

## cosmos series

Cosmos is a sleek, contemporary chair with a wide range of applications ranging from lounges to meeting rooms, breakout zones, hotel rooms and dining applications. It is upholstered in leather or in removable fabric covers and is available with a swivel base or stacking sled base. A matching table line is also available (please refer to the table section for more details).

Designer: Jeffrey Bennett

### COM/COL material requirement

Yardage is based on a non-patterned fabric. Additional yardage may be required for pattern repeats and the matching required. Leather yield may be affected by the quality of the COL. However, variance in the size of the hides will not affect the yield.
