine in multiple ways to meet user needs and spatial constraints. Low storage doubles as bench seating for visitors. Technology support is fully integrated into the design. Fine materials and refined details offer an aesthetic of quiet elegance.

## expansion casegoods

Expansion® Casegoods is a laminate casegoods collection suited to a broad range of office applications. A uniform product platform and choice of materials makes it easy to design classic or contemporary office suites tailored to budget requirements. Expansion Casegoods projects an image of quality at a competitive price.

## teknion reception

Teknion Reception addresses the broadening spectrum of how public and private spaces are blending within a reception area and migrating from classic to communal. The collection offers distinct desk designs as a platform, while inspiring customization to provide a built-in custom look anywhere traditional millwork cabinetry is required.
